The Town needs volunteers for Boards and Committees. Please become involved by returning this form to the Town Office.

Town Offices to which regular appointments are made include:

PLANNING BOARD

LIBRARY ADVISORY BOARD

RECREATION COMMITTEE

PARKS AND CONSERVATION COMMITTEE

ZONING BOARD OF APPEALS

It would be most helpful if particular fields such as finance, law, engineering etc. be emphasized on this form, so that the selections may be made on the best evaluation of interests and special qualifications possible.

TOWN MANAGER'S REPORT

To the Honorable Town Council and
Citizens of South Berwick:

It is with continued pride and pleasure that I submit to you the Annual Report for the year 1977. There is no possible way to touch upon every occurrence, event, or incident that has given 1977 unique spot in South Berwick's history. Therefore, this report must of necessity only highlight the major matters that involved your local government in the past year.

PROGRESS REPORT

The primary concerns of your Town Government included:

1. The completion and referendum vote on a comprehensive zoning ordinance - The defeat of zoning leaves South Berwick as the first inland town in southern York County a person comes to where no density and other building codes and standards have to be met. When this fact is coupled to the current talk of limiting the maximum number of building permits issued each year in three of our bordering towns, the rapid growth of land development here appears inevitable. This is seen, for example, in the recent proposal by an area developer to build one hundred apartment units on approximately thirty-three acres on the southern end of Route 236. The change of South Berwick's character, personality and overall image being changed from the current pleasing village-rural atmosphere to a faceless "suburban sprawl" is great.

2. The search for a solution to the disposal of solid waste- The State of Maine Department of Environmental Protection recently granted South Berwick a one year variance from having to daily landfill the dump. This variance is based on the Town ending use of the present dump by October 1, 1978. Presently, the possibility of a joint incinerator which produces steam for industrial use is being studied by the Sanford and Dover-Somersworth areas. Hopefully, the transporting of South Berwick's refuse to one of these sites will be possible. If this solution is not possible an option on a piece of land on Hooper Sands Road for a landfill site has been obtained. A Town run landfill appears to be considerably more costly than transferring solid waste to an incinerator because of the economy of scale for a large incinerator. Either solution is not going to be easy or cheap, but if they are combined with recycling of paper, glass, etc. either should work well and be environmentally safe.

3. The fate of several rural roads - South Berwick has currently about thirteen (13) miles of dirt roads; some of which have had little, if any, Town maintenance funds spent on them in many years. In the spring of 1977, the Town Council formed a subcommittee to study a process of classifying all roads. A formal statement from the Town as to the type and amount of maintenance any road will receive in the future would be in writing under this classification process. After looking at all town roads several roads raised a question as to their present status because of the lack of repair to them in some time. The classification "recreational" was coined and the process of partial discontinuance of five of these roads was held (including public hearings in June and July). In September the Town Council voted not to classify the roads as "recreational" (partially discontinue them). Also in September the Town Council voted to snowplow one of these roads (Belle Marsh Road). A public petition to overrule the snowplowing vote brought it to a Town vote in early December. The Town vote overruled the Town Council. At the same time, the Town Council also held an opinion poll on whether or not they should classify the five roads. The opinion poll vote was in favor of classification. Later in December the Town Attorney advised the Town Council that (1) because of the public hearing process would have to be repeated and the Town Council's decision must be based solely on the facts presented at that hearing (similar to a judge's decision) (2) and in favor of the classification of the five roads because of the opinion poll, (3) then therefore, the Town Council should look at abandonment (no Town maintenance in 30 years or more) rather than partial discontinuance (any road may be discontinued in whole or part) of the roads in question. The Town Council agreed to look at abandonment of the roads. As 1978 began, the Town filed a lawsuit to obtain a judgment on whether about 3/4 of Belle Marsh Road is indeed abandoned. (Meanwhile, about 1/4 of Belle Marsh Road is being plowed because research showed Town funds had been spent on it within the last 30 years and therefore it could not be declared abandoned).

4. The Strawberry Festival Weekend - The success of the Bicentennial Week was continued in 1977 by a great many dedicated volunteers who made the Strawberry Festival Weekend a classic example of community spirit and a fond memory for everyone. The 1978 Weekend is a cause for great excitement and anticipation.

DEPARTMENTAL OPERATIONS

The Fire Department volunteers continued the excellent quality service that has become their trademark. A debt of sincere gratitude is owed by all Townspeople to these unselfish people. You will aid the Fire Department if you take a moment to fill out and return the household fire hazard report in the front of this report.

The Highway Department completed the Witchtrot Road and returned to the Tatnic area to continue the building of the unbuilt dirt roads there. About one-half of the construction of the Ogunquit Road between Emery's Bridge Road and the Bennett Lot Road was completed. A large loader was bought and has proved to be an excellent tool and a real timesaver. Overall, the maintenance of roads was very good, especially during the severe weather of January through March.

The Police Department was expanded to five members in June as the result of the Annual Town Meeting granting additional money to reduce the Police personnel workweek to forty (40) hours from sixty (60) hours. It is hoped that the high turnover rate of officers in the past will be reduced by the forty (40) hour workweek. The Police Department had a good record in both traffic and property related crimes during the year.

FUTURE

The Progress Report above clearly shows that 1977 set the stage for the important tasks that will occupy the Town Government during 1978. Development of South Berwick's outlying rural areas and the resultant squeeze placed upon Town services, especially road maintenance; the continued search to solve the solid waste disposal problem once and for all and debate regarding upgrading of the present low quality tax assessment system - before the State does it for us - will be some of the prime topics in 1978.

CONCLUSION

Whenever I am asked why I would ever want such a job as this, my reply includes this comment: I can think of no satisfaction greater than working with people who are dedicated to providing essential services to their community. The cooperation and diligence of the Town officials and employees during 1977 has made my fifth year as Town Manager outstanding. I look forward to the future.

Respectfully submitted

Rudolph Naples
Rudolph Naples

When someone tells me "The Town Manager runs the Town" my reply is "The Town runs the Town Manager". It is a shared responsibility to run your Town. Town officials and employees can do nothing without the active concern, input and guidance of all Townspeople. Please do not shirk your share of the load of running this local government. Come to some meetings, find out for yourself firsthand what's going on, GET INVOLVED. The sentence should say "The Town runs the Town".

CODE ENFORCEMENT OFFICE

SUMMARY 1977

The year 1977 brought a change of administrators to this office. Roland A. Geib left his position here to assume the responsibilities of the Wells area. His technical knowledge and outstanding service will be missed in this community, and we wish him well in his new position.

Construction, alteration and repair subject to state statutes and local ordinances indicated a slight dip from the previous years, i.e. 15%; however, this should not be construed as a stabilization or deceleration of growth. The present growth trend of this community establishes an expansion rate of 185% over the previous two years with major development proposals presently in the offing.

A breakdown of the major categories of permits issued in 1977 are as follows:

Plumbing Permits

Correction of malfunctioning disposal systems	15
New permits	67
Total	82

Building Permits

New housing starts	33
Mobile home installations	9
Out buildings	19
Renovations	6
Additions	30
Mobile home removals	3
Swimming pools	3
Total	103

There were no major changes in the Maine State Plumbing Code by the Division of Health Engineering this year, although there are proposed changes for 1978. When, and if, these changes are affected this information will be available to interested parties. The only notable divergence from previous policy by the state was a transfer of responsibility to the community for the prosecution of plumbing code violations.

Due to local response, this office has had continued success in the correction of malfunctioning disposal systems. A malfunctioning system is not only a health hazard to the owner and his family, but to the entire community. Please feel free to consult this office for assistance in correcting problems of this nature before they become serious.

H. Kenneth Main, Jr.
Code Enforcement Officer

SOUTH BERWICK FIRE DEPARTMENT
REPORT FOR 1977

Woods, grass and rubbish fires	23
Chimney fires	8
Structure fires	8
Accidents & vehicle fires	20
Gas spills	1
Furnace and stove fires	3
Electrical fires	7
False alarms	3
Out of town calls	23
Other calls	13
Still alarms	<u>34</u>

Total 143

Fire permits issued	157
Fire damage	\$20,000

In 1977, the heating system at the Fire Station had two zone valves installed to regulate the heat throughout the building to save on oil.

The electrical system at the station had extensive work done on it to bring it up to standards.

A joint project between the Fire Departments of South Berwick and Rollinsford was completed in late December of this year. Two standpipes were put into the Salmon Falls River in Rollinsford on the other side of the railroad bridge. Each department shared the cost of the materials, Mick Construction Company did the digging and the firefighters of both departments did the work. We will now be able to supply 1200 gallons of additional water to either town during a major fire.

George Gorman
Fire Chief

HIGHWAY DEPARTMENT REPORT

During 1977 road maintenance, road construction and snow removal kept the Department very busy.

The first three months of the year brought the worst series of snowstorms to hit our area in many years. The snowstorms on January 10 and March 22 were especially bad. The first storm turned to rain before ending and left a heavy coat of ice on all roads that took a few weeks to remove because of very low temperatures. The road grader bought in 1975 proved itself to be an excellent tool for this work. The March storm caused many trees and limbs to fall under the weight of heavy, wet snow and power outages were common. It was most gratifying to hear a few people say that our snow removal was very good as compared to some of our neighboring towns. When you sometimes spend 24 to 48 hours straight battling the snow a few kind words are most welcome to hear.

In the spring and early summer the removal of boulders, trees, etc. was accomplished on about three-quarters of a mile of the Ogunquit Road in preparation to remove ledge and place a twenty-four (24) foot wide gravel base on this road. The summer was spent doing the latter work. Because of unexpectedly large quantities of ledge uncovered on this project only about one-half of the work could be done during 1977 and it is planned to return to finish this job in 1978.

In the early summer a tar surface was placed on the portion of the Witchtrot Road built in 1976. It was our original hope to put a hot top surface on this road, but due to the high cost (about \$15,000 more than tar) we had to drop it. At the same time that Witchtrot Road was tarred we also sealcoated about four (4) miles of existing tarred roads to keep them from deteriorating.

In addition to these major work items a great many minor tasks such as dead tree removal, maintaining the dump site, replacing culverts and signs, etc. were accomplished throughout the year. December started what was to be another bad winter of weather with several storms.

At the Annual Town Meeting the funding for a new large loader was passed and in early summer a Caterpillar machine which can load one of our trucks with just three scoops was purchased. A snowplow for the loader was also obtained. Thus far, the machine has proven a great time-saver and should easily repay the Town its purchase price over its useful life.

As for the future, the current three year road improvement plan accepted by the Town Council includes:

1978 Finishing the Ogunquit Road project between its intersections with Emery's Bridge Road and the Bennett Lot Road.

Attempting to construct the portion of Wadleigh Lane between Academy Street and the top of the hill.

1979 Constructing the remaining one mile of the Bennett Lot Road that has never been built.

1980 Working in conjunction with the Sewer District to rebuild Liberty Street and Academy Street after a new sewer main is installed.
(If funding becomes available to the Sewer District from the State and Federal Governments)

In conclusion, we ask your assistance during snowstorms by keeping vehicles and other obstructions off the Town streets and by not pushing snow from driveways into the streets and leaving it there. Sometimes it almost appears some people think we make snow. Believe us we do not. However, with your help and cooperation we will remove it from the streets and sidewalks as quickly as possible.

Rudolph Naples
Road Commissioner

Donald Boston
Road Foreman

SOUTH BERWICK POLICE DEPARTMENT

1977 REPORT

To: The Honorable Town Council, the Citizens of South Berwick
and Rudolph Naples, Town Manager

Once again it is a great pleasure to give this Annual Report of the South Berwick Police Department for the year 1977. This year saw the Police Department stabilize for the first time in several years. We experienced the turnover of one officer and he was replaced with a fully trained officer. I attribute that to several things; (1) the implementation of the 40 hour work week and (2) the assistance and support given to the Department by the citizens. The Department presently consists of Sergeant Timothy Berry, and Patrolmen Charles DeGuisto, Richard Blake and Paul Plaisted.

The year 1977 was a busy one. We saw an increase in accidents despite continuous traffic enforcement and Defensive Driving Schools. This is in part attributed to the bad weather in January and February of 1977. In these two months alone 26% of all the accidents occurred. The 1977 accident statistics were 127 accidents with total damages of \$89,316. This amount is \$46,400 more than in 1976. South Berwick had 21 accidents involving serious personal injury but for the second year in a row we did not have a traffic fatality. Your Police Department is once again offering Defensive Driving Courses and will continue an aggressive traffic enforcement program.

Listed below are the various statistics of the Department:

Calls and Complaints answered:	1603
Parking tickets issued	73
Dog complaints	433
Residence checked	204
Business doors found open	116
Arrests and motor vehicle summons	537
1. License violations	45
2. Speeding	251
3. Registration violations	24
4. Exhaust violations	5
5. Uninspected motor vehicles	35
6. Line violations	2
7. Stop sign violations	21
8. Driving to endanger	2
9. Passing violation	2
10. Failure to stop for an officer	3
11. Accident violations	4
12. Other motor vehicle violations	23
13. Hitchhiking	1
14. Drug violations	11
15. Receiving stolen property	6
16. Conspiracy	3

POLICE DEPARTMENT

(continued)

17. Terrorizing	1
18. Hindering apprehension	1
19. Loaded gun in motor vehicle	1
20. Dog violations	14
21. Burglary	15
22. Malicious damage	6
23. Theft	11
24. Disorderly conduct	1
25. Snowmobile	1
26. Illegal possession of liquor	1
27. OUI	22
28. Assault	4
29. Trespass	7
30. Littering	4
31. Sale of marijuana	1
32. Reckless conduct	2
33. Arson	1

In 1977, your Police Department showed a clearance rate of 48.8% as determined by the State Department of Public Safety. This places the Department at the top of the list in York County. 82.9% of all property stolen in South Berwick was recovered.

The Department carried on with its public service programs by sponsoring Defensive Driving Courses, bicycle registrations, and business and residence security checks.

The South Berwick Police Department would like to thank area police departments, the South Berwick Emergency Rescue Squad, the South Berwick Fire Department, the Town Council, and the Town Manager for their continuous support.

Respectfully submitted,

John M. Montgomery
Chief of Police

SOCIAL SERVICES

1977 REPORT

1977 was much the same as previous years, Very Busy, I attended:

- ✓ Maine Municipal Assn. Conventions: ✓ May - Bangor
✓ October - Portland
- ✓ Welfare Director: ✓ Monthly meetings at Augusta excluding July and August.
- Meetings: ✓ Quarterly meeting at York Hospital as I am Chairman of York Home Health Aide Association.
- Transportation: ✓ Maine Medical Center, Portland
✓ Department of Human Services, Portland
✓ Department of Human Services, Sanford
✓ Social Security, Portsmouth, N.H.
✓ Wentworth Douglass Hospital, Dover, N.H.
✓ Eliot Hospital, Manchester, N.H.
✓ York Hospital, York
✓ Maine Municipal Association, Augusta
✓ Food Stamp Office, Sanford

Transportation is still a major item. We do have transportation on the mini bus for the elderly (York County C.A.P.) three hours a week, which I personally feel is not enough, but at this time I feel that we are fortunate to have help regardless of who, what or how it comes to us.

Housing: A partial answer to a major area problem was the housing for the disabled and elderly which was opened in 1977 in Berwick. It is called "Berwick Meadows" and is quite beautiful. Everyone there from South Berwick appears to be very happy, despite some homesickness, but I feel sure that they will get adjusted and all will be fine. For the present, limited services are still available to the South Berwick residents at the facility from us. Housing for the elderly is now under consideration in South Berwick by the York-Cumberland Housing Authority. This item should be decided one way or the other during 1978.

We gratefully acknowledge the aid given to us during the year by organized groups and the general public.

Respectfully submitted,
Jeannine M. Pontbriand

REPORT OF THE TOWN CLERK

In August of this year, Dorothy J. Hilton, Town Clerk, resigned to accept a position with Civil Service at the Portsmouth Naval Shipyard. She had served the Town very capably as Town Clerk for a period of thirteen years and secretary to the Town Manager. She was bookkeeper for the South Berwick Sewer District, also. We wish her much success in her future endeavors.

The following is a breakdown of the various licenses issued and vital statistics recorded for the year 1977:

Births	6*
Deaths	14*
Marriages	64
Hunting licenses	94
Fishing licenses	162
Combination licenses	289
Junior licenses	67
Servicemen's licenses	2
Archery licenses	20
Pheasant stamps	25
Dog and kennel licenses	318

Respectfully submitted,

Beatrice W. Nutter
Town Clerk

- * This does not reflect a true accounting as a majority of these events occur out-of-state.

SOUTH BERWICK EMERGENCY AMBULANCE AND RESCUE, INC.

1977 ANNUAL REPORT

The South Berwick Emergency Rescue Squad looks back over 1977 as a productive and rewarding year.

The most significant accomplishment is the continued planning for a medical building for the Town of South Berwick and surrounding communities. Much time has been spent to date, and more in the near future, in hope to make these plans a reality. The Squad is working in conjunction with a panel of interested residents from North Berwick, Berwick, Rollinsford and Eliot.

New members to join the Squad during 1977 are Richard Osborne and Jim Roberge.

The Rescue Squad answered 222 calls during 1977.

Acute medical	96	Industrial accidents	8
Home accidents	41	D.O.A.	5
Heart attack	39	Overdose	4
Auto accidents	29		

The greatest rise in calls were in the area of home accidents, up to 25% from 1976.

Again in 1977, as in the past, more of our Squadmen have completed the E.M.T. (Emergency Medical Technician) course. Training wise, the South Berwick Squad members take a back seat to no one in the ambulance business. The dedicated Squadmen continually maintain coverage around the clock, every day of the year.

The Town of South Berwick is growing, and the Rescue Squad is growing in personnel and training to meet these future needs.

The Emergency telephone is now answered during the daytime hours by the Police Dispatcher, and during the evenings and weekends by Mrs. Schindler. All residents are urged to give exact locations when calling for an ambulance or fire apparatus.

SOUTH BERWICK EMERGENCY AMBULANCE AND RESCUE, INC.

(continued)

The Rescue Squad's existence is entirely dependent on the public's generosity. Ask not what the Rescue Squad can do for you, but what you can do for the Squad and your fellow man?

S. B. E. R.

If you are not now on our annual membership mailing list and would like to be, please detach the form below and mail to the Rescue Squad. Send no money with this form.

CIVIL EMERGENCY PREPAREDNESS

1977 REPORT

Since my appointment in May of this year as your C.E.P. Director, I have tried to do the best possible job with my limited funds. I have set up a C.E.P. office in the basement floor of the Municipal Building which is open to anyone who may have a problem I can help them with. I have toured the town area looking for trouble spots and have attempted to set up a program in case of an emergency in these areas. I have made the following trips out of the town area:

- 5 trips to C.E.P. Headquarters in Alfred, Maine
- 2 trips to Portsmouth Navel Shipyard (Surplus Department)
- 1 trip to Amesbury, Massachusetts
- 1 trip to Augusta, Maine (State Surplus Department)
- 1 trip to Portland, Maine to attend M.M.A. Convention
- 1 trip to Portland, Maine to attend A.R.C. course in Flood Disaster Survey.

In July, I arranged for the showing of 2 films on "The Russian Navy" to be shown to all Departments in Town.

I have assisted the Police and Fire Departments on numerous occasions when asked by the Department Head.

It has been a good year and even though it has been hard setting up the Department after a five year lapse, I have enjoyed it. I hope next year, with possibly more funds, I may be able to do much more.

Respectfully submitted,

Robert F. Durnin
C.E.P. Director

SOUTH BERWICK PUBLIC LIBRARY

1977 ANNUAL REPORT

1977 saw the Library grow as an integral part of the South Berwick community. In four out of twelve months more than 1,000 books were checked out of the Library. In one month, August, almost 1,400 were taken out. The impact of these figures becomes more significant when it is remembered that the Town has a total population of slightly more than 4,000 people.

The largest undertaking of the year was the Friends of the Library compiling, getting published and selling a cookbook, The Cooks Tour of South Berwick. Despite problems with the publisher the cookbook turned out to be a marvelous success. Almost 575 copies were sold as of December 31, 1977 with a net profit of \$1,000.00. We are hopeful that the remaining copies of this wonderful book will be sold during 1978.

There were few physical changes to the Library during 1977. However, we are hopeful that the building will be painted during the summer of 1978. We continue to express our gratitude toward The Society for the Preservation of New England Antiquities for their making available to us the use of the lovely colonial building where the Library is located.

The Library increased the number of volumes from 5469 to 5841 during 1977 and we hope for an equal increase in 1978. The donation of two revolving paperback book stands from The Dover News has helped tremendously in the display of our large paperback collection. The Library will be receiving a badly needed new typewriter and file cabinet from the Tri-Berwick Lions Club. These donations were made following a well received speech given by Librarian Kitty Davis to the Lions Club.

We would also like to mention several other events that occurred during 1977. On August 27, 1977, the Library held its annual Open House in conjunction with an Open House at the Preservation Society's neighboring Sarah Orne Jewett House. The Open House, as well as the Library's day to day functioning, would not have run so smoothly without the assistance of a dedicated group of volunteers of all ages. Of special attention is a well attended and well run children's program of activities.

LIBRARY (continued)

A bulletin board is now available at the Library for the display of civic matters. Over the past few months there have been periodic exhibits of art by local artists.

The Library Advisory Board presently has six members with one vacancy. During 1978 there will be three vacancies created by retiring Board members.

In conclusion we want to mention a Memorial Fund that has been created in the name of Ronald Estabrooke. The monies from this fund are to be used on behalf of children. We thank the Estabrooke family and all others who worked to establish this memorial.

1977

Municipal Tree Planting Program. The Committee arranged for the planting of 36 trees--red and sugar maples, red oaks, and crimson kings--through the State-sponsored Municipal Shade Tree Planting Program. This brings the total of trees planted along the streets of the Town for the past five years to 176. The State program may continue into 1978 but with a significantly diminished budget. We agree with the State that the objectives of the tree planting program have been largely attained. Once again, however, we invite persons living in the municipal area of Town who are interested in having a tree or trees planted along a street to contact the chairman of this committee not later than the end of February. The Committee also arranged for the planting of high-bush cranberries along the Municipal Office Building driveway.

Development of Fish Conservation and Fish Resources. For the fourth year now Committee members and other citizens met at Leigh's Mills Dam this spring to transport alewives from below the dam to the fresh waters of the Great Works River. Estimates of the number of fish netted and transferred ranged from just under 400 to over 500, a very successful conservation effort. The Committee also prepared a lease defining commercial alewife fishing rights, a proposal approved by the Town Council and by the State Department of Marine Resources. Our first experience with administering a Town-sponsored commercial fishing project was not a success, because the fishermen failed to live up to the terms of their agreement with the Town. The Committee met this fall with a representative of the State Department of Marine Resources to review all aspects of the program. We plan to revise the terms of the contract to correct deficiencies in the program. Despite this year's failure to realize financial profits for the Town, the Committee believes that such a commercial fishing program is desirable and feasible, and we will continue our efforts to make the operation successful.

Management of the Town Forest. Now that the question of access to the Town Forest is settled and its boundaries have been defined, the Committee has taken an active interest in plans for the future state of the beautiful 90-acre tract along the Great Works River. Twice this year the Committee has walked through the Forest and after these on-site inspections has decided to focus its attention on long-range planning and better supervision. At present the Committee believes that the Forest should be conserved as a natural area, carefully managed for its timber resources, and be made available to the public for activities such as hiking, skiing, snow-shoeing, canoeing, and the like.

PARKS AND CONSERVATION COMMITTEE

(continued)

Protection of the Town's Waterways and Ponds. Again this year the Committee participated in a canoe trip down the Great Works River clearing blockages in order to facilitate canoeing and to monitor the state of the river. And again this year we have voted unanimously our conviction that no motorboats should be allowed on Cox, Round, and Warren Ponds and that a limitation of 7 1/2 horsepower should be placed on motorboats used on Knight's Pond and on the Great Works River. This year we have not succeeded in finding ways to implement our convictions. We met recently with Sterling Dow III, Executive Director of the Maine Association of Conservation Commissions, to discuss practical steps the Committee might take.

Other Activities. Once again we made arrangements to send two South Berwick students to the summer conservation camp at Bryant Pond. This year Cindy Smith and David Hilton attended the camp. So enthusiastic were these students' reports to the Committee concerning what they had learned about conservation that we hope to send three or four students next year... The Committee helped to organize and supervise the annual Town Roadside Clean-up Campaign. We estimate that about 100 citizens participated in the successful project this year. Volunteers succeeded in cleaning up over 13 miles of the Town's roadways. We sponsored a public meeting to hear from the University of Maine Extension Entomologist, Mr. Arthur Gall, on the problem of termite activity in our area, which he described as no cause for general alarm, and which is often confused with the activities of carpenter ants, a more common hazard... We have been interested in monitoring the presence of wild turkeys released last winter by the State in the Mt. Agamenticus area. We have received notice of sightings throughout the year. If anyone sees one of these birds please contact us... We have listened to a complaint about the state of the pond adjacent to Dawson Street, referred to variously as "The Town Pond," "Mud Pond," and "Frog Pond." Brimming with water and melodic in spring, the area dries in summer to become less desirable in appearance. One end bordering on the Town's garages has suffered from dumping of fill. The Committee has requested that the pond be protected from further encroachments. If area residents are interested in cleaning up the pond, the Committee will be ready to assist... We have requested State aid in improving the boat access to the Salmon Falls River on Route 101... The Committee has recently been authorized by the Council, under the provisions of a new State law, to enlarge itself to seven members.

PARKS AND CONSERVATION COMMITTEE

(continued)

We hope that citizens will make themselves known to us and the Council if they would like to serve on the Parks and Conservation Committee, either as regular or as associate members.

The Committee meets the first and third Wednesday evenings of the month at 7:30 in the Municipal Office Building. All interested persons are cordially invited to attend our sessions. We are pleased to report that two citizens--Richard W. Merrill and David R. Schumann--regularly attend our meetings as associate members.

Respectfully submitted,

Lee Blanchard

THE PLANNING BOARD

1977 REPORT

The Planning Board maintained a busy schedule during 1977; holding more than 30 regular and special meetings, plus several workshops and hearings. Board members also worked countless hours writing letters, preparing reports, consulting with the Code Enforcement Officer and with the Town Attorney and meetings with the Town Council. One proposed subdivision on Mountain Road was reviewed and denied. Work continued on the Tarason Enterprises "Wadleigh Subdivision", and subdivision problems encountered on the Belle Marsh Road have been submitted to the courts for resolution. The Board also assisted the Town Council in preparing a "Flood Plain Insurance Ordinance", which was required by the Federal Government. Work also continued on the Town Road Inventory and Map.

A program to up-date the Comprehensive Plan, which was started in 1976, was to be completed in 1977. However, this work was discontinued. There were two major reasons why this work was not finished: (1) lack of public interest, and (2) lack of Town Council support. Basically, the Comprehensive Plan is a master plan for the Town; a guide for orderly, intelligent growth of the Town. Such planning provides many benefits to the Town, including economic benefits that affect every taxpayer. Without Town-imposed rules the Comprehensive Plan is a useless document. The growth plan cannot be implemented unless there are proper tools with which to do the job. The most important tool necessary for this job is zoning. In April of 1977, the townspeople rejected a Proposed Zoning Ordinance, and thus denied themselves an opportunity to control and plan the future of the Town. Considering this lack of support, the Planning Board cannot find much enthusiasm to revise or up-date the master plan.

At present the Board's work is confined to administrating rules and regulations imposed upon the Town by the State and Federal Governments. These outside agencies will continue to add controls to towns that do not plan for themselves, and soon the townspeople won't have any remaining options.

Our failure to plan is not confined merely to the subject of zoning; the lack of planning is evident in many areas. There is an attitude which pervades the core of this town; an attitude which blinds many of us, and creates widespread apathy. This attitude was clearly expressed last spring by a Councilman when he said, "Don't worry about the future, we'll take care of it when it arrives."

THE PLANNING BOARD (continued)

A citizen of this town doesn't have to look very far to see the folly of this statement. For example, (1) The Agamenticus Wilderness is not safe from exploitation just because no multi-million dollar development is threatening it at the present time. (2) The development of at least two subdivisions may be curtailed because the Water District did not do some timely planning. (3) Local taxes are out of balance because our assessors refused to plan for realistic valuations. Now the State has forced us to correct this problem. (4) Costly legal fees involved in recent town road issues can be traced to poor planning. Many other examples of faulty planning, and outright lack of planning, can be cited.

The Planning Board was established to aid the Town in planning for sensible and economical growth. The Board desires to provide this service, but it needs the support of the citizens and the Council. We thank all those people who have attended our meetings and hearings. We are grateful to those who have encouraged us in our efforts to properly serve this Town.

Respectfully submitted,

Paul F. Colburn, Chairman

THE RECREATION COMMITTEE

1977 REPORT

The Recreation Committee had a very successful year during 1977. The program has now expanded so that it encompasses most of the year and reaches all segments of the community. The program is administered year round by the Director, while the major thrust remains the six week summer program.

During the winter season, Powder House Hill opened six weekends during 1977. Unfortunately, a major breakdown occurred just prior to February school vacation and forced an early curtailment of operation. Also, coed basketball programs for fourth, fifth and sixth graders was very successful with 82 participating. An all-star team appeared in three post season games and made a good showing. The Committee also sponsored a yoga program for adults which was filled to capacity. This program was again offered in the fall and again was filled with 25 participants.

The summer program offered activities for the youth of the community on a daily basis, while offering instruction in tennis and swimming for both youth and adults on a fee basis. Both programs were filled to capacity. Unfortunately, because of restricted space and facilities we had to turn some people away. This was very evident in the adult tennis program where 64 people registered and another 15 people were turned down because of lack of space. More than 150 children took advantage of our instructional swim program, while an evening swim program accomodate 12 adults. Many more children took advantage of an open swim which took place on a daily basis.

Junior Olympics, Playday with Eliot, horseback riding, and the mountain trip were among the highlights of the Friday special programs. The Senior Citizens took two bus trips, one to Boothbay Harbor and one to the White Mountains. Both were very well attended and enjoyed by the participants. The second Annual Tennis Tournament drew a field of 18 men and good spectator interest.

Clifford Parkinson
Recreation Director

THE STRAWBERRY FESTIVAL COMMITTEE

1977 REPORT

Friday - A Night of Music at the Hamilton House

Several hundred persons brought lawn chairs, blankets and snacks to enjoy the second Evening of Music on the lawns of the Hamilton House. Six groups provided the evening's entertainment. Highlights of the evening were the presentations of the South Berwick Community Chorus under the direction of Mrs. Diane Dean and Miss Carolyn Marr singing an assortment of familiar melodies including the music from My Fair Lady.

Saturday - Strawberry Festival Day

Saturday's celebration of Strawberry Festival 1977 attracted many people from all over to view the fine crafts while listening to country-folk music by the Danville Junction Boys. Even though the weather did not permit the Grande Balloon Ascension, it did not prevent the Indian Show, Gymnastic Demonstration, or Big Bird from staging successful appearances. The Children's Craft Center entertained approximately 100 children who made crafts to take home, and the Strawberry Delights table hosted hundreds interested in furthering their appreciation of the strawberry.

This day provides something for everyone - young and old alike. We thank the many wonderful people who contrived their time and effort to making it a success, and we would like to invite new members to serve on the only committee designed expressly for a town celebration. If you would like to be a part of this day, please call Donna Erickson (384-2512). Plans for Strawberry Festival 1978 are in the making now!

Sunday - South Berwick Day at Spring Hill

The weatherman did not cooperate fully for the second community day at Spring Hill. A rainy morning cleared for the afternoon of picnicing, swimming and games. Many people enjoyed the softball competition between the South Berwick Fire Department and the South Berwick Police Department, in addition to the usual contests and the tug of war.

ZONING ADVISORY COMMITTEE

1977 REPORT

The Zoning Advisory Committee was appointed in late 1973 by the Town Council, as the result of a petition presented to the Council by a group of civic-minded residents. The Zoning Advisory Committee was composed of citizens representing every section of the community, and for three years they made exhaustive efforts to obtain public input, and to create a Zoning Ordinance that reflected the needs of the Town and the wishes of its inhabitants.

The proposed ordinance was accepted by the Town Council early in 1977. Following that action, a public petition resulted in a referendum vote on April 18, at which time the acceptance of the Zoning Ordinance was rejected. Thus, the work of the Zoning Advisory Committee was concluded and it was formally discharged by the Town Council at that time.

Respectively submitted,

Paul F. Colburn, Chairman

SOUTH BERWICK HEALTH COUNCIL
REPORT 1977

In the fall of 1977, a group of about 20 women joined together to form the South Berwick Health Council, at the urging and with the support of Mrs. Hinds, SAD 35 nurse, Mr. Naples, Town Manager and the Town Council.

Our initial aim was to aid in the flouridation program at Central School, held early in February, 1978, and with the immunization program there.

Our secondary aims were seemingly only a hope, however, a meeting with representatives of York County Health Services, Inc. in December resulted in having our first Well Child Health Clinic take place on January 11, 1978 and what a success. We had 19 children come that day. Our clinic provides physical exams, immunizations, vision and hearing tests, hemoglobin and lead screening and developmental appraisals. All this is possible for a maximum of \$7.00 with the fee being adjusted to income. This clinic will take place the second Wednesday of every month and appointments can be made through Cheryl Goodwin (384-5653) or Janet Klebaur (384-4041). We also hope to aid in adult screening clinics in conjunction with York County Health Services, Inc. and to support other health programs where we can.

We meet the first Wednesday of every month and we welcome all who are interested in helping us.

Remember our important dates:

Health Council Meeting:	1st Wednesday of each month, 9:30 a.m., First Parish Federated Church.
Well Child Clinic:	2nd Wednesday of each month, 9:00 to 12:00 a.m., First Parish Federated Church.

Respectfully submitted,

South Berwick Health Council

YORK COUNTY HEALTH SERVICES

1977 REPORT

York County Health Services is a non-profit community health agency with offices located in Saco, Waterboro, Wells and Sanford. It is from these offices that nurses, therapists and health aides are dispatched to residents in nearby towns throughout the county.

In South Berwick, nurses made 120 visits to adults in their homes during 1977, January to December, while they visited children on 105 occasions.

Children came to our clinics on 46 occasions and nearly 14% were referred to their doctor or to other health care sources for further diagnosis and treatment.

South Berwick's tax allocation to York County Health Services ensures home health care, clinics and other community health services to all requiring such care.

YORK HOSPITAL VISITING NURSE PROGRAM

REPORT

To the Town Council and the Citizens of South Berwick:

The York Home Health Agency serves the Town of York, York Harbor, York Beach, Cape Neddick, Eliot, and South Berwick. Care is given on an intermittent basis, in accordance with a doctor's approval and plan of care. Medicare, Medicaid, and few insurance companies help to meet the cost of home health service. However, many patients do not qualify for any assistance and a fee is charged according to ability to pay. No patient will be excluded from receiving care on inability to pay.

During 1977 the agency personnel made a total of 315 visits to 25 patients in South Berwick, of which 6 visits were made to patients who were not covered by a third party payor.

We continue to make the York Home Health Agency available to the community. Anyone desiring assistance or more information regarding home health care may call the York Hospital - 363-4321.

Respectfully submitted,

Julia M. Ferriter, R.N.
Supervisor
York Home Health Agency

ACCOUNTANTS' REPORT

Members of the Town Council
South Berwick,
Maine

We have examined the financial statements, listed in the accompanying table of contents, of the various funds of the Town of South Berwick, Maine as of December 31, 1977 and 1976 and the year ended December 31, 1977. Our examinations were made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

The Town has not maintained a record of its general fixed assets and accordingly a statement of general fixed assets, required by generally accepted accounting principles, is not included in the financial report.

In our opinion, the financial statements, listed in the table of contents, present fairly the financial position of the various funds at December 31, 1977 and 1976 and the results of operations of these funds for the year ended December 31, 1977 in conformity with generally accepted accounting principles applied on a consistent basis. The supplementary data included in Schedules 1 and 2 have been subjected to the same auditing procedures and, in our opinion, are stated fairly in all material respects when considered in conjunction with the financial statements taken as a whole.

To the Board of Directors:

We have examined the balance sheet of the South Berwick Sewer District as of December 31, 1977, and the related statements of income and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying balance sheet and statements of income and changes in financial position present fairly the financial position of the South Berwick Sewer District at December 31, 1977, and the results of its operation for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

January 30, 1978

REPORT OF THE SOUTH BERWICK WATER DISTRICT

In compliance with the rulings of the Public Utilities Commission of Maine, the Trustees of the South Berwick Water District submit the following report which covers the year ending December 31, 1977.

The Water District was not able to accomplish plans to upgrade the system because of financial conditions. For the past four years it has been necessary to borrow for payment of bonds, interest on loans and maintenance costs of equipment, wells and increased costs of labor and materials.

There has not been a rate change since 1954. Therefore, considering present debts and future costs, consultations with several Engineering Firms and the Public Utilities Commission were held and the Public Utilities Commission approved a rate increase effective January 1, 1978.

The Trustees hold a monthly meeting at the old pump house on Berwick Road at the end of Tibbetts Street on the second Monday of each month at 7:00 P.M. Water users and others may feel free to attend.

ACCOUNTANTS' REPORT

Board of Trustees
South Berwick Water District
South Berwick, Maine

We have examined the balance sheet of South Berwick Water District at December 31, 1977 and 1976 and the related statements of income (loss) and retained earnings (deficit) and changes in financial position for the years then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances, except as stated in the following paragraph.

We were not present to observe the physical count of material and supply inventories at December 31, 1977 and 1976. We have, however, been able to satisfy ourselves concerning inventory quantities by alternate audit procedures.

In our opinion, the aforementioned financial statements present fairly the financial position of South Berwick Water District at December 31, 1977 and 1976 and the results of its operations and the changes in its financial position for the years then ended, in conformity with generally accepted accounting principles applied on a consistent basis.

SOUTH BERWICK WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1977

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Regulation:

The Company is subject to the regulatory authority of the Public Utilities Commission of the State of Maine as to financial reporting and other matters.

Property, Plant and Equipment:

Utility property is stated at cost and depreciated on the straight line method at rates varying from 1% to 16 2/3%. Water property retirements are charged in total to the accumulated depreciation account when they occur.

Materials and Supplies:

Inventories of materials and supplies are stated at cost.

Unamortized Debt Discount and Expense:

Cost incurred to issue long-term bonds together with discounts allowed at the time of sale are amortized on a straight line basis over the term of the bond issue.

NOTE 2 - INVESTMENTS:

Bond Sinking Fund:

Custody of sinking fund assets is maintained by the Trustees of the District. A statement of bond sinking fund financial condition is contained in Schedule A-1.

NOTE 3 - LONG-TERM DEBT:

First Issue Bonds - 4 1/4% - \$190,000.

These bonds were issued on October 1, 1960 and mature October 1, 1980. A minimum of one percent (1%) of the outstanding balance is appropriated from income each year and added to a sinking fund to retire the bonds.

Second Issue Bonds - 4 1/2% - \$80,000.

These bonds mature as follows:

5 on the 15th day of June in each of the years 1977-1979
40 on the 15th day of June 1980
30 on the 15th day of June 1981

NOTE 4 - OTHER INFORMATION:

On December 21, 1977, the State of Maine Public Utilities Commission, authorized the District to file revised rates, designated to produce total operating revenues of \$72,458., which represents an increase of 22% over 1976 actual operating revenues.

The new rate schedule was filed with the Commission on December 22, 1977 and was approved by the Commission on December 29, 1977, and will become effective January 1, 1978.

ACCOUNTANTS' REPORT

Town Council of South Berwick
Successor Trustee
Elizabeth R. Vaughan Fund
South Berwick, Maine

We have examined the balance sheets of the Elizabeth R. Vaughan Fund as of December 31, 1977 and 1976 and the related Statements of Revenues and Expenses and Changes in Fund Balance for the years then ended. Our examinations were made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the financial statements mentioned above present fairly the financial position of the Elizabeth R. Vaughan Fund at December 31, 1977 and 1976, and the results of its operations for the years then ended in accordance with generally accepted accounting principles applied on a consistent basis and the provisions of the will under which the Fund is operated. The supplementary data included in Schedules 1 and 2 have been subjected to the same auditing procedures and, in our opinion, are stated fairly in all material respects when considered in conjunction with the financial statements taken as a whole.

ANNUAL REPORT - "VAUGHAN FUND"

To: Robert T. Gagne', Chairman of the Trustees, the Trustees and the Residents of South Berwick.

As reported at the January 18, 1978 meeting of the Board of Trustees, the actual income for the year ending December 31, 1977 was \$5,715.34 with expenses of \$614.90, and grants of \$6,500.00 to the Town of South Berwick. While the grants were made to the Town, \$6,000 of such grants were for the Recreation Department and \$500.00 was for the South Berwick Public Library. Total cash on hand at year-end in the savings and checking accounts was \$909.29.

The annual audit of the books is in progress by Berry, Dunn and McNeil. Their audit report will be completed and printed in the Annual Report of the Town of South Berwick.

It should be noted here that the audit report will show accrued income which will vary from the figures I have reported above.

It has been a pleasure and an honor to serve in this capacity this past year.

Respectfully submitted,

Doris M. Blanchard
Secretary-Treasurer

For the Town Council of South
Berwick, Successor Trustee
u/w/o Elizabeth R. Vaughan

TOWN OF SOUTH BERWICK, MAINE

WARRANT

State of Maine
County of York, ss.

To John M. Montgomery, Constable of South Berwick, in the County of York,
State of Maine,

GREETINGS:

In the name of the Town of South Berwick you are required to notify the inhabitants of said Town qualified to vote in Town affairs to assemble at the Civic Center (Central School) on Main Street in said Town on Saturday, the 18th day of March, A.D. 1978, at 7 o'clock in the forenoon, then and there to act on the articles below.

ARTICLE 1. To elect a Moderator to preside at said meeting.

ARTICLE 2. To elect two Town Council members for a three-year term each and one member of the Board of School Directors of S.A.D. #35 for a three-year term.

Polls will be open from 7 A.M. to 2 P.M. The business session will be at 7:30 P.M. at the South Berwick Civic Center.

ARTICLE 3. To see if the Town will vote to authorize the Town Council and Town Manager on behalf of the Town to sell and dispose of any real estate acquired by the Town for non payment of taxes thereon, on such terms as they deem advisable, and execute quitclaim deeds on such property with the understanding that any property deeded before the tax commitment date will be taxed this year to the grantee.

Council recommends adoption.

ARTICLE 4. To see if the Town will vote to authorize the Tax Collector to charge and collect interest at a rate of twelve (12) percent per annum, to be retroactive to September 1, 1978, on all taxes not paid on or before November 10, 1978.

Council recommends adoption.

ARTICLE 5. To see if the Town will vote to authorize the Town Council and Town Manager to expend funds from the Highway Department Equipment Account as expenditures become necessary to purchase and/or replace Highway Department equipment.

Council recommends adoption.

ARTICLE 6. To see what sum of money the Town will vote to raise and appropriate for General Government Expenses.

Legislative	\$ 5,230
Town Council, Town Clerk and expenses	
Judicial	4,000
Legal Fees and Retainer	
Executive	46,485
Town Manager, Bookkeeper, Clerical Assistance, Supplies, Services, Dues and Capital Outlay	
Total:	<u>\$55,715</u>

Council recommends a \$3,800 appropriation from the Non-tax Revenue Account and a \$51,915 appropriation from general taxation. Total: \$55,715

ARTICLE 7. To see what sum of money the Town will vote to raise and appropriate for Election Expenses and Landfill Property Option.

Election	\$2,200
Landfill Property Option	<u>1,000</u>
Total:	\$3,200

Council recommends a \$3,200 appropriation from general taxation.

ARTICLE 8. To see what sum of money the Town will vote to raise and appropriate for Hydrant Rental and Sewer System Rental.

Sewer System Rental	\$ 9,440
Hydrant Rental (partial amount)	<u>10,847</u>
Total:	\$20,287

Council recommends a \$20,287 appropriation from general taxation.

ARTICLE 9. To see what sum of money the Town will vote to raise and appropriate for Debt Service, Street Lights and Hydrant Rental.

Debt Service (Municipal Building, Loader and Short Term Notes)	\$27,700
Street Lights	16,750
Hydrant Rental (partial amount)	<u>5,256</u>
Total:	\$49,706

Council recommends a \$49,706 appropriation from the Federal General Revenue Sharing Funds Account.

ARTICLE 10. To see what sum of money the Town will vote to raise and appropriate for Property Tax Assessment.

Part-time (1/2 time) Trained Assessor	\$ 6,000
Salary and Expenses (May 1 - December 31, 1978)	
Computer Services	2,100
Deed Copies, Mapping & Appraisals	3,150
Tax Revaluation and Remapping Fund (1/3 of total estimated cost)	20,000
Total:	\$31,250

Council recommends a \$31,250 appropriation from general taxation.

ARTICLE 11. To see if the Town will vote to authorize the Town Council and Town Manager to issue bonds and/or notes in the name of the Town of South Berwick, not to exceed \$40,000, and to be repaid over a period of time not to exceed two (2) years, for the purpose of having a townwide property tax equalization program (tax assessment revaluation and remapping) during 1978-1979 in order to comply with State of Maine taxation laws of equity.

Council recommends adoption.

ARTICLE 12. To see what sum of money the Town will vote to raise and appropriate for the Highway Department.

Highways and Streets	\$ 75,880
Snow Removal	37,640
Town Dump	5,900
Town Garage	2,950
Tree Removal	1,000
Total:	\$123,370

Council recommends a \$4,000 appropriation from Non-tax Revenue Account and a \$119,370 appropriation from general taxation. Total: \$123,370

ARTICLE 13. To see what sum of money the Town will vote to raise and appropriate for support of the South Berwick Public Library.

Council recommends a \$1,000 appropriation from Non-tax Revenue Account and a \$5,760 appropriation from general taxation. Total: \$6,760

ARTICLE 14. To see what sum of money the Town will vote to raise and appropriate for the operation of the Fire Department.

Council recommends a \$28,110 appropriation from general taxation.

ARTICLE 15. To see what sum of money the Town will vote to raise and appropriate for Dispatch Services.

Outside Contracts and Telephone Costs	\$11,200
Two Dispatchers' Salaries (April 1 - Dec. 31, 1978)	10,180
	<hr/>
	\$21,380

Council recommends a \$21,380 appropriation from general taxation.

ARTICLE 16. To see what sum of money the Town will vote to raise and appropriate for the operation of the Police Department.

Council recommends a \$2,000 appropriation from Non-tax Revenue Account and a \$74,680 appropriation from general taxation. Total: \$76,680

ARTICLE 17. To see if the Town will vote to authorize the Town Council to use Unappropriated Surplus monies from time to time during 1978 to temporarily finance anticipated State of Maine and Federal reimbursements of funds to pay one-half of the purchase price of an equipped Police car. This action is contingent upon approval of State of Maine and Federal funds.

Council recommends adoption.

ARTICLE 18. To see if the Town will vote to transfer a sum of money from the Reserve for Tax Losses and Liens Account for the purpose of Tax Abatements.

Council recommends transferral of \$5,000

ARTICLE 19. To see what sum of money the Town will vote to raise and appropriate for Social Services:

Town Welfare and Social Worker	\$15,180
Health	500
Homemaker Services	150
Camp Waban - Adult Day Care	700
	<hr/>
Total:	\$16,530

Council recommends a \$400 appropriation from Non-tax Revenue Account and a \$16,130 appropriation from general taxation. Total: \$16,530

ARTICLE 20. To see what sum of money the Town will vote to raise and appropriate for Town Boards, Committees and others.

Planning Board	\$ 1,575
Parks and Conservation Committee	1,485
Recreation Committee	16,250
Strawberry Festival Committee	600

Zoning Board of Appeals	600
Snowmobile Bridge Fund	500
Memorial Day Services - VFW	430
Armed Services Committee	100
Maine Department of Conservation (Pine Blister Control)	200
Public Television (WENH)	100
Civil Defense	470

Total: \$22,310

Council recommends a \$12,120 appropriation from Non-tax Revenue Account and a \$10,190 appropriation from general taxation. Total: \$22,310

ARTICLE 21. To see if the Town will vote to authorize the Town Council and Town Manager to issue bonds and/or notes in the name of the Town of South Berwick, not to exceed \$32,500, and to be repaid over a period of time not to exceed seven (7) years, for the purpose of constructing a tennis and ice facility. This action is contingent upon approval of State of Maine and Federal funds.

Council recommends adoption.

ARTICLE 22. To see if the Town will authorize the Town Council and Town Manager to apply, on behalf of the Town, for Federal financial assistance under the provisions of the Land and Water Conservation Act, Public Law 88-578, and the Municipal Recreation Fund, M.R.S.A., Title 12, Sec. 602, Sub-Sec. 14, for the development of a tennis and ice facility and further authorize the Town Council and Town Manager to enter into the LAND AND WATER CONSERVATION FUND and MUNICIPAL RECREATION PROJECT AGREEMENT with the State, subsequent to Federal approval of the project.

Council recommends adoption.

ARTICLE 23. To see if the Town will vote to authorize the Town Council and Town Manager to use Unappropriated Surplus monies from time to time during 1978 to temporarily finance anticipated State of Maine and Federal reimbursements of funds for the tennis and ice facility. This action is contingent upon approval of State of Maine and Federal funds.

Council recommends adoption.

ARTICLE 24. To see what sum of money the Town will vote to raise and appropriate for Code Enforcement (Building and Plumbing Inspection).

Council recommends a \$3,100 appropriation from Non-tax Revenue Account and a \$3,690 appropriation from general taxation. Total: \$6,790

ARTICLE 25. To see what sum of money the Town will vote to raise and appropriate for Insurance and Retirement Benefits.

Workmen's Compensation	\$ 5,400
General Liability Policies (Fleet, Buildings, etc.)	13,280
Health and Life Insurance	6,050
Social Security and Maine State Retirement System	16,900
Unemployment Compensation	<u>3,400</u>

Total: \$45,030

Council recommends a \$45,030 appropriation from general taxation.

ARTICLE 26. To see what sum of money the Town will vote to raise and appropriate for Municipal Building Expenses.

Utilities, Maintenance and Supplies	\$11,660
-------------------------------------	----------

Council recommends a \$11,210 appropriation from general taxation and a \$450 appropriation from Non-tax Revenue Account. Total: \$11,660

ARTICLE 27. To see what sum of money the Town will vote to appropriate from Unappropriated Surplus Account to be used toward the payment of 1978 Budget Appropriations; thereby decreasing the amount of money to be raised by general taxation in 1978.

Council recommends \$60,000

ARTICLE 28. To see if the Town will vote to adjourn the Town Meeting.

Given under our hands in the Town of South Berwick this first day of March, 1978, A. D.

TOWN MANAGER'S REPORT

To the Honorable Town Council and
Citizens of South Berwick:

It is an enjoyable task to submit to you the Annual Report for the year 1978, for once again in 1978 the people of South Berwick progressed well in dealing with the concerns of our community. It would be impossible to highlight every happening that has made 1978 a unique milestone in South Berwick's history. This report attempts to spotlight the most important events that involved your town's government in 1978.

PROGRESS REPORT

1. The completion and referendum vote on a comprehensive zoning ordinance--This exact same heading led off my 1977 progress report! After the defeat of the zoning ordinance proposed in April of 1977, many people were still much concerned with South Berwick's lack of regulation of land use and the ensuing problems of haphazard, costly growth. In the spring of 1978 the Conservation Committee sponsored a "South Berwick Update" meeting at which the local boards and committees and the town departments discussed South Berwick's present and potential future problems. After listing many of them such as unimproved roads, unguided growth, undesirable land uses and improper use of natural resources, the conclusion was drawn that zoning the town should be looked at again. The Town Council and Planning Board spent the summer writing a zoning ordinance in tune with the needs of South Berwick now. After several public hearings in the fall, the Town Council and Planning Board members themselves passed a petition among townspeople so that the proposed ordinance would go directly to a town vote rather than being first enacted by the Town Council. On November 7 at the general election the largest number of voters to ever vote on a zoning ordinance in South Berwick turned out and the vote went in favor of the ordinance. With this vote South Berwick relinquished the title of being the largest town left in York County without a zoning ordinance. In last year's report at this point, I noted that lack of land use regulations was leaving the possibility of South Berwick's character, personality and overall image changing from a pleasing village - rural atmosphere to "suburban sprawl". I applaud the town's foresight in acting to deter this from happening. Rarely is there a week that goes by that we in the town office don't hear a favorable comment about our community's beauty. We look forward to hearing these comments continue as South Berwick grows.

2. The decision to seek a court judgment as to the status of Belle Marsh Road--In early 1978 the Town Council decided to seek a declaratory judgment regarding whether approximately three-fourths (3/4), about 1.6 miles, of Belle Marsh Road is or is not a town road. This decision was made after much discussion in 1977 by the Town Council of requests that the road be maintained to reach houselots being developed on it. The case was heard in early October with the Town backing its claim that the road is "abandoned" under state law definitions with much evidence and testimony and some property owners providing rebuttal. We expect to receive a judgment on the case in the spring of 1979. This case involves potential costs in road construction which were estimated at over \$150,000 two years ago due to the inadequacy of the present roadbed to handle today's typical year around traffic.

3. The vote not to have a Charter Commission--After considerable comment by some townspeople during 1978, on December 16, 1978 a vote on whether to establish a Charter Commission to review the current Charter and possibly recommend changes was held. The vote went 397 to 255 for not establishing the Charter Commission. The current Charter is designed to have the town government run as closely as possible to a business. Services and goods provided with town tax money are to be expended so that the maximum number of townspeople benefit - even if this means saying no on occasion to some requests which are beneficial to only a small minority. In business the goal is to maximize profit. In our government we attempt to maximize services and goods provided with tax dollars. The town's support of this concept is most gratifying.

4. The tennis-ice facility completed--Pursuant with the town meeting vote, in the summer the low bid of Iafolla, Inc. of Portsmouth was accepted to construct the four tennis courts that are insulated so that they may be flooded for ice skating. The project was completed in October and had some tennis usage before winter. The winter thus far has seen poor weather conditions for ice skating, but whenever ice has been available the rink has been well used.

5. The tax revaluation and remapping programs started--Also, pursuant with the Annual Town Meeting, the revaluation program contract was awarded to the Cole-Layer-Trumble Co. of Portland and the remapping program was awarded to the James W. Sewall Co. of Old Town. Both programs were well along by the end of 1978 and the deadline of mid-1979 should be met without problem. This work should make the tax assessments on all property much more fair than the 1966 figures in use now. Also, the 1979 tax rate should be much reduced from the past year's tax rate as the value of property has gone up dramatically in the last twelve years.

6. Strawberry Festival continues to prosper--Indeed, the Strawberry Festival is becoming a fixture in everyone's calendar of events each Summer. It is a true pleasure at this point in midwinter to spend a few minutes remembering back to that beautiful weekend last June. One can't help but be a bit anxious in anticipation of the 1979 Strawberry Festival.

7. Solid Waste Disposal Solution--Last year under this item, I mentioned that some nearby towns were studying the possibility of a regional pollution-free incinerator to dispose of waste. In mid-1978 twelve communities in the Durham, N. H. area voted to form a cooperative to operate such an incineration system. Also, Sanford, Maine is still investigating the possibility of operating a similar regional incinerator. Both of these systems would produce steam to sell to pay part of the operation costs. In anticipation of joining one these systems, a special town meeting in June and another in October funded preliminary and final plans for a transfer station at the present dumpsite. This station would prepare wastes to be transported to one of the above-mentioned sites for disposal. Hopefully, this will come to be in 1980.

DEPARTMENTAL OPERATIONS

The Fire Department volunteers continued their truly quality service to South Berwick that has become a "normal and expected right" by us. We should stop occasionally to realize we are indeed privileged to have these dedicated, responsible people so willing to give of themselves to their community anytime of day or night at a moment's notice.

The Highway Department continued working on the improvement of the Ogunquit Road to make it a good, gravel road. It is hoped that in the early summer of 1979 the last few hundred yards between the Emery's Bridge Road and the Bennett Lot Road of the Ogunquit Road will be completed. Also, the dirt portion of Wadleigh Lane was built and hottopped. The first part of 1978 saw much effort expended to keep roads open during some very bad winter weather.

The Police Department personnel had a significant turnover in 1978 as four new people joined the Department. The turnover included the appointment of a new Police Chief. The Maine Municipal Association was hired to assist in screening Police Chief applicants and proved to be of great benefit in aiding the Town Council and myself to establish the job parameters and in the actual interviewing of candidates. From this process Sgt.

Timothy Berry of the Department was promoted to Police Chief. True concern for the public's safety and treating everyone fairly has proven to be Tim's trademark. The Police Department realized a crime clearance rate of 36% in 1978 which placed it among the highest in York County. In 1978, two dispatchers were hired to provide local police, fire and rescue squad dispatching from 8 A.M. to midnight, Monday through Friday. This system has worked well.

In the areas of tax assessment and code enforcement, the two part-time positions of assessor assistant and code enforcement officer were combined and Robert Worthley was hired to do both jobs. Bob has proved himself well in this position in the last six months. As the revaluation is completed in 1979, I am sure that townspeople meeting him will agree to his abilities. Ken Main, our previous Code Enforcement Officer, who didn't wish to work in both capacities here, was hired by the Town of Kittery as Code Enforcement Officer. I wish him well at that position.

In the Town Office, the State has allowed us to start doing most functions in the area of new auto registrations. This has worked well and has also proven to be a cost-savings to the taxpayers.

While in the departmental area, I would like to ask that everyone please look carefully at the 1978 town payroll figures page in this report. After reviewing that, please give careful consideration to Warrant Article #19. After much debate, the Town Council has requested funding for a one-time professional pay and job classification study and adjustment of employees' wages. To keep pay in line with job responsibilities and authority, I feel quite strongly that this review is needed now to keep good employees in the future.

FUTURE

The 1977 Progress Report noted that several "1977 issues" would be with us in 1978. In 1978 the issue of land use regulation and the resultant pressure on town services was addressed with positive action in the form of a zoning ordinance. The issue of low quality tax assessment was also settled with the vote for a tax revaluation. Still to be resolved of the "1977 issues" are solid waste disposal and rural roads status. New issues including the tremendous industrial development of neighboring North Berwick are sure to come up in the year ahead. Change in the future is inevitable.

CONCLUSION

During 1978 the cooperation and hardwork of all of the town officials, town employees and the general public often made seemingly impossible tasks easy to accomplish. I thank all of you for your efforts to make South Berwick a better town for all.

Respectfully submitted,

A handwritten signature in cursive script that reads "Rudolph Naples". The signature is written in dark ink and is positioned above the printed name.

Board of Assessors Report for 1978

Significant steps were taken in 1978 toward improving tax assessment administration in South Berwick. A contract was signed with James Sewall Company of Old Town to prepare a complete new set of property tax maps. There are numerous errors in the old maps and it seemed the best way to correct the situation was to hire a professional firm to remap the entire town. The new maps should be available in the spring of 1979. These maps will not replace a property survey in terms of accuracy but we hope that they will more accurately locate all parcels of land in Town.

Also in 1978, a contract was signed with Cole-Layer-Trumble Company of Portland to revalue all taxable property and all non-taxable real estate in Town. The primary purpose of this project is to insure that all taxable property is being taxed at a level which is fair to everyone. The goal of a revaluation is to develop a system that will estimate the market value of each parcel of property in Town. This project should be completed in the early summer of 1979. Notices of the new assessments will be sent to each property owner prior to the tax billing so that there will be adequate time for review and discussion of any questions.

We expect a very busy year in 1979 but the end result should be a far more equitable and useful tax assessment program.

Any time you have questions regarding assessments or related matters, feel free to contact the office. Remember, the Assessors determine the assessed value of each property but, the Town Meeting and School Budget Meeting determine the tax rate.

Respectfully submitted,

Robert S. Worthley
Assessors' Assistant

PROPERTY SALE INFORMATION

Whenever property is bought and sold there are numerous costs involved. These may include title search, bank charges, legal fees, tax stamps, recording fees, and property taxes. Some of these costs are the responsibility of the buyer, others are paid by the seller; but the one they share is property taxes. The property tax year is April 1 through March 31. Each time property changes ownership, the current year's taxes must be considered. Usually, the taxes are prorated based on the date of the sale. For example, the date of sale is September 1, the seller should expect to pay the taxes to that date, or 5/12 of the current bill. The buyer should expect to pay the remaining 7/12 for the period September 1 through March 31. If there is a bank or other lending agency involved, they will insure that the taxes are paid. If there is no lending agency involved, the parties, especially the buyer, should insure proper disposition of any outstanding taxes including the current year. If the sale occurs prior to the mailing of tax bills, we will provide an estimate of the current year taxes for any given property. This can be done by phone, but may require a few days notice. There were more than 200 transfers of property in South Berwick in 1978. In some cases, the buyer found out after the closing that the taxes had not been properly considered and paid. ALWAYS insist that property taxes be a part of the consideration when you buy or sell property and further make sure you understand how your share is determined.

Civil Emergency Preparedness

1978 Report

This is the end of my second year as your C.E.P. Director. I have tired to do the best possible job with my limited funds. My office in the Municipal Building is open to anyone who may have a problem. I'll do my best to assist. I have traveled our local area during the storms we have had looking for troubled spots and assisting where I can. The following trips have been made out of Town:

- 7 trips to C.E.P. Headquarters in Alfred, Maine
- 2 trips to Augusta, Maine (State Surplus Dept.)
- 2 trips to University of Maine, Orono to attend weekend Seminars on PHASE I

In September of this year I had my FM radio installed in the car which enables me to operate with the Police Dispatch and Police Cruiser. It is a fine form of communication and I have assisted Chief Berry when ever he asked.

While attending the course at the University of Maine, Orono, the stress was on the "Relocation of People in a Critical Area." Being only a short distance from Portsmouth Naval Shipyard and Pease Air Base we are considered in such an area. I have been working on a Disaster Plan and hope to finish it soon. In view of the elaborate defense set up, Russia has to save people and businesses in case of an all out war. Our country is now taking a second look at ours.

Let's hope it's not too late.

It has been a good year and I have enjoyed the cooperation I have had from everyone. I hope that next year I can do even more.

Préparedness is a job where you work to be ready and if nothing happens your at your best.

Respectfully submitted,

Robert F. Durnin
C.E.P. Director

Code Enforcement Officer Report for 1978

In August 1978 the Code Enforcement Officer and Assessors' Assistant positions were combined into one full-time position. At the time, Harold "Ken" Main, who had so ably administered the Code Enforcement Office, left and later was selected as the Code Enforcement Officer in Kittery. We miss Ken's expertise and affable personality and wish him well in his new position.

The number of permits issued increased by about 20% over 1977. Permits for new single family dwellings were the same as 1977 but there were three permits issued for a total of 60 dwelling units which places the total number of dwellings units far ahead of past years. These permits were issued to Robert Levesque, 36 units; York-Cumberland Housing Assoc., 22 units; and Daniel Lynch, 2 units. Following is a general breakdown of building permits:

	1977	1978
New Residences:		
Single Family	33	33
Multi-Unit (60 Units)	0	3 (60
Renewals	0	2units)
Commercial Buildings	0	5
Mobile Home Installations	9	13
Outbuildings	19	17
Additions	30	33
Renovations	6	11
Swimming Pools	3	5
Mobile Home Removals	3	4

These permits along with the 102 plumbing permits netted the Town \$5,331.87 in fees. This is an increase of \$2,137.12 over 1977 receipts. The estimated cost of construction for this work was nearly \$2,300,000.

There were no substantial changes in the Plumbing Code during 1978 nor are there any expected revisions for 1979. We finally have a chance to become familiar with one set of rules before they get changed.

The primary change of local regulations came with the enactment of the Zoning Ordinance in November 1978. This appears to be a very positive step in light of the anticipated growth in the area and the fact that almost all of the surrounding towns already have zoning ordinances and many are talking about limiting the growth rate in their communities. It seems at this time that the impact on the individual property owner will be minimal.

Code Enforcement Officer Report (Continued)

If you have any questions on this new ordinance or any other matters in the Code Enforcement Office, please come in to see me or give me a call. We don't claim to have all the answers but will do the best that we can to answer your questions.

Respectfully submitted,

Robert S. Worthley
Code Enforcement Officer

Highway Department

1978 Report

In 1978 the Highway Department experienced one of the busiest years ever building and maintaining Town roads.

The early months of 1978 saw the second winter in a row of extremely bad weather. The snowstorms of January 20th and February 6th and 7th dumped large amounts of snow which demanded considerable efforts to keep our roads passable. This was our first winter of snowplowing with the new Caterpillar loader. It proved itself well, especially in keeping roads with drifting problems open. In all likelihood, the Knight's Pond Road near Route 4 would have been closed by snow on February 7th if the new loader hadn't been available. Considering Boston's problems during and after this storm, we are very pleased with our crew's handling of it.

When spring arrived we spent time repairing roads from the winter's damage. After that was accomplished the construction of the Ogunquit Road between Emery's Bridge Road and Bennett Lot Road started in 1977 was continued. Approximately one-thousand (1000) cubic yards of ledge was removed in order to eliminate a dangerous, sharp curve and widen the road bed. By late summer this project was approximately 90% complete. Due to the lack of money available to remove all of the ledge encountered, the completion of the project was moved up to 1979.

In late summer we constructed the dirt portion of Wadleigh Lane (approximately 800 feet) to an eighteen foot wide road. We had originally planned on a twenty-four foot roadway. However, the land to expand the road surface could not be obtained. Once the gravel was in place we had the base asphalt placed on the surface. In 1979 we plan to lay a second course of hottop to complete the job.

In addition to these major projects, approximately three miles of tar roads were sealed, many dead trees were cut, the dumpsite was maintained, many signs and culverts were replaced and, of course, many potholes were patched during 1978.

December started what was to be the third year of bad winter weather in a row.

Looking toward the future, the three year construction program accepted by the Town Council during 1979 budget deliberation includes:

- 1979 Finishing the Ogunquit Road project.
- Starting the improvement of the dirt portion of Emery's Bridge Road in order to be tarred.

Highway Department (Continued)

1980 Continuing work on the Emery's Bridge Road.
Tarring the dirt portion of Thurrell Road.

1981 Working with the Sewer District to reconstruct
Liberty and Academy Streets after a new sewer
system is installed in them. (If funding from
the State and Federal Governments becomes
available to the Sewer District.)

With the end of the '77-'78 winter season, Paul Hussey, Sr.
ended a longtime tradition of contracting to snowplow the Tatnic
area for the Town. We want to express our sincere gratitude
to Paul and his sons for serving South Berwick so well over the
years. Few realize how hard this job has been.

In this time of concern for government spending, we would
like to point out that you can help save tax money by keeping
vehicles and other obstructions off the roadways during snow-
storms and by not plowing snow into roadways. By doing these
simple things roads do not have to be replowed as often, and the
potential of damaging Town snowplows is lessened. This repre-
sents money you can save.

We want to thank everyone who has helped us in 1978. We
look forward to the coming year.

Respectfully submitted,

Rudolph Naples
Road Commissioner

Donald Boston
Road Foreman

Parks and Conservation Committee

1978 Report

Municipal Shade Tree Planting Program The Committee arranged to have 18 trees (14 Sugar Maples and 4 Red Oaks) planted within the Town of South Berwick in 1978. This brings the total number of trees to 194 which have been planted over the past six years under the State sponsored Municipal Shade Tree Planting Program. This year, however, the State cut back significantly with funding and has indicated that perhaps 1979 will be the last year funding is available.

Fisheries Conservation The development of an Alewife Fishery was not at all successful in 1978. The Town did not get an acceptable bid to commercially harvest Alewives and no contract was issued. Commercial fishing went on anyway, however, through a legal loophole which allowed for the fishing of Bluebacked Herring (considered to be the same species by the U.S. Fish and Wildlife Service but not by the Maine Department of Marine Resources). This situation will exist until the State Legislature includes the Bluebacked Herring as a regulated species.

During April many residents observed (at night) the commercial fishing of "elvers" below the dam at Rt. 4. The Committee followed the operation and found the fishermen very cooperative. ("Elvers" is a term used by fishermen to describe the larval stage of the American Eel Anguilla rostrata. This species spawn in the Sargasso Sea in the North Atlantic northeast of the West Indies. After hatching the larval eels (also called glass eels because of their transparent bodies) migrate back to rivers and streams in North America. This migration may take as long as two years. After entering fresh water they remain and grow for up to 15 years, then return to the Sargasso Sea to breed.) The fishermen catching these eels this year were packaging the live eels for air shipment to Japan where they would be raised for food. Next year, should residents again see this night fishing operation and be interested in finding out more, please call a member of the Committee and we will be glad to assist you.

Town Forest Management Careful study is being made of the Town Forest for its potential multiple use by residents. Access has been finalized and the forest boundaries surveyed. The Committee has made many on site surveys marking boundaries and gathering information necessary to formulate a long range plan for the Town Forest. Several areas within the forest can be set aside for aesthetic-ecological significance and other areas can be used for recreational purposes. The Committee also plans to use part of the forest for propagation of trees to be used for future Municipal Shade Tree Programs.

Town Roadside Cleanup The Committee helped organize and supervise the Annual Town Roadside Cleanup on May 6th. Over 150 residents participated in the annual project. In appreciation for the fine job cleaning town roads a picnic following the cleanup was held at Berwick Academy for all participants. The picnic was made possible by the generous donation from businesses in Town.

Parks and Conservation Committee (Continued)

Annual River Cleanup April 20th we again held our annual canoe trip down the Great Works River to clean blockages caused by winter storms. This year we had an extremely active group and succeeded in removing more debris than ever before. In 1979 this event will be held again and is open to everyone interested in having a "good time". The Great Works River is one of the most beautiful natural resources we have here in Town. Anyone who has not canoed the Great Works River should plan to do it this year.

Other Activities Once again two South Berwick students were sent to Summer Conservation Camp at Bryant Pond. This year John Crothers and Edward Batchelder attended camp and learned a great deal about conservation. Their account to the Committee of their experiences at camp indicated to us that this is a very worthwhile activity to continue next year.

The Committee has been very active with the U.S.D.A. in the study of the Mt. Agamenticus area, its significance and possible long range use.

Young turkeys have been sighted this year in the Mt. Agamenticus area which indicates some degree of breeding success with the wild turkeys released in 1976 by the State. Any additional sightings would be of interest to the Committee and we would appreciate anyone sighting wild turkeys to let us know.

We hope that citizens will make themselves known to us and the Council if they would like to serve on the Parks and Conservation Committee, either as regular or as associate members.

The Committee meets the first and third Wednesday evenings of the month at 7:00 P.M. in the Municipal Office Building. All interested persons are invited to attend our sessions.

Respectfully submitted,

Richard Merrill, Chairman
Lee Blanchard
Joseph Perschy
John Richardson
Paul Colburn
David Schumann
Ruth Geib, Secretary

The Planning Board

1978 Report

The 1978 Planning Board started rather slowly as 80% of the members were lost by resignation or expiration of their terms. We were very fortunate in replacing all this lost experience with four dedicated members and two dedicated associate members. By doing alot of extra homework, holding extra workshops and with the willing co-operation of the Town Manager, Code Enforcement Officer, members of the Council, past members of the Board and interested citizens we were able to keep up with the work load. We were also able to take care of all problems brought before us with absolutely no postponments or loss of time.

The final recapitulation for the year shows:

- 9 subdivisions processed
- 3 subdivisions still open
- 2 subdivisions withdrawn
- 1 subdivision refused

Of the nine subdivisions approved, one was Housing for the Elderly on the Grant property on Portland Street which we feel will be of great help to some of our Senior Citizens. Another of great interest was the one hundred one-bedroom apartments on Route #236. This type of development can be a decided asset to the economy of the Town.

During this period the Board and Council worked as a team in drafting and submitting for the voters approval, a new Zoning Ordinance. This Ordinance was passed on November 7, 1978. It was a great tribute to the members of both Boards to be able to work so closely on such a controversial issue and come up with a plan that was acceptable to the voters. Some of the meetings were rather hectic but as everyone was working for the best interests of the Town all issues ended up with a unanimous vote.

We want to thank all previous Members of Zoning Committees who have worked on Ordinances that had not passed, for their contributions to the ultimate Ordinance.

Respectively submitted,

Harland Goodwin, Chairman
Charles Caswell
Owen Stevens Jr.
Clifford Blaisdell
Arthur Stansfield
Edwin Sargent
Robert Howarth

The Recreation Committee

1978 Report

During the year of 1978, the recreation program went through a number of changes which will effect recreation opportunity in the years to come. At the March Town Meeting appropriations were approved for a Municipal Ice and Tennis Facility which was completed in September of this year. The Facility is located off Highland Avenue and consists of four (4) plexipave tennis courts with lights for night tennis. During the winter months the arena turns into an ice arena and is flooded and maintained by Berwick Academy. Berwick Academy has purchased a Zamboni for resurfacing the ice and is open evenings and weekends.

During January and February, Powder House Hill operated five (5) evenings and two (2) weekends. Operation was not possible at other times due to lack of snow and hazardous conditions. Twenty-five skiers was the average nightly attendance while forty per day during the weekend.

During February, 240 went by bus to the Ice Capades at the Portland Civic Center and during March to a Celtics game where 40 participated. Also included in trips to sporting events was the annual Red Sox Day where 100 participated.

During the spring two courses of Yoga were offered and the attendance averaged 25 per course. More courses are planned for 1979 along with evening adult tennis instruction in the spring.

The summer program had a large registration in all areas and the adult and children tennis were filled along with swimming courses. The gymnastics program was again offered and over 80 children participated in that program. Daily programs got off to a slow start but grew continually during the summer, while arts and crafts drew an average of 35 per day. Friday programs had an average attendance of 45 with a large turnout for Beach Day, the Mountain Trip, and the trip to Benson's Wild Animal Farm.

I would like to thank all my summer staff especially the Assistant Director, Sandy Trembley, Waterfront Director, Dawn Lane, Karen Wilkinson (arts and crafts), and Debbie Barrett, (daily program).

Recreation Committee (Continued)

Effective September 1, 1978, I resigned as Recreation Director to take a full-time position as Police Officer with the South Berwick Police Department. I would like to thank all those that were involved in assisting me during the time I was Director, especially those who have volunteered their time to serve on the Recreation Committee. I would also like to thank the Citizens of South Berwick who continue to support the program and also all the children who were involved in the program. I look forward to serving the Community of South Berwick in the future.

Respectfully submitted,

Clifford Parkinson
Recreation Director
January through September

From September to December 1978, a variety of activities were offered to the residents of South Berwick. The major sporting event was Red Sox bus trip on September 30 in which 100 people participated. Also, the Dover indoor pool was rented for a free family swim night that involved a number of children and adults. An eight week soccer program was offered to the children and proved to be very successful. The Recreation Department would like to extend their thanks to Dave Roberts who volunteered his time and efforts to run this program.

The month of October presented the beginning of an eight week adult course in Yoga. This course was well received by area residents and will be continued in 1979.

The Halloween Parade and Party proved to a huge success, involving close to three hundred children. Pre-schoolers up to sixth grade students took part in the festivities which began with a parade through Town and ended with a costume contest and refreshments at the Central School. Thanks go to members of the Recreation Committee and especially to Priscilla Comeau who volunteered her time to the event.

During the months of November and December efforts were made to get Powder House Hill Ski Area into operating form. The Hill operated only one and one-half days in December because of lack of snow. Hopefully, there will be many good ski days ahead.

Recreation Committee (Continued)

An elementary basketball league began in December and will continue through January. Close to ninety boys and girls participate every Saturday morning at the Central School. Many thanks to Karen Arnault for all her volunteered help. An all-star will be selected for post season play with surrounding communities.

To enhance the Christmas spirit, Santa Claus came to Town to visit the South Berwick children. He made many children very happy and we thank him for his time and effort.

I became the Recreation Director for South Berwick on September 1, 1978. Much help and support has been given to me in these four months. I would like to thank Cliff Parkinson for his help in making the transition so smooth. Also, special thanks to the Recreation Committee Members; Betty Syvinski, Jerry Desilets, Bonnie Cabe, Annabelle Hayes, and Robert Lothrop for being very helpful and supportive.

Respectfully submitted,

Susan deMoya
Recreation Director
September through December

Social Services

1978 Report

The storm of 1978 strengthened my feelings that whenever the need arises people are right there to help. Churches were opened to accept anyone who might need help. Grocery stores were also alerted and expressed their desire to help.

Throughout the year I see many good days and a great many bad and sorrowful days. The Maine Medical Center Cancer Clinic, Portland, Maine heads the list of priorities as my feelings are that anyone with cancer does not need to worry or wonder how or if they will be able to keep their appointments due to lack of transportation because we do provide this service as well as transportation to and from the Wentworth Douglass Hospital, Dover N.H., Frisbee Hospital, Rochester, N.H. and the York Hospital, York, Maine. We also assist in getting people to clinics, doctors, dentists, grocery shopping and other appointments that might be of help to the elderly or any needy people needing our services.

The Mayme Grant House which is undergoing extensive renovating will be housing "Our South Berwick Elderly" in early 1979. There will be 22 apartments, a recreation room and laundry facilities in the complex.

Happy and fun days are transporting the Senior Citizens to the Berwick Senior Citizen mealsite two days a week. My youngest is 64 years old and my eldest is 95 years old. They have a delightful time and they count their blessings that we have wonderful facilities for them, "Our Senior Citizens".

Last summer I was invited to go to Boston with a bus load of Senior Citizens on a Town sponsored trip to Faneuil Hall for shopping and luncheon. I carried bundles and helped our gracious ladies find their way back to the bus. The weather was beautiful and a fun day was had by all. Our bus driver, Mr. Kenneth Bolduc, provided one more treat by stopping at Putnam Candies for that last minute shopping, a refreshing drink or ice cream. We arrived at St. Michael's parking lot around 5 p.m., a little weary but delighted with our beautiful day.

State welfare meetings, conventions and seminars are always a big help in keeping up with the times as to how to better serve my community.

My thanks to Mr. David Ofner for all the help he gave in 1978.

Many, many thanks to Mr. Naples for being there whenever I needed him and also for his moral support.

Respectfully submitted,

Jeannine M. Pontbriand
Social Worker

South Berwick Emergency Ambulance and Rescue, Inc.

1978 Report

South Berwick Rescue Squad experienced another eventful and productive year.

The major highlight of the year was the signing of an agreement with Design Consultants of Lewiston, Maine for the erection of a medical facility in South Berwick to meet the needs of a growing community. This new facility will service the surrounding towns as well as South Berwick.

The Squadmen responded to 264 emergency calls during 1978, up 18% from 1977. All Squad personnel are well versed in emergency techniques. Many hours are spent attending E.M.T. courses and other related first aid seminars. A few members have attended Legislative hearings in Augusta in order to convey our knowledge of ambulance procedure, to assist the lawmakers in being aware of certain procedures before enacting laws which will hinder rather than help the victims of an emergency. The Squad has been successful in changing some pending Legislation concerning ambulance requirements and procedures.

Escalating costs to maintain the ambulances and squad equipment have been met by the generosity of individual donations. The memorial donations have helped us to keep our life saving equipment to the best available.

The South Berwick Rescue Squad would like to take this opportunity to publicly thank Mrs. Ethel Schindler for her many hours of dedicated time to assist in the dispatching of the ambulance.

The Squadmen would like to think that there are no strangers in our community, only friends and new members who have not been met.

Respectfully submitted,

S. B. E. R.

South Berwick Fire Department
Report for 1978

Woods, grass, and rubbish fires	19
Chimney fires	9
Structure fires	10
Accidents & vehicle fires	23
Gas spills	4
Furnace and stove fires	3
Electrical fires	5
False alarms	5
Out of town calls	20
Still alarms	40
Other calls	2
	<hr/>
Total	140
Fire permits issued	127
Fire loss	\$78,025

In this year's Town Report you will find a check off list for the installation of wood stoves and chimneys. Anyone who is burning wood, or planning to, should make sure that the stove and chimney is installed according to this list. If you have any questions about wood stove installation, please call the Fire Department at 384-2731. All houses in South Berwick should have a smoke detector for the protection of their family and property. This small amount of cost could save the lives of your family someday.

This year the Town purchased nine fire coats for the firefighters. The men voted to buy twenty six more coats. By buying the coats in one package, we saved the Town over fifteen hundred dollars. The coats are made of Nomex material which will withstand much more heat than our old canvas coats.

To upgrade the protection of our firefighters, I have requested funds in this year's budget to purchase four air packs so we can go into a smoke filled building with dependable equipment.

Respectfully submitted,

George Gorman
Fire Chief

INSPECTION CHECK LIST FOR
SOLID FUEL BURNING FREE STANDING STOVES OR RANGES

1. Is the appliance listed for this type of installation?
2. If the stove is a listed appliance, is it installed according to its listing?
3. Is the stove in good condition?
4. Is the smoke collar tight and screwed, rivited or welded in its place?
5. Is the operating and installation manual available for the homeowner?
6. Is the stove located so that it will not block any exits, doors or passageways?
7. Is the stove located so that children may not readily come in contact with the appliance when it is hot?
8. Are the proper tools readily available for the operation of the stove, such as poker, shovel and ash bucket with metal cover?
9. Do not use flammable liquids to light the stove.
10. Are there smoke or heat detectors protecting this dwelling?

CLEARANCES: RADIANT TYPE STOVE

1. Are the clearances from combustibles 36" from the sides and rear of the stove, and 36" in front? (If the answer is no, then the combustibles must be protected.)
2. If the clearance is 18" to a combustible, is the combustible protected with no less than $\frac{1}{4}$ " asbestos millboard, spaced out one inch from the combustible and one inch from the floor so that air will circulate between the protection and the combustible?
3. If the legs of the stove are 18" or more, is the floor protected with sheet metal no less than 24 gauge?
4. Does the floor protection extend no less than 6" beyond the sides and rear of the stove and no less than 18" in the front? (Note: These distances are minimum and 18" all the way around is better.)
5. If the length of the legs of the stove are from 6 to 18" is the combustible floor protected with no less than 24 gauge sheet metal over $\frac{1}{4}$ " asbestos millboard?
6. If the legs of the stove are 6" or less, is the combustible floor protected by using 4 inch hollow masonry laid to provide air circulation through the masonry layer covered by a sheet of not less than 24 gauge sheet metal? (Note: brick, stone and asbestos cement board DO NOT protect combustibles.)
7. Are any fabrics close to the appliance? (Drying clothes on the appliance is not permissible.)

CHIMNEY CHECK LIST FOR STOVE INSTALLATIONS

1. Does the chimney extend at least 3 feet through the roof and 2 feet higher than anything within ten feet from it?
2. Does the top of the chimney appear in good repair?
3. Is there a cleanout located at the base of a masonry or a cleanout tee located at the bottom of a factory built chimney?

4. Is there a lining in the masonry chimney of the 5/8" fire clay type?
5. Is there a minimum of 2" clearance from the masonry and factory built chimney from combustible materials all the way up through the dwelling?
6. Does the chimney appear tight in construction for its entire length?
7. A chimney should be inspected every six months or at least once a year.
8. Is the chimney on the inside of the dwelling? (Note: A chimney on the outside produces low draft and may create problems smoking up the home when using solid fuel.)
9. Does the chimney produce the proper draft required by the appliance?
10. Burning wood slowly creates serious soot and creosote problems.
11. If a chimney fire occurs, shut off all air supplies to the chimney.
12. Is there a fire clay or metal thimble at the opening for the connection of the appliance?
13. Is there evidence of more than one natural draft burner on a flue?
14. Is there any reduction in flue area size from the appliance to the top of the chimney? (Note: The smoke pipe collar on the appliance is designed for the output rating of the appliance and this shall never be reduced.)
15. Are all old openings where connector holes have been sealed, sealed with brick and mortar, the same thickness as the existing walls of the chimney?
16. Is the chimney 4 inches thick (if made of brick) and 12 inches thick (if made of rough stone masonry)?

CHECK LIST FOR CHIMNEY CONNECTORS

1. Is the smoke pipe reduced in size smaller than the appliance connector?
2. Is the smoke pipe 24 gauge or heavier?
3. Is the smoke pipe pitched up from the appliance to the chimney connector at least $\frac{1}{4}$ " to the foot?
4. Is the smoke pipe as short a run as possible?
5. Does the smoke pipe pass through any floor or ceiling?
6. If the smoke pipe passes through any wall or partition, is it properly protected with ventilated thimble or cut away to provide the proper clearance of 3 times the smoke pipe diameter?
7. Clearance above smoke pipe should be no less than 18 inches.
8. For proper burning, wood should be cut and dried for one year before burning.
9. All homes in South Berwick should have a smoke detector.

South Berwick Health Council

1978 Report

The South Berwick Health Council has been very active and productive in its second year. We have assisted York County Health Services in sponsoring and working at Well Child Clinics held monthly at the First Parish Federated Church. We have had a tremendous response to these clinics seeing South Berwick children ranging from the ages of birth to twelve years old. Additionally, the Health Council has assisted York County Health Services in two Adult Multi-Phasic Screening Clinics, one in the spring and one in the fall. The tests offered at these clinics are blood pressure readings, pap smear, glaucoma testing, diabetic screening, urinalysis, and hemoglobin check. The response to these clinics has also been good and with time we hope even more people will use these health clinics. Remember - All of the clinics that are held for adults and children are available to all of the Citizens of South Berwick for a very minimal fee and service is never denied due to lack of funds. We have also sponsored a voluntary flouride program at Central School with excellent results and are planning to make this an annual event. The Health Council assists the school nurse in hearing and eye testing of elementary school children.

We meet the first Wednesday of every month at 9:30 A.M. at the First Parish Federated Church. As we look forward to another healthy and productive year, we welcome any interested persons to join us!

Respectfully submitted,

The South Berwick Health
Council

South Berwick Police Department

1978 Report

To: The Honorable Town Council, the Citizens of South Berwick and Rudolph Naples, Town Manager

I am very pleased to give this Annual Report of the South Berwick Police Department for the year 1978. This year saw a complete change in police personnel and positions. The Department presently consists of the following Officers: Gary Arris, Clifford Parkinson, Frank Waters and Jeffrey Daigneault.

The year 1978 was a busy one. The number of motor vehicle accidents totaled 126, one less than last year. The total damages caused by these accidents was \$105,883. This amount is \$16,400 more than in 1977.

South Berwick had 35 accidents involving personal injury. This includes one fatality. Your Police Department continued Defensive Driving Courses and more are planned for 1979.

We will continue a highly aggressive Traffic Enforcement Program aimed at reducing traffic accidents and making the streets and highways in South Berwick safer for you to travel.

During the last year the Police Department has given tours and spoken with elementary school children about the Police Department and what its duties are. We also spoke with the Career Class at the Junior High School.

A Crime Prevention Program has been introduced and will be continued and, hopefully, expanded in the upcoming year.

The Department carried on with its Public Service Programs by sponsoring Defensive Driving Courses, Bicycle Registrations, Crime Prevention Programs and Business and Security Checks. These will be continued in 1979 and also a Juvenile Program will be established. This program hopefully will help the youth of the Town to understand and learn about their Police Department.

In 1978, your Police Department had a crime clearance rate of 36% as determined by the State Department of Public Safety. 79.6% cash value of property stolen was recovered. This places the Department near to the top of the list in York County.

Police Department Report (Continued)

Listed below are the various statistics of the Department:

Call and Complaints answered	4,118
Dog Complaints	238
Warning Cards	354
Defects	316
Arrest and Summons Issued	546

The South Berwick Police Department would like to thank area Police Departments, the Maine State Police, the South Berwick Fire Department, the Civil Defense Director, the Town Council, the Town Manager and the Citizens of South Berwick for their continuous support.

Respectfully submitted,

Timothy A. Berry
Chief of Police

South Berwick Public Library

1978 Report

1978 was a quiet but constructive year for the South Berwick Public Library. It was the Library's seventh year of existence in Town and it is continuing to be an ever more established part of this Town's life.

In July the Library entered into a three year written lease with the Library building's owner, the Society for the Preservation of New England Antiquities. This is the first time the Library has had a formal leasing arrangement with the Society. It was written to insure the continued use by the Library of its present location on the first floor of the Eastman House. Under the new arrangement with the Society the Library pays a minimal rental which is contributed for the term of the lease by the "Friends of the Library."

During August the Eastman House was painted. The job done was a thorough one, and the building again looks as lovely as it should. The cost was divided evenly between the Society and the Library. The Library's share of the cost came from profits earned selling the Friend's cookbook, A Cooks Tour of South Berwick during 1977 and 1978. We appreciate and want to acknowledge the help of the Friends, whose work made the cookbook such a success, and also the patronage of those who purchased this excellent book.

In the early part of 1978 the Library Board conducted a written survey of 15 similar sized surrounding town libraries. The results were informative. Although the South Berwick Public Library is open more hours and had more books checked out than most of the libraries surveyed, it had the fifth smallest budget and the second smallest number of volumes available for circulation. Following that survey the Board members discussed and evaluated the Library's present status in Town and how we can continue to best serve this community.

The Library is fortunate in having Kitty Davis as its Librarian. She is dedicated, faithful and enjoyable to work with. One of the projects Kitty started during 1978 was a program involving upper primary age children serving as library aides. These children are volunteers who assist the Librarian. They are expected to perform their jobs independently, punctually and faithfully. They do this and their efforts are felt and appreciated by both the Librarian and those who use the Library. This program has received the attention of the U.N.H. summer library course and the Southern Maine Regional Library system.

South Berwick Public Library (Continued)

In each of the Library's past years the number of volumes checked out has increased. 1978 was no exception, with the lowest number for any month being 700 books, or approximately 20 books per day. In each of nine other months more than 1,000 volumes were borrowed. In addition to keeping up with the "Best Sellers", the Library offers home improvement books, energy conservation books, a large supply of paperback books and is starting a section of large print books. In addition the Library can obtain almost any fiction or non-fiction book, that the Library does not have, through the State of Maine inter-library loan program.

The Board thanks both the Town and the Society for Preservation of New England Antiquities for the support and help we received during 1978. We also thank all the volunteers without whom the Library could not function. We are proud of the Library, and we ask you to share that pride by using the Library and supporting our projects during 1979. Volunteers who are prepared to make a contribution of time and effort to the Library are always needed and appreciated.

Respectfully submitted,

South Berwick Public Library Board

Strawberry Festival Events

1978 Report

Friday - A Night of Music at the Hamilton House

The Third Annual Evening of Music which was held Friday June 23rd featured the thirty-voice South Berwick Community Chorus under the direction of Dianne Dean and also, Tom Gallant's Dixieland Band. The groups played to a crowd of approximately 300 people.

Members of the Committee were:

Susan Sullivan, Co-Chairman
Joan Merrill, Co-Chairman
Diane Parent
Betsy Schumann
Bruce Whitney

The Committee is grateful to Burton Trafton and the Society for the Preservation of New England Antiquities for their assistance and cooperation.

Saturday - Strawberry Festival Day

The Committee for Saturday's events was formed by a group of citizens last year who wished to continue operating for the Town, but not as a Town appointed or Town funded committee. Their responsibility is to organize the crafts day of the Festival Weekend to be held the last weekend in June.

Last year saw the largest and most successful Strawberry Festival to date. Who can forget the traffic jam? There are already ideas circulating for Strawberry Festival 1979. Anyone wishing to serve on this committee designed for fun should contact Donna Erickson at 384-2512.

Members of the Committee were:

Cynthia Gagnon	Barbara Brooks
Karen Boston	Susan Gately
Noreen Biehl	Janet Weston
Jenny Cleaves	Donna Erickson
Fran Hill	

We wish to express our thanks to Federated, First Baptist and St. Michael's Churches, and to Berwick Academy for the loan of their tables, and to all the strong arms who helped haul them. We also wish to thank the local merchants who have either donated items or provided materials at cost.

Any proceeds from this occasion will go towards continuing beautification or restoration projects in South Berwick.

We welcome your ideas. This is your Festival. Thank you for your support.

Sunday - South Berwick Day at Spring Hill

Report of the Town Clerk

1978

In January of this year, The Secretary of State (Motor Vehicle Division) afforded three communities in the State of Maine to become involved, on a trial basis, in issuing new registrations and transfers of registrations for automobiles and small trucks. I was privileged in attending the three-day training session held in Augusta. On February 2nd, we commenced the new program which has proven very successful from the customers' point of view. By doing these transactions here we save taxpayers the forty mile round trip to Kennebunk to the Registry.

At first, we were doing transactions for nine neighboring towns. This brought in more business than the Town Office was staffed to handle. Presently, we are serving only the bordering towns of Berwick, North Berwick and Eliot and average approximately twenty-five transactions a day. Total revenue collected for the year amounted to \$5,170 which came from the one dollar agent's fee to the Town. If one were to travel to Kennebunk at a cost of \$.15 per mile, it would cost approximately \$6.00. Therefore, this service saves taxpayers approximately \$5.00. Indeed, it is a good program.

The following is a breakdown of the various licenses issued and vital statistics recorded for the year:

Deaths recorded	13*
Births recorded	4*
Marriages recorded	72
Dog Licenses issued	362
Fishing & Hunting Licenses issued	703
Pheasant Stamps sold	22

* This does not reflect a true accounting as a majority of these events occurs out-of-state.

Respectfully submitted,

Beatrice W. Nutter
Town Clerk

York County Health Services

1978 Report

During 1978, York County Health Services, Inc., staff from the Wells office (phone 646-2771), provided care to 293 residents of South Berwick. Significant growth in YCHS response to requests for care has occurred since July 1978, when York Hospital discontinued home health services. Demonstrating that YCHS's comprehensive community health programs meet all known professional standards for quality, YCHS was awarded accreditation by the National League for Nursing/American Public Health Association.

372 Home Care visits were made to 23 ill or disabled South Berwick people; 269 by nurses, 44 by physical therapists, and 61 by home health aides. This year YCHS has also been able to provide home visits by a medical social worker.

Maternal-Child Health nurses also made 119 visits to 53 residents, meeting the specialized family needs related to child-bearing/child rearing. Clinic services to well children continued monthly in 17 locations across the county. 162 South Berwick children made 240 visits to 13 clinics and received 968 separate services, including complete physical examinations, immunizations, preventive health education, and a variety of screening tests to rule out or detect early any abnormalities of growth and development.

Well adults also had health assessment services available through Adult Multi-Phasic Screening Clinics at 20 different sites, some held monthly and some less frequently. 55 South Berwick residents received 459 tests, at 2 clinics to detect chronic disease. Across the county, 40% of all tests which showed abnormal screening results have been confirmed by physicians to mean previously undetected but treatable disease.

Much of this service has been made possible by the able assistance of local citizen volunteers particularly from the South Berwick Health Council. With such community support, represented by Mrs. Betsy Schumann (phone 384-2621) of the YCHS Community Advisory Committee, YCHS hopes to continue to serve South Berwick residents' community and home health needs.

Respectfully submitted,

Shirley A. Ouprie, R.N.
Executive Director

Zoning Board of Appeals

1978 Report

While there is a Zoning Board of Appeals as required by state statute, there has been no activity for the past year.

Since there now is a town zoning regulation, it is possible that the coming year will require some activity.

Respectfully submitted,

NORMAN PAGE, Chairman

BERRY, DUNN & MCNEIL
CERTIFIED PUBLIC ACCOUNTANTS
477 CONGRESS STREET
PORTLAND, MAINE - 04101

ACCOUNTANTS' REPORT

Town Council
Town of South Berwick, Maine

We have examined the financial statements of the various funds and the general long-term debt group of accounts of the Town of South Berwick, Maine for the year ended December 31, 1978, listed in the foregoing Table of Contents. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

The Town has not maintained a record of its general fixed assets, and accordingly, a statement of general fixed assets required by generally accepted accounting principles is not included in the financial report.

In our opinion, the financial statements listed in the aforementioned Table of Contents present fairly the financial position of such funds and the general long-term debt group of accounts of the Town of South Berwick, Maine at December 31, 1978 and the results of operations of such funds for the year then ended in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

The current year's supplementary data, included in Schedules 1 and 2, have been subjected to the same auditing procedures and, in our opinion, except for the effects of the non-recognition of accounts payable, are fairly stated in all material respects in relation to the financial statements taken as a whole.

TOWN OF SOUTH BERWICK, MAINE

Notes to Financial Statements

December 31, 1978

1. Summary of Significant Accounting Policies

The accounting policies of the Town of South Berwick, Maine conform to generally accepted governmental accounting policies except for the omission of a general fixed asset group of accounts and the use of the cash basis to record expenditures as further explained in Note 2.

Significant policies follow:

Basis of Accounting

The accounts of the Capital Projects, Capital Reserve and Trust Funds are maintained and reported on the accrual basis. The General Fund is maintained and reported on the modified accrual basis except for General Fund Expenditures which are recorded when paid.

Under the modified accrual basis of accounting, revenues are recorded when received in cash except when they are both measurable and available as resources which may be appropriated. Expenditures, except for interest on general long-term debt which is recorded when it becomes due, are recorded when goods or services are received and actual liabilities are incurred.

Budgetary Accounting

General governmental revenues and expenditures are accounted for in the General Fund and are controlled by a budgetary accounting system in accordance with legal requirements.

Trust Funds

Restricted funds for which the Town has a fiduciary responsibility are accounted for in the Trust Funds.

Obligations

General obligation Notes supported by general revenues are obligations of the Town as a whole and not its individual constituent funds. Accordingly, unmatured obligations are accounted for in the General Long-Term Debt Group of Accounts.

Investments

Trust Fund investments are stated at cost.

TOWN OF SOUTH BERWICK, MAINE

Notes to Financial Statements

December 31, 1978

Summary of Significant Accounting Policies (Concluded)

Other General Accounting Policies

All Town employees are covered by the Maine State Retirement System. Pension costs to the Town are actuarially determined by the State. Under the terms of the plan selected by the Town there are no prior service costs. The actuarially computed value of vested benefits has not been determined. The Town's policy is to fund pension cost accrued.

Unrecorded Payables

Use of the modified accrual basis which requires that known liabilities be recorded, would have resulted in higher expenditures for the fiscal year ending December 31, 1978 as follows:

Unrecorded Liabilities		(Under) Over
at December 31,		Statement
<u>1978</u>	<u>1977</u>	of 1978
		<u>Expenditures</u>
<u>\$15,600</u>	<u>\$10,256</u>	<u>\$5,344</u>

There are additional payables due of \$11,800 for the tax equalization program for which the funds have been appropriated.

South Berwick Sewer District
South Berwick, Maine 03908

To the Board of Directors:

We have examined the balance sheet of the South Berwick Sewer District as of December 31, 1978, and the related statements of income and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying balance sheet and statements of income and changes in financial position present fairly the financial position of the South Berwick Sewer District at December 31, 1978, and the results of its operation for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 1978

The Sewer District is currently working with the State of Maine Department of Environmental Protection and their engineers on plans for upgrading the treatment plant to meet the requirements of the E.P.A. Phase I of this project is scheduled to start in two to three months at a cost of \$26,700.00, of which 90% will be funded by state and federal grants.

Phase II of the project will be replacement of the current treatment plant. Estimates are that this will cost well in excess of \$1,000,000.00, with 90% of the funding available through state and federal grants.

REPORT OF THE SOUTH BERWICK WATER DISTRICT

In compliance with the rulings of the Public Utilities Commission of Maine, the Trustees of the South Berwick Water District submit the following report which covers the year ending December 31, 1978.

The Public Utilities Commission granted a rate increase, the first since 1954, and it was hoped that planned upgrading could be accomplished. However, the requirement of replacing the main across the Great Works River, and unexpected pump replacements curtailed the plans. However, a loop connecting Portland Street, Jewett Avenue, Norton Street and Goodwin Street was installed which, in addition to supplying the new Home for the Elderly, materially improves the fire protection in those areas.

Accountants' Report

Board of Trustees
South Berwick Water District
South Berwick, Maine

We have examined the balance sheet of South Berwick Water District at December 31, 1978 and 1977 and the related statements of income (loss) and retained earnings (deficit) and changes in financial position for the years then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the aforementioned financial statements present fairly the financial position of South Berwick Water District at December 31, 1978 and 1977 and the results of its operations and the changes in its financial position for the years then ended, in conformity with generally accepted accounting principles applied on a consistent basis.

SOUTH BERWICK WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1978

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Regulation:

The Company is subject to the regulatory authority of the Public Utilities Commission of the State of Maine as to financial reporting and other matters.

Property, Plant and Equipment:

Utility property is stated at cost and depreciated on the straight line method at rates varying from 1% to 15%. Water property retirements are charged in total to the accumulated depreciation account when they occur.

Materials and Supplies:

Inventories of materials and supplies are stated at cost.

Unamortized Debt Discount and Expense:

Cost incurred to issue long-term bonds together with discounts allowed at the time of sale are amortized on a straight line basis over the term of the bond issue.

NOTE 2 - INVESTMENTS:

Bond Sinking Fund:

Custody of sinking fund assets is maintained by the Trustees of the District. A statement of bond sinking fund financial condition is contained in Schedule A-1.

NOTE 3 - LONG-TERM DEBT:

First Issue Bonds - 4 1/4% - \$190,000.

These bonds were issued on October 1, 1960 and mature October 1, 1980. A minimum of one percent (1%) of the outstanding balance is appropriated from income each year and added to a sinking fund to retire the bonds. (Note 5)

Second Issue Bonds - 4 1/2% - \$75,000.

These bonds mature as follows:

5 on the 15th day of June in each of the years 1977-1979
40 on the 15th day of June 1980
30 on the 15th day of June 1981

NOTE 4 - OTHER INFORMATION:

On December 21, 1977, the State of Maine Public Utilities Commission authorized the District to file revised rates, designated to produce total

NOTES TO FINANCIAL STATEMENTS-PAGE 2

operating revenues of \$72,458., which represents an increase of 22% over 1976 actual operating revenues.

The new rate schedule was filed with the Commission on December 22, 1977 and was approved by the Commission on December 29, 1977, and became effective January 1, 1978.

NOTE 5

During 1978 \$2,000. was appropriated from income for the annual addition to the sinking fund. As of December 31, 1978 the addition to the sinking fund had not been made because of the lack of funds in the regular District checking account. The treasurer felt that there would be sufficient funds to make the payment in January 1979.

Elizabeth R. Vaughan Fund
South Berwick, Maine

I have examined the balance sheet of the Elizabeth R. Vaughan Fund as of December 31, 1978 and the related Statement of Revenues and Expenses and Changes in Fund Balance for the year then ended. My examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as I considered necessary in the circumstances.

The Balance Sheet at December 31, 1977 and the related Statement of Revenues and Expenses and Changes in Fund Balance for the year then ended are presented for comparative purposes only. I did not conduct an audit nor perform any auditing procedures with respect to the year ended December 31, 1977 and accordingly, I do not express an opinion on them.

In my opinion the accompanying Balance Sheet and related Statement of Revenues and Expenses and Changes in Fund Balance present fairly the position of the Elizabeth R. Vaughan Fund at December 31, 1978 and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding years.

Martin J. Hegarty
Certified Public Accountant

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1978 AND 1977

1. Significant Accounting Policies

Investments of the Fund are recorded at cost. Income is recorded on the accrual basis.

2. Under the terms of Elizabeth R. Vaughan's will, \$50,000 was bequeathed to the South Berwick Trust Company for the recreational benefit of the youth of South Berwick. Both income and principal may be used for recreational activities for the youth. The Town Council of South Berwick became successor trustee of the Fund as of December 31, 1971.

ANNUAL REPORT - "VAUGHAN FUND"

To: Robert T. Gagne', Chairman of the Trustees, the Trustees and the Residents of South Berwick.

The Annual Audit of the "Vaughan Fund" financial records for 1978 is underway and will be completed and published with this report in the South Berwick Town Report for 1978.

The income realized by the Fund during 1978 was \$6,160.00 provided by dividends and interest from securities held by the Fund. \$716.31 of this income was in the form of additional shares of certain stocks, rather than cash and was therefore not available for disbursement.

The operating expenses were \$640.00.

The Fund, by vote of the Trustees and approval by the Annual Town Meeting granted \$500.00 for support of the South Berwick Public Library and \$5,000.00 for support of the South Berwick Municipal Recreation program during 1978.

The funds cash balance on 12/31/78 was \$312.98.

It is noted that the Fund's expenses and grants amounted to \$696.31 more than the cash income for 1978. This is a matter for consideration by the Board of Trustees early in 1979.

Respectfully submitted,

Robert Brackett
Secretary-Treasurer

For the Town Council of South
Berwick, Successor Trustee
u/w/o Elizabeth R. Vaughan

TOWN OF SOUTH BERWICK, MAINE

WARRANT

State of Maine
County of York, ss.

To RUDOLPH NAPLES, Resident of South Berwick, in the County of York, State of Maine.

GREETINGS:

In the name of the Town of South Berwick you are required to notify the inhabitants of said Town qualified to vote in Town affairs to assemble at the Civic Center (Central School) on Main Street in said Town on Saturday, the 17th day of March, A. D. 1979, at six forty-five o'clock in the forenoon, then and there to act on the following articles:

ARTICLE 1. To elect a Moderator to preside at said meeting.

ARTICLE 2. To elect two Town Council members for a three-year term and one member of the Board of School Directors of S.A.D. #35 for a three-year term.

The Polls for voting on Article 2 will be open at seven o'clock in the forenoon and will be closed at six o'clock in the afternoon.

A motion will be made to adjourn the meeting to March 24, 1979 at 7:00 o'clock in the evening to then and there act on Articles Three through Twenty-three all of said articles of the Warrant.

ARTICLE 3. To see if the Town will vote to authorize the Town Council and Town Manager on behalf of the Town to sell and dispose of any real estate acquired by the Town for non-payment of taxes thereon, on such terms as they deem advisable, and execute quitclaim deeds on such property with the understanding that any property deeded before the tax commitment date will be taxed this year to the grantee.

Council recommends adoption.

ARTICLE 4. To see if the Town will vote to authorize the Tax Collector to charge and collect interest at a rate of thirteen and one-half percent (13½%) per annum, to be retroactive to September 1, 1979, on all taxes not paid on or before November 9, 1979.

Council recommends adoption.

- ARTICLE 5. To see if the Town will vote to authorize the Town Council and Town Manager to expend funds from the Highway Department Equipment Account as expenditures become necessary to purchase and/or replace Highway Department equipment.

Council recommends adoption.

- ARTICLE 6. To see what sum of money the Town will vote to raise and appropriate for General Government Expenses and for Election expenses.

Legislative	\$ 5,700
Town Council, Town Clerk and expenses	
Judicial	10,000
Legal Fees and Retainer	
Executive	50,630
Town Manager, Bookkeeper, Clerical Assistance, Supplies, Services, Dues and Capital Outlay	
Elections	<u>1,855</u>

Total: \$ 68,185

Council recommends a \$7,200 appropriation from the Non-tax Revenue Account and a \$60,985 appropriation from general taxation. Total: \$68,185

- ARTICLE 7. To see what sum of money the Town will vote to raise and appropriate for Hydrant Rental, Sewer System Rental and Street Lights.

Fire Hydrant Rental	\$ 16,500
Sewer System Rental	9,440
Street Lights	<u>17,500</u>

Total: \$ 43,440

Council recommends a \$42,440 appropriation from Federal General Revenue Sharing and \$1,000 from Non-tax Revenue Account.

- ARTICLE 8. To see what sum of money the Town will vote to raise and appropriate for Debt Service.

Municipal Building Loan	\$ 10,150
Temporary Loans Interest	4,500
Capital Equipment - Loader	11,900
Tennis-Ice Facility Loan	6,910
Tax Revaluation and Remapping Loan	<u>18,620</u>

Total: \$ 52,080

Council recommends a \$32,560 appropriation from Federal General Revenue Sharing and a \$19,520 appropriation from general taxation.

ARTICLE 9. To see what sum of money the Town will vote to raise and appropriate for Property Tax Assessment and Code Enforcement.

One-half (1/2) time Assessor Assistant	\$ 6,605
Computer Services	1,500
Deed Copies, Dues, Telephone, Supplies, Office Equipment and Expenses	1,600
One-half (1/2) time Code Enforcement Officer (includes vacation, illness replacement)	6,805
Code Enforcement Office, telephone, supplies and expenses	<u>800</u>
Total:	\$ 17,310

Council recommends a \$12,810 appropriation from general taxation and a \$4,500 appropriation from Non-tax Revenue.

ARTICLE 10. To see what sum of money the Town will vote to raise and appropriate for the Highway Department.

Highways and Streets	\$ 84,090
Snow Removal	41,020
Town Dump	6,050
Town Garage	2,950
Tree Removal	<u>1,200</u>
Total:	\$135,310

Council recommends a \$4,000 appropriation from Non-tax Revenue Account and a \$131,310 appropriation from general taxation. Total: \$135,310

ARTICLE 11. To see what sum of money the Town will vote to raise and appropriate for support of the South Berwick Public Library.

Council recommends a \$900 appropriation from Non-tax Revenue Account and a \$6,710 appropriation from general taxation. Total: \$7,610

ARTICLE 12. To see what sum of money the Town will vote to raise and appropriate for the operation of the Fire Department.

Council recommends a \$32,145 appropriation from general taxation.

ARTICLE 13. To see what sum of money the Town will vote to raise and appropriate for Dispatch Services.

Two Dispatchers for 12 months in 1979	\$ 13,650
Two Dispatchers for 8 months in 1979 (May 1 - Dec. 31)	9,030
Vacation, holiday and sick leave replacement dispatchers (May 1 - Dec. 31)	1,685
Police & Fire Depts. - Outside dispatch service (Jan. 1 - May 1)	3,545
Fringe benefits for two dispatchers (May 1 - Dec. 31)	2,025
Part-time dispatchers to cover 21st shift each week (May 1 - Dec. 31)	940
Teletype costs & Microfilm costs	<u>910</u>
Total:	\$ 31,785

Council recommends a \$31,785 appropriation from general taxation.

ARTICLE 14. To see what sum of money the Town will vote to raise and appropriate for Dog Control.

Council recommends a \$2,100 appropriation from general taxation.

ARTICLE 15. To see what sum of money the Town will vote to raise and appropriate for the operation of the Police Department.

Council recommends a \$2,000 appropriation from Non-tax Revenue Account and a \$81,355 appropriation from general taxation. Total: \$83,355

ARTICLE 16. To see if the Town will vote to transfer a sum of money from the Reserve for Tax Losses and Liens Account for the purpose of Tax Abatements.

Council recommends transferral of \$5,000

ARTICLE 17. To see what sum of money the Town will vote to raise and appropriate for Social Services.

Town Welfare and Social Worker	\$ 12,160
Health	500
Camp Waban - Adult Day Care	<u>292</u>
Total:	\$ 12,952

Council recommends a \$200 appropriation from Non-tax Revenue Account and a \$12,752 appropriation from general taxation. Total: \$12,952

ARTICLE 18. To see what sum of money the Town will vote to raise and appropriate for Town Boards, Committees and others.

Planning Board	\$ 1,425
Parks and Conservation Committee	4,475
Recreation Committee	17,625
Strawberry Festival Committee	750
Zoning Board of Appeals	600
Snowmobile Bridge Fund	500
Memorial Day Services	450
Armed Services Committee	100
Public Television (WENH)	100
Civil Defense	<u>250</u>

Total: \$ 26,275

Council recommends a \$13,350 appropriation from Non-tax Revenue Account, \$2,000 appropriation from unappropriated surplus and a \$10,925 appropriation from general taxation. Total \$26,275

ARTICLE 19. To see what sum of money the Town will vote to raise and appropriate for a professional pay and job classification study of all Town job positions and the adjustment of wages and/or fringe benefits in accordance with the study.

Pay and classification study	\$ 2,500
Wage and fringe benefit adjustment fund	<u>10,000</u>

Total: \$ 12,500

Council recommends a \$12,500 appropriation from general taxation.

ARTICLE 20. To see what sum of money the Town will vote to raise and appropriate for Insurance and Retirement Benefits.

Workmen's Compensation	\$ 5,500
General Liability Policies (Fleet, Buildings, etc.)	15,540
Health & Life Insurance	6,700
Social Security and Maine State Retirement System	19,000
Unemployment Compensation	<u>4,000</u>

Total: \$ 50,740

Council recommends a \$50,740 appropriation from general taxation.

- ARTICLE 21. To see what sum of money the Town will vote to raise and appropriate for Municipal Building expenses.

Utilities, Maintenance and Supplies	\$ 12,350
--	-----------

Council recommends a \$11,750 appropriation from general taxation and a \$600 appropriation from Non-tax Revenue Account. Total: \$12,350

- ARTICLE 22. To see what sum of money the Town will vote to appropriate from Unappropriated Surplus Account to be used toward the payment of 1979 Budget Appropriations; thereby decreasing the amount of money to be raised by general taxation in 1979.

Council recommends \$40,000.

- ARTICLE 23. To see if the Town will vote to adjourn the Town Meeting.

Given under our hands in the Town of South Berwick this first day of March, 1979, A. D.

TOWN MANAGER'S REPORT

To the Honorable Town Council and
Citizens of South Berwick:

It is always an enjoyable task for me to write this Annual Report as it allows me to draw back from the daily rush of business and reflect upon the major accomplishments of the last year and future challenges. It is impossible to highlight every happening of 1979 here, but rather I will try to spotlight the most important events that made 1979 unique for your Town government.

PROGRESS REPORT

1. The Solid Waste Disposal Problem-- In 1978 a study done showed that a transfer station for removal of solid waste to a regional landfill or incinerator would be the most economical method of disposal. In 1979 the final plans for such a transfer station were drawn and delivered to the State for approval. The 1980 Annual Town Meeting is being asked to allow the Town Council to finance the construction and equipping of the transfer station. It is anticipated that waste will be transferred starting around September 1st to a regional landfill in Rochester, N.H. This system will allow the flexibility for the waste to be hauled to the least costly disposal site as time passes.

The era of low cost waste disposal has passed. We anticipate the full year disposal cost in 1981 to be approximately \$80,000. In order to keep costs down as much as possible, the Town Council is planning to have the dumpsite open three days only per week without allowing commercial haulers in on other days as is currently the practice. Also, the Town Council is planning to discuss enactment of a mandatory recycling ordinance to remove as much of the cans, glass and paper from the waste stream as possible.

2. Completion of Tax Revaluation and Remapping Programs-- In the summer public hearings were held on both the Revaluation and Remapping programs. The vast majority of property owners who turned out had their questions satisfied. The Town Council held its own hearings for those with further questions. At this time there are only two parties appealing to the County Commissioners. We want to express sincere gratitude to all property owners for their tremendous cooperation. The program's intent was to fairly value all properties in relation to market value. This goal has been reached.

3. The Town's obligations to rural roads-- In the fall, the Maine Superior Court ruled against the Town's claim that Belle Marsh Road is an abandoned road under State law. That decision was appealed to the Supreme Court because the Town Council felt that the huge potential costs of construction of the road just to good gravel road status (estimated at \$150,000 in 1977) warranted pursuing the court case.

In the very early days of 1980 a 1976 law suit brought against the Town by Maineland, Inc. came to court. It was to determine if the Bennett Road off of Witchtrot Road was a Town way when they filed a subdivision plan with the Planning Board. Maineland, Inc. dismissed its own law suit when it went to Superior Court.

During the 1980 budget sessions the Town Council placed \$4,440 in the budget to pay the costs of materials and equipment use to construct a portion of the Junction Road near Pond Road as there is a home being constructed on it. The road is not in a condition now to handle year round traffic.

The deck on the Great Hill Road Bridge has deteriorated to the point of needing replacement. The Town Council has not included the \$3,000 necessary to do that work in the 1980 budget, but rather has started an investigation into the potential costs of discontinuing the road in view of the eventual need to replace the bridge, and considering the total lack of residences along the road.

4. Citizen involvement in community services and events-- The volunteer efforts of many, many residents provided the community with such services and events as the best ever Strawberry Festival weekend, the excellent First Annual Road Race, the many successful recreation programs and the many Planning, Appeals, Library and other necessary Town functions. Government is people and South Berwick people actively demonstrate this daily.

5. Job Classification and Pay Study completed-- Considerable time and effort went into this project to give the Town Employees the benefits of fair pay for the responsibilities and authority of the Town's various jobs. The cooperation of the Town Council and citizens in this project was most gratifying.

DEPARTMENTAL OPERATIONS

The volunteers of the Fire Department were kept busy during 1979 in both actual calls totalling over 100 and in frequent training sessions held to improve their capabilities. In the fall, Fire Chief George Gorman attended a week of training in Pennsylvania regarding handling of hazardous materials. In view of recent area problems with such materials and the vast amounts of such materials passing through Town, this training is of great benefit. Although we have been fortunate enough to not experience a bad fire related to the burning of wood in homes, we are very concerned by such fires in our area. We have again run a listing of standards for installation of wood burning equipment. Don't lose lives saving energy!

The Highway Department workers spent the early summer completing the improvement of the Ogunquit Road to good gravel road status between the Emerys Bridge Road and the Bennett Lot Road. This was the conclusion of three summer's work on this road. After this road was completed a one thousand foot long portion of Emerys Bridge Road on its northerly end was replaced by a new road thereby eliminating a hazardous "S" curve. The State Department of Transportation in cooperation with the Town replaced the sharp curve on Emerys Bridge Road just north of Earls Road with a new road, also eliminating a hazardous situation. Finally, the State built to good gravel road status, about seven hundred feet of road on Bennett Lot Road near the Ogunquit Road with their Town Road Improvement Program. It all added up to a very busy year. 1979 marked Donald Boston's fifteenth year as Road Foreman. Loyalty, hardwork and cost consciousness are Don's trademarks. Congratulations and sincere thanks, Don.

The Police Department for the first time in recent years experienced no turnover in 1979. The improvements in statistics displaying in the Police Chief's comparison of work done between 1978 and 1979 shows the benefits of such stability. It is indeed a credit to the Police Chief and his personnel, as we continued a crime clearance rate of 36% for the second year in a row.

The Emergency Services Dispatch Center went from half-time to full-time in the Town Hall under the direction of the Police Chief as of May first. The Service provides one central location staffed around the clock to provide the Fire Department, Police Department and South Berwick Emergency Rescue Squad with radio and telephone communications at all times. The Service has been very well received by the community. It has been very active, handling about 8,500 calls in 1979.

In the Tax Assessment and Code Enforcement areas we lost the very capable Robert Worthley to a similar job in Scarborough, Maine. We were very fortunate to be able to get George Giddings to fill the position. George comes to us with a wealth of knowledge in the building trades and a true desire to help promote good practices in assessment and code enforcement to aid all residents.

In the Town Office area we have completed our second year as an agent for the Secretary of State to register vehicles for the Berwicks and Eliot. Approximately one hundred transactions are done in this area each week. We estimate over 5,000 gallons of gasoline was saved in 1979 by people not having to drive to the State Office in Kennebunk. When this work is added to the tax and sewer billings and various licenses, etc. issued, the counter work in 1979 exceeded 10,000 transactions.

FUTURE

In 1980 the issues of solid waste disposal and status of some of the rural roads should be settled. The pressure of development in the rural northern end of Town will be addressed by a special Agamenticus Study Committee appointed by the Town Council to look at options and their potential in preserving the area versus having it develop with scattered housing as has now started to happen. With the speedup of the timetable for large scale employment of workers at the North Berwick Pratt and Whitney facility, the impact on South Berwick, which has been the topic of much debate, should start to take shape. Possible related industrial development potential in South Berwick may well come to the forefront.

Finally, the impact of dramatically increased fuel oil, gasoline, and asphalt costs will become a topic of much discussion and action to keep the impact to the Town as minimal as possible.

CONCLUSION

There are no new words I can use to express my feeling to the Town elected and appointed officials, the Town employees and the general citizenry for all that has been done in 1979 to the benefit of the Town in general and myself in particular. Therefore, I trust that each of you will take special meaning from the simple words, THANK YOU.

Respectfully submitted,

RUDOLPH NAPLES

INDIVIDUAL COMMITMENT TO A GROUP EFFORT-- THAT IS WHAT MAKES A TEAM WORK, A COMPANY WORK, A SOCIETY WORK, A CIVILIZATION WORK.

BOARD OF ASSESSORS

1979 ANNUAL REPORT

1979 has been a very busy year in this office. While in the critical stages of the remapping and revaluation process, we lost the extremely able services of Mr. Worthley. Fortunately, the undersigned received valued assistance from Mr. Worthley and other assessors on a voluntary basis to not only learn the job, but to bring the above mentioned programs to a successful conclusion.

Although the remapping is not perfect in every area of Town, it is certainly a big improvement over what we had before. The citizens of South Berwick have been and are continuing to be a great help in delineating some of the problem areas. I feel Sewall Company did a fine job and cooperated completely in fulfilling the contract.

Cole-Layer-Trumble Company did an excellent job of revaluation all the parcels in Town as evidenced by the recently received State Sales Ratio Capitation indicating a 99% conformity to market value. Here again I cannot thank the property owners enough for their helpful cooperation in this endeavor, which has given us an equitable tax assessment program.

There has been some concern about the low tax rate suddenly rising and I can only say that a rising tax rate is caused by an increase in demands for tax dollars by either or both the school budget or community services. This increase can be kept to a minimum by active and thoughtful participation on the part of the general public when these budgets are enacted.

Respectfully submitted,

George A. Giddings
Assessors' Assistant

CODE ENFORCEMENT OFFICER

1979 ANNUAL REPORT

With another year we have still another change in personnel in this office. Hopefully, barring any catastophic errors on the part of the present office holder some continuity will accumulate to the job in the future.

Following is a general breakdown of building permits:

	1978	1979
New Residences: Single family	33	20
Multi-unit	3 (60 units)	2 (64 units)
Commercial Buildings	5	2
Mobile Home Installations	13	4
Outbuildings	17	27
Additions	33	20
Renovations	11	20
Swimming Pools	5	3
Mobile Home Removals	4	4
Plumbing permits	102	52

The number of permits was less than in 1978 for a couple of obvious reasons:

1. Last year there was a rush of permit applications prior to enactment of zoning, with work to be done at a later date.
2. This fall we experienced a severe restriction of mortgage money because of the federal reserve's policy change and the U.S. dollar faltering on the international market.

Once again this points out the fact that we are dependant not only on local circumstances but also state, national & international decisions. Given this fact, we must view our immediate personal and community projects with caution and concern.

The Zoning Ordinance has been in effect for a full year and although we are still determing its' limitations through conditional-use permits and variances it seems to be functioning as hoped. Individuals do not seem to be too severely restricted in the effort to benefit the entire community. Judging from the type of applications for variances it becomes apparent that we should consider "fine tuning" the Ordinance sometime in the future in a few areas that are less than specific.

By State Law, all changes in plumbing fixtures, either replacement or additional require a plumbing permit. This includes hot water heaters. Also, plumbing and electricial work in any property other than owner occupied single family, must be done by Maine Licensed Master Plumber or Master Electrician or under his direction.

Respectfully submitted,

George A. Giddings
Code Enforcement Officer

HIGHWAY DEPARTMENT

1979 ANNUAL REPORT

In 1979 the Highway Department work including construction of several roads, the maintenance of all town roads and snow removal kept the personnel very busy.

The early winter months of 1979 gave us the wettest weather in many years in the form of several snowstorms that turned into rainstorms before they ended. There were no "memorable" storms during this period as in the '77-'78 winter, but rather a series of "normal" storms.

In the spring after repairs to winter-damaged roads were completed, we continued on with the construction of the Ogunquit Road. The project of building the road between its intersections with Emerys Bridge Road and Bennett Lot Road was completed in early summer. It took three summers work at a total cost of over \$50,000 to build this 3,800 feet of gravel road.

After the Ogunquit Road project was completed, we moved on to Emerys Bridge Road and built a new 1,000 foot long gravel road in order to eliminate a dangerous "S" curve at the point where the pavement ends. This construction cost about \$15,000. It has made a dramatic improvement in safety along Emerys Bridge Road.

The State Department of Transportation completed a special State Aid project on Emerys Bridge Road and a Town Road Improvement project on the Bennett Lot Road during 1979. The Emerys Bridge Road project was a joint venture with the town supplying about \$5,000 and the State and Federal Governments contributing about \$40,000. The sharp curve on Emerys Bridge Road just north of Earls Road was replaced by a new hottop road of about 1,000 feet in length with a much wider surface and more gradual curve. The Bennett Lot Road project included construction of about 600 feet of gravel road at a cost to the State of about \$8,000.

We have included cost figures and road lengths above to indicate the tremendous expense today in road construction. At the end of 1979, the State was considering eliminating the Town Road Improvement monies and cutting back on State Aid monies as their revenues are falling off. This could have a dramatic impact on South Berwick as there still are several miles of unbuilt dirt roads in Town and also, as the Town has been trying to get State Aid to build a new bridge to replace the deteriorating Hooper Sands Road Bridge. The cost of a new bridge was estimated at over \$400,000 by the State in early 1979.

In addition to the above major projects, minor projects included: approximately three miles of tar roads were sealcoated, many dead Elm trees were cut, several hundred tons of tar patch was spread with the road grader to repair worn and broken areas in tar roads, the dumpsite was covered periodically and two hundred and fifty loads of sand was hauled from Wells for winter use.

Highway Department (Continued)

The month of December started off a very unusual winter of almost no early snows.

At this point in this annual report, we usually look ahead at the road construction projects planned for the next few years. However, due to skyrocketing costs for vehicle fuel (up 66%), asphalt (up 33%) and everything else we use in road building and the faltering economy, the Town Council has decided to suspend to continuing construction program of existing unbuilt dirt roads and only do more minor maintenance for the year 1980. We trust 1980 will see a turnaround in the economic and world events that have hit you and the Town so hard in 1979.

In the equipment area, a 1971 dumptruck was replaced by a new diesel truck which gets about one-third better fuel economy than gas powered trucks.

Finally, in the interests of saving your tax dollars, we repeat our message of last year regarding snowstorms. During a snowstorm, please keep vehicles and other obstructions off the roadways and do not plow snow into the road and leave it there. By doing these simple things, roads do not have to be plowed over and over again, and also the potential for damaging Town snowplows on frozen, hardpacked snow is greatly lessened. These acts of cooperation by you will save tax dollars.

During 1979, we received cooperation and aid from hundreds of townspeople, the Town Council and the other Town departments. We gratefully acknowledge those acts of kindness.

Respectfully submitted,

Rudolph Naples
Road Commissioner

Donald Boston
Road Foreman

PARKS AND CONSERVATION COMMITTEE

1979 ANNUAL REPORT

Municipal Shade Tree Planting Program - Four trees were planted under the shade tree planting program this year. The State again this year reduced the amount of support it paid towns for the tree planting. The program evidently has been a success because of the sharply reduced number of residents requesting trees. In future years the Committee will attempt to replace those trees lost due to age or storm damage.

Town Forest Management - A suitable seasonal road was constructed into the town forest this year which will make the forest more accessible to the residents. Members have continued to blaze the boundaries in an effort to clearly define the boundaries of the forest. Several trips were made into the forest and observations are being made on the natural reforestation taking place on the large burned over area in the center.

Town Roadside Clean-up - The annual town clean-up was held on May 5th. The citizen participation was very discouraging (4 people) to the Committee in their continuing efforts to improve the quality of life for residents in South Berwick.

Annual River Clean-up - April 22nd, a large number of canoeists assembled for the annual trip down the Great Works River to remove the blockages from winter storms. Much work was done and everyone had a great time. Residents should plan to attend the event again this year. Call the Committee in April to find out the date.

Conservation Camp - This year three students were sent to Summer Conservation Camp at Bryant Pond. Debbie Mushorn, Rita Stone, and David Smith attended Camp and reported that it was a great educational experience.

We hope that citizens will make themselves known to us and the Council if they would like to serve on the Parks and Conservation Committee, as a regular or as an associate member.

The Committee meets the first and third Wednesdays of the month at 7:00 P.M. in the Municipal Office Building. All interested persons are invited to attend.

Respectfully submitted,

Richard W. Merrill, Chairman

THE PLANNING BOARD

1979 ANNUAL REPORT

The Planning Board has been quite active this year, holding twenty-seven regular and special meetings, two public hearings and over fifteen workshops. Most of the regular meetings were relative to subdivisions, three of which were approved and four are in various stages of processing. Two of these are small, the third is for thirty-four units and the fourth is for approximately one hundred fifty-six units. Besides our regular meetings there have been several informational meetings with other Boards relative to problems that affect the Town.

One very important step, up-dating the Comprehensive Plan, in conjunction with the Southern Maine Regional Planning Commission and Town Officials has been completed and should be available within a few weeks. The Plan presents guidelines to follow to help keep up with the changing times.

We want to thank the people who attended our meetings and hope more will attend this coming year. Your Planning Board appreciates your support in the past and sincerely hopes that you will continue to help guide us in the future.

We also wish to thank our Code Enforcement Officer, Town Manager and Town Attorney for all the time and consideration given us.

Respectfully submitted,

Clifford Blaisdell
Robert Howarth
Leonard Langer
Leslie Pitman
Arthur Stansfield
Owen Stevens, D.V.M.
Harland Goodwin, Chairman

RECREATION COMMITTEE

1979 ANNUAL REPORT

During the year the Recreation Committee took on two major changes. The first being "The First Annual Road Race." This was run in conjunction with the "South Berwick Broiler Day." The second change was the formation of "The Friends of Powder House Hill."

We started the '79 season off with Co-Ed Basketball in which 80 children participated. The Ice Arena was open evenings and weekends to the public and was greatly received. We sponsored two trips during the winter months. One trip was to the Ice Capades in Portland and the other was to a Celtics game in Boston.

Tennis lessons were offered to the adults in the spring.

We then went into our summer program under the direction of Sue deMoya. This program consisted of swimming, tennis, gymnastics, arts & crafts and several day trips to the mountains and lakes. A week of over night trips was also on our program. The summer program was then highlighted by the "First Annual Road Race" with 85 runners participating. The program was then topped off with "South Berwick Day at Fenway Park".

Due to the resignation of our recreation director, the Recreation Committee has assumed the responsibilities for the fall and winter programs with the idea of hiring a part-time director for the summer program.

With school opening in the fall we sponsored dances once a month at the Civic Center for students in grades 5-12. The Halloween program was a "Howling" success with 250 children participating.

The Friends of Powder House Hill was formed with great enthusiasm. They were formed to work with the Recreation Committee to set up and operate Powder House Hill.

The 1979-80 Basketball League was opened in December with again 80 children participating in the program.

The 1979 Recreation program had another successful year, but as always with your support and input we are looking forward to another great year. We would like to take this opportunity to thank all those who volunteered their time and efforts in making this program so worthwhile to the youth of our Town.

Respectfully submitted,

Bonnie Cabe, Chairman
Rick Hersom
Jerry Desilets
Bob Lothrop
Beverly Demers

SOCIAL SERVICES
1979 ANNUAL REPORT

1979 was a year of many problems for those on low and fixed incomes as inflation and skyrocketing oil costs severely cut their ability to survive. However, at least in the oil area, the mild weather of the early '79-'80 winter and the assistance of the State and Federal Government aided greatly in people being able to get along. In our own program, these aids helped much to being able to meet peoples' basic needs.

Transportation for the elderly and needy to their appointments held top priority for the year. In September the respective churches offered their services in helping to transport the elderly to the congregate meal site in Berwick Tuesdays and Thursdays which was a tremendous help to me as I was able to donate my time to paperwork plus the long distance trips. I always hesitate to ask anyone to do these trips as they are sometimes very time consuming and costly. York County Community Action Program transports elderly persons on Mondays for shopping that they might need to do. Anyone desiring transportation on Monday should call the CAP Agency on Friday, toll-free, 1-800-442-6345. Please remember to call as this is the only way they will know of your needs.

In March the Mayme Grant House was officially dedicated. There are twenty-two apartments for our senior citizens and disabled who fit into the income guidelines. The facilities are lovely. I hope that many of you have visited or will visit so you can see what a lovely home the residents have.

In September with permission from the York-Cumberland Housing Association, the recreation room was made a public room to be used by the citizens of South Berwick. The recreation room was dedicated to Sally Gaudreault for the wonderful work she did in getting the housing project started. The recreation room is now called "The Sally Gaudreault Drop-in-Center". Please feel free to call the President, Mrs. Edna Ainsworth, 384-2825, if you would like to rent the room for functions, meetings, etc. Also, if you would like to place items on the bulletin board, please call her.

In December I spent the better part of a day at Maine Medical Center Dialysis unit. The need for transportation to this site is most needed as almost everyone on dialysis machines have to go to Portland three times a week, this being our nearest facility. At this time there is about 12 people in our immediate area that need dialysis and transportation. Please call the Town Office, 384-2263, if you feel that you would be able to volunteer your services to any of our many needs.

Respectfully submitted,

Jeannine M. Pontbriand
Social Worker

SOUTH BERWICK EMERGENCY AMBULANCE AND RESCUE, INC.

1979 ANNUAL REPORT

In 1979 the South Berwick Emergency Rescue Squad answered a total of 223 emergency calls:

122 Acute Medical	5 Industrial Accidents
31 Home Accidents	4 D.O.A.
23 Heart Attacks	2 Overdose
38 Auto/motorcycle Accidents	

Note the continued high number of home accidents.

This year saw the succession of Robert Parent as Chief terminating five progressive years under the leadership of Clint Schoff. The Squad is now dispatched full time from the South Berwick Dispatch Center. Mrs. Ethel Schindler is retired after 19 years of dedicated dispatching for us. Fall saw the last loan for the new ambulance taken care of through the generosity of the South Berwick Board of Trade who made their loan a gift.

The medical building has not been forgotten. The most important goal of the project was realized when Dr. Paul T. Berry (of the Wentworth Professional Association) started practice three days per week from the office of Dr. John J. Murphy. As the needs grow the medical project will also grow.

The Squad personnel themselves have been very busy. In addition to each person's duty one night per week and two weekend days per month, we have been enrolled in E.M.T.-A courses, E.M.T.-A refresher courses, and participated in local professional organizations. The Squad provided coverage for all Marshwood home football games, taught C.P.R. to the S.A.D. #35 sixth graders, and maintained our vehicles, equipment and station in top condition. We welcomed new members: Charlene Lawson, Joyce Lewis and Robert Starratt (Rollinsford) to the regular ranks while Jeff Davis and Dan Gagne' joined our junior training program. Four Squad personnel resigned. The S.B.E.R. will always welcome interested individuals who feel they have time to volunteer their services to their community.

As the S.B.E.R. prepares to celebrate its 20th anniversary this spring as a volunteer emergency service, we face the 80's with optimism, as well we should. With your continued support and dedicated volunteers, South Berwick can watch surrounding towns struggle to provide comparable services, which we will continue to provide. What the 80's actually hold, no one knows. Important decisions face all volunteer organizations.

South Berwick Rescue Squad (Continued)

When calling in an emergency please:

1. Stay calm!
2. Give your name.
3. State nature of the emergency.
4. Give a good concise location. (A familiar landmark is very helpful.)

If you are not now on our annual membership mailing list, please contact the South Berwick Emergency Rescue Squad by mail with the following information:

Name: _____
Street: _____
Town: _____
Telephone: _____

SOUTH BERWICK FIRE DEPARTMENT

1979 ANNUAL REPORT

Woods, grass and rubbish fires	16
Chimney fires	5
Structure fires	5
Accidents and vehicle fires	22
Dump fires	6
Furnace and stove fires	3
Electrical fires	4
False alarms	7
Out of town calls	16
Other calls	6
Still alarms	13
Total	<u>103</u>

Fire permits issued	150
Fire damage	\$38,120

Hose used at fires

1½"	2½"	3"	4"
6,600'	1,900'	700'	1,600'

Because of the increased use of wood for heat, I have again published the State requirements for the installation of wood burning equipment. Anyone who has installed a wood burning unit should read these recommendations and make sure that their wood burning unit complies with these recommendations. By using these recommendations, you can help save your home from a fire and protect the lives of your family. Listed below are some of the reasons for fires involving wood and wood burning units:

Metal cover over an old fire connection; wood paneling over the metal cover; chimney fire transfers heat through the metal and into the wood paneling; room on fire. All old flue openings in a chimney must be bricked up.

Wood on fire behind a brick wall; stove transfers heat through the brick wall to the wood wall. There should be one inch clearance between the brick and the wood for air circulation.

Floor on fire; Not enough clearance between the stove and the wood floor. See State recommendations.

South Berwick Fire Department (Continued)

Wall or floor on fire around the smoke pipe or chimney; Not enough clearance. See State recommendations.

Hot ashes into a plastic pail; set pail on fire.

Hot ashes into a metal pail then set on a wood floor; burned through the floor.

Ashes empties into a trash can; Trash man empties the trash can; trash truck on fire.

Ashes dumped on the grass; grass fire.

Log taken out of a fire and placed on a wood floor; burned through the floor.

Hot ashes dumped at the town dump; dump fire.

Ashes will stay how for two or three days after being removed from a stove. Ashes should be placed in a metal container and covered with a metal cover if possible. Pail should be set on a concrete or dirt floor or outside the building. Never put water on a pail of hot ashes. You could receive a bad steam burn.

All homes should have a smoke detector and fire extinguisher!

If you need anymore information, call the Fire Station at 384-2731.

Respectfully submitted,

George Gorman
Fire Chief

INSPECTION CHECK LIST FOR
SOLID FUEL BURNING FREE STANDING STOVES OR RANGES

1. Is the appliance listed for this type of installation?
2. If the stove is a listed appliance, is it installed according to its listing?
3. Is the stove in good condition?
4. Is the smoke collar tight and screwed, rivited or welded in its place?
5. Is the operating and installation manual available for the homeowner?
6. Is the stove located so that it will not block any exits, doors or passageways?
7. Is the stove located so that children may not readily come in contact with the appliance when it is hot?
8. Are the proper tools readily available for the operation of the stove, such as poker, shovel and ash bucket with metal cover?
9. Do not use flammable liquids to light the stove.
10. Are there smoke or heat detectors protecting this dwelling?

CLEARANCES: RADIANT TYPE STOVE

1. Are the clearances from combustibles 36" from the sides and rear of the stove, and 36" in front? (If the answer is no, then the combustibles must be protected.)
2. If the clearance is 18" to a combustible, is the combustible protected with no less than $\frac{1}{4}$ " asbestos millboard, spaced out one inch from the combustible and one inch from the floor so that air will circulate between the protection and the combustible?
3. If the legs of the stove are 18" or more, is the floor protected with sheet metal no less than 24 gauge?
4. Does the floor protection extend no less than 6" beyond the sides and rear of the stove and no less than 18" in the front? (Note: These distances are minimum and 18" all the way around is better.)
5. If the length of the legs of the stove are from 6 to 18", is the combustible floor protected with no less than 24 gauge sheet metal over $\frac{1}{4}$ " asbestos millboard?
6. If the legs of the stove are 6" or less, is the combustible floor protected by using 4 inch hollow masonry laid to provide air circulation through the masonry layer covered by a sheet of not less than 24 gauge sheet metal? (Note: brick, stone and asbestos cement board DO NOT protect combustibles.)
7. Are any fabrics close to the appliance? (Drying clothes on the appliance is not permissible.)

CHIMNEY CHECK LIST FOR STOVE INSTALLATIONS

1. Does the chimney extend at least 3 feet through the roof and 2 feet higher than anything within ten feet from it?
2. Does the top of the chimney appear in good repair?
3. Is there a cleanout located at the base of a masonry or a cleanout tee located at the bottom of a factory built chimney?

4. Is there a lining in the masonry chimney of the 5/8" fire clay type?
5. Is there a minimum of 2" clearance from the masonry and factory built chimney from combustible materials all the way up through the dwelling?
6. Does the chimney appear tight in construction for its entire length?
7. A chimney should be inspected every six months or at least once a year.
8. Is the chimney on the inside of the dwelling? (Note: A chimney on the outside produces low draft and may create problems smoking up the home when using solid fuel.)
9. Does the chimney produce the proper draft required by the appliance?
10. Burning wood slowly creates serious soot and creosote problems.
11. If a chimney fire occurs, shut off all air supplies to the chimney.
12. Is there a fire clay or metal thimble at the opening for the connection of the appliance?
13. Is there evidence of more than one natural draft burner on a flue?
14. Is there any reduction in flue area size from the appliance to the top of the chimney? (Note: The smoke pipe collar on the appliance is designed for the output rating of the appliance and this shall never be reduced.)
15. Are all old openings where connector holes have been sealed, sealed with brick and mortar, the same thickness as the existing walls of the chimney?
16. Is the chimney 4 inches thick (if made of brick) and 12 inches thick (if made of rough stone masonry)?

CHECK LIST FOR CHIMNEY CONNECTORS

1. Is the smoke pipe reduced in size smaller than the appliance connector?
2. Is the smoke pipe 24 gauge or heavier?
3. Is the smoke pipe pitched up from the appliance to the chimney connector at least $\frac{1}{4}$ " to the foot?
4. Is the smoke pipe as short a run as possible?
5. Does the smoke pipe pan through any floor or ceiling?
6. If the smoke pipe pans through any wall or partition, is it properly protected with ventilated thimble or cut away to provide the proper clearance of 3 times the smoke pipe diameter?
7. Clearance above smoke pipe should be no less than 18 inches.
8. For proper burning, wood should be cut and dried for one year before burning.
9. All homes in South Berwick should have a smoke detector.

SOUTH BERWICK HEALTH COUNCIL

1979 ANNUAL REPORT

The South Berwick Health Council feels we have had another successful year in contributing to the health of its' fellow townspeople. We continue to work with the York County Health Services in proving Well Child Clinics monthly and adult clinics bi-annually. The council is also assisting the school nurse in health screening programs and yearly fluoride treatments for the children in grades K-6.

All of us encourage new membership at any time. If interested in being a member please contact Cheryl Goodwin, 384-5653, or Jan Klebaur at 384-4041

Respectfully submitted,

The South Berwick Health
Council

SOUTH BERWICK POLICE DEPARTMENT

1979 ANNUAL REPORT

Your Police Department had a busy year in 1979. The Department currently consists of the following Officers: Clifford Parkinson, Frank Waters, Jeffrey Daigneault, and Dana Lajoie.

The number of motor vehicle accidents this year increased slightly over last year. 1979 showed 137 motor vehicle accidents which resulted in \$122,066 worth of property damage, while in 1978 there were 126 accidents with property damage at \$105,883. We had no motor vehicle fatalities in 1979. We were very aggressive in traffic enforcement during the year and will continue in 1980.

In training for 1979, Officer Clifford Parkinson completed the Basic Police School at the Maine Criminal Justice Academy. Officer Frank Waters is attending at this time. Officer Dana Lajoie attended a class in Service Photography. I attended a seminar in Stress Management sponsored by the Maine Chiefs of Police Association.

Crime decreased in 1979. Burglaries dropped from 58 in 1978 to 28 in 1979. Larceny dropped from 47 offenses in 1978 to 43 in 1979. We attribute this partly to increased patrol and our high rate during the past two years of crimes solved.

The State Department of Public Safety statistics show that the South Berwick Police Department had a clearance rate of 36.25%. This is the second year in a row that we showed to be near the top of the list for crime clearance in York County. The overall State of Maine clearance of crimes is running approximately 26% for 1979.

The Department continued it's Public Service Programs of Defensive Driving Courses, Bicycle Registration and Business and Security checks. We also gave tours to some elementary school classes and talked to them about police officers and their duties.

Listed below are some various statistics of the Department:

	1979	1978
Complaints answered - 2,046		
Warnings issued	657	354
Defects issued	404	316
Arrests and Summons issued	861	546
License violations and operating after suspension	58	80
Speeding	373	216
Unregistered and illegal attachment of plates	36	21
Uninspected and unsafe vehicles	83	48
Driving to endanger	13	5
Operating under influence	63	48
Reckless conduct	6	1
Criminal mischief	11	0
Exhaust and noise violation	19	2

South Berwick Police Department (Continued)

Hitchhiking after dark	5	4
Failure to stop for officer	5	4
Obstructing government administration	7	0
Burning without permit	2	0
Dog unlicensed and running at large	9	12
Keeping auto junk yard	2	0
Impeding emergency vehicle	1	0
Stop sign violation	29	7
Passing and line violation	18	3
Failure to sign traffic ticket	9	0
Burglary	10	27
Theft	6	8
Concealment of dangerous weapon	1	1
Arson	2	0
Negotiating worthless instrument	2	0
Juvenile arrest and summons	72	

The South Berwick Police Department appreciates the assistance given us in 1979 by area police departments, the Maine State Police, the South Berwick Fire Department, the South Berwick Rescue Squad, the Council, the Town Manager, and the Citizens of South Berwick for helping us to be more effective in our duties.

We urge all citizens to watch your neighborhood for suspicious activity. If you do see something suspicious, call us immediately. Do not try to investigate the matter yourself. You never know what type of individual you are dealing with and your safety could be jeopardized.

If a crime does occur, do not disturb the crime scene unless absolutely necessary. You may destroy valuable evidence. Leave everything where it is and call us immediately. Thank you for your cooperation.

Respectfully submitted,

Timothy A. Berry
Chief of Police

SOUTH BERWICK PUBLIC LIBRARY

1979 ANNUAL REPORT

The Library continued its efforts to serve the people of South Berwick during 1979. A number of projects made the year interesting, and we hope productive.

1979 saw the completion of the Library's most successful fund raising venture. During 1977 the Friends of the Library created, prepared and printed approximately 900 copies of a cookbook, The Cook's Tour of South Berwick. The last copy of the book was sold in December of 1979. After deducting expenses, the "Friends" made a profit for the Library of almost \$2,000.00. Of that money \$800.00 was spent during 1978 for the Library's share of painting the building.

The Library Board is currently working on a questionnaire that will be used to survey the Town's thoughts about the Library. We hope to help define our strengths and weaknesses in such areas as book selection, hours to be open, use of the Library building for small meetings, etc. This survey should be conducted and completed during the 1980 winter months. Depending on the results of the survey, the Library might be open on Saturday afternoons.

In an attempt to raise funds for the Library and to help integrate the Library as a part of Town life, the Library sponsored a "Mark Twain" night on March 3, 1979. Paul Haggard gave an outstanding portrayal of Mark Twain that was well received and appreciated. The Trustees of Berwick Academy kindly made their lovely Commons building available for the night.

As part of the Historical Society's summer "House Tour" the Library made its large front room available for a showing of the movie version of Sarah Orne Jewett's White Heron. It is of interest to note that the actress who portrayed "Aunt Tilly" was in attendance and the film was shown nine times, instead of the scheduled four, to standing room only groups. The help of the Librarian and her very capable assistant were greatly appreciated.

Several projects were undertaken during the year to help maintain and heighten children's interest in the Library. These included painting and decorating the children's "Winnie the Pooh" room and sponsoring a ten week children's craft program. The children's craft program was very successful and a second ten week series will be starting on January 9, 1980 with approximately 17 children. This program is conducted by a volunteer.

In last year's report we mentioned a program the Library started which involved grammar school children serving as Library aides. The program continues to be successful and there are presently 14 children serving as volunteer aides. We hope that the children and their parents realize what an excellent job they are doing. This unique program should be appearing in a 1980 quarterly issue of the Maine State Library "Down East Libraries."

South Berwick Public Library (continued)

During 1980 the Library hopes to expand its services to the Town. Among other goals is the accumulation of major "classics" to serve as a foundation for the Library's collection of approximately 6,000 volumes. We also plan to renovate a back room as a more attractive storage area for part of our collection.

A young children's story hour will be started as soon as ten new childrens books with accompanying tape cassetts are received.

We remain grateful for the use of our buildings, which is owned by the Society for the Preservation of New England Antiquities. We are in our second full year of a three year lease with the Society. The nominal rent is paid through the fund raising activities of the Friends of the Library.

As we start 1980 we renew a call for volunteers to assist in running the Library. Our present volunteers are of tremendous value and we would be lost without them. However, additional volunteers are always needed. As always the dedicated efforts of our Librarian, Kitty Davis are greatly appreciated.

STRAWBERRY FESTIVAL COMMITTEE

1979 ANNUAL REPORT

The organization of the Strawberry Festival changed this year. A general chairman was appointed by the Town Council. Each event had it's own chairman.

Evening of Music	-	Wesley Kennedy
Craft Day	-	Donna Erickson
Family Day	-	Gerald Desilets

Alas and alack it rained again on Sunday. But the Family Day Committee scrambled to recoup most of the monies spent on refreshments. This Committee is to be admired and commended for their brilliant planning (too bad they don't have control of the weather) perserverence, diligence and resourcefulness.

The Craft Day Committee is the backbone of the Strawberry Festival. (They draw the crowds to our fair community and make the money to support the other events). This Committee works long and hard (beginning in January and culminating on the last Saturday in June [with tired feet and aching bones]). They provide us with a Craft Fair and scads of "entertainment."

The Evening of Music is a joy to experience. The setting, (thanks to the Society for the Preservation of New England Antiquities) of the Hamilton House and the delights the Community Chorus under the direction of Diane Dean blend to provide an enjoyable evening.

Respectfully submitted,

Martha L. Peterson

REPORT OF THE TOWN CLERK

The following is a breakdown of the various licenses issued and vital statistics recorded for the year:

Deaths recorded	7*
Births recorded	7*
Marriages recorded	57
Dog licenses issued	385
Fishing & Hunting licenses issued	809
Pheasant Stamps sold	26

* This does not reflect a true accounting as a majority of these events occurs out-of-town.

Respectfully submitted,

BEATRICE W. NUTTER
Town Clerk

ZONING BOARD OF APPEALS

1979 ANNUAL REPORT

As anticipated in last year's report the activities of the Board have progressively increased during the year 1979.

The make-up of the Board has changed over the year with the regrettable resignations of Mr. Norman Page and Mr. Ronald Gimpel. However, the addition of Mr. Michael Weston, Mr. Wilfred Parent, Mr. Kenneth Main and Mr. Edwin Parsons has brought the Board up to full quota and added a much desired level of expertise.

The Board has developed a consistent and comprehensive method of dealing with both administrative and variance appeals keeping in mind the individual needs and the community's best interest.

In reviewing the various appeals that have come before the Board, two facts become apparent. First: The Zoning Ordinance is broad enough in scope to cover most situations. Second: That a few specific areas may need some adjustment in order to make them more compatible with the general intent of sound community planning.

Respectfully submitted,

Troy Kaichen, Chairman

JOHN F. DYER

Town Council
Town of South Berwick, Maine

I have examined the financial statements of the various funds and the general long-term debt account group of the Town of South Berwick, Maine for the year ended December 31, 1979. My examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

The Town has not maintained a record of its general fixed assets and, accordingly, a statement of general fixed assets required by generally accepted accounting principles is not included in the financial report.

In my opinion, the financial statements present fairly the financial position of such funds and the general long-term debt account group of the Town of South Berwick, Maine at December 31, 1979 and the results of operations of such funds for the year then ended in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

The accompanying supplemental data, presented in Schedules 1 and 2 are not necessary for a fair presentation of the financial statements, but are presented as additional analytical data. This information has been subjected to the tests and other auditing procedures applied in the examination of the financial statements mentioned above and, in my opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

TOWN OF SOUTH BERWICK, MAINE

NOTES TO FINANCIAL STATEMENTS

December 31, 1979

1. Summary of significant accounting policies

The accounting policies of the Town of South Berwick, Maine conform to generally accepted governmental accounting policies except for the omission of general fixed assets and the use of the cash basis to record expenditures (see Note 2).

Basis of accounting

The accounts of the Capital Projects, Capital Reserve and Trust Funds are maintained and reported on the accrual basis. The General Fund is maintained and reported on the modified accrual basis except for General Fund expenditures which are recorded when paid.

Under the modified accrual basis of accounting, revenues are recorded when received in cash except when they are both measureable and available as resources that can be appropriated. Expenditures, except for interest on general long-term debt which is recorded when it becomes due, are recorded when goods or services are received and actual liabilities are incurred.

Budgetary accounting

General governmental revenues and expenditures are accounted for in the General Fund and are controlled by a budgetary accounting system in accordance with legal requirements.

Trust Funds

Restricted funds for which the Town has a fiduciary responsibility are accounted for in the Trust Funds.

TOWN OF SOUTH BERWICK, MAINE

NOTES TO FINANCIAL STATEMENTS

December 31, 1979

1. Summary of significant accounting policies (cont'd)

Obligations

General obligation notes supported by general revenue are obligations of the Town as a whole and not its individual constituent funds. Accordingly, unmatured obligations are accounted for in the long-term debt account group.

Investments

Trust Fund investments are stated at cost.

2. Unrecorded liabilities

Had the Town utilized the modified accrual basis of accounting which requires that known liabilities be recorded, expenditures would have decreased by \$45 for the year ending December 31, 1979.

TOWN OF SOUTH BERWICK, MAINE
NOTES TO FINANCIAL STATEMENTS
December 31, 1979

3. Capital improvement and equipment notes payable

A summary of outstanding notes payable at December 31, 1979 is as follows:

				<u>\$195,671</u>	<u>\$231,142</u>

TOWN OF SOUTH BERWICK, MAINE

NOTES TO FINANCIAL STATEMENTS

December 31, 1979

4. Pension expense

All full-time permanent employees of the Town are covered by participation in the Maine State Retirement System. Pension costs to the Town are actuarially determined by the State. Under the terms of the plan selected by the Town there are no prior service costs. The actuarially computed value of vested benefits to the Town's participants has not been determined. The Town's policy is to fund pension cost accrued.

Total pension expense of the General Fund amounted to \$6,672 in 1979.

5. Building fund

The assets of this fund consist of the purchase price of the municipal building acquired in 1974 and related renovations.

South Berwick Sewer District

South Berwick, Maine

I, as Treasurer, would like to thank the Town of South Berwick, who for the last fifteen years has made it possible for the South Berwick Sewer District to help keep its rates low. Any monies which we have saved will benefit the Town in the near future. The Town has a legal obligation to assist in the cost of upgrading our treatment plant to meet today's federal requirements and as my report of the financial status for the South Berwick Sewer District for the period ending 12/31/79, I submit the statement of our auditors, Riel and Burleigh, Certified Public Accountants, of Rochester, N. H.

South Berwick, Maine 03908

To the Board of Directors:

We have examined the balance sheet of the South Berwick Sewer District as of December 31, 1979, and the related statements of income and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying balance sheet and statements of income and changes in financial position present fairly the financial position of the South Berwick Sewer District at December 31, 1979, and the results of its operation for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTE 3 -

The Sewer District is currently working with the State of Maine Department of Environmental Protection and their engineers on plans for upgrading the treatment plant to meet the requirements of the E.P.A. Phase I of this project has been contracted at a cost of \$47,700., of which 90% will be funded by state and federal grants.

Phase II of the project will be replacement of the current treatment plant. Estimates are that this will cost well in excess of \$1,000,000., with 90% of the funding available through state and federal grants. At this same time, new interceptor lines will be installed to service the Junior High School and the lower Academy Street area. This project may also require the installation of a pumping station. Estimates of the cost are in excess of \$1,000,000. with no state or federal grants being available.

REPORT OF THE SOUTH BERWICK WATER DISTRICT

In compliance with the rulings of the Public Utilities Commission of Maine, the Trustees of the South Berwick Water District submit the following report which covers the year ending December 31, 1979.

This year the Trustees have worked closely with Linenthal Eisenberg Anderson, Inc., Engineers, to prepare a Water District Distribution Study and we hope to have the conclusions and recommendations in early 1980.

We have also added a new well at the Blackmore area which will help supply any expansion in our area.

Accountants' Report

Board of Trustees
South Berwick Water District
South Berwick, Maine

We have examined the balance sheet of South Berwick Water District at December 31, 1979 and 1978 and the related statements of income (loss) and retained earnings (deficit) and changes in financial position for the years then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the aforementioned financial statements present fairly the financial position of South Berwick Water District at December 31, 1979 and 1978 and the results of its operations and the changes in its financial position for the years then ended, in conformity with generally accepted accounting principles applied on a consistent basis.

SOUTH BERWICK WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1979

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Regulation:

The Company is subject to the regulatory authority of the Public Utilities Commission of the State of Maine as to financial reporting and other matters.

Property, Plant and Equipment:

Utility property is stated at cost and depreciated on the straight line method at rates varying from 1% to 15%. Water property retirements are charged in total to the accumulated depreciation account when they occur.

Material and Supplies:

Inventories of materials and supplies are stated at cost.

Unamortized Debt Discount and Expense:

Cost incurred to issue long-term debt together with discounts allowed at the time of issue are amortized on a straight line basis over the term of the debt.

NOTE 2 - INVESTMENTS:

Bond Sinking Fund:

Custody of the sinking fund assets is maintained by the trustees of the District. A statement of the bond sinking fund's financial condition is contained in Schedule A-1.

\$60,885.

Savings Account:

As part of a loan agreement dated September 20, 1979, with the Farmers Home Administration, the District agreed to maintain a reserve account in the amount of \$320. per year until \$3,205. is reached. As of December 31, 1979, a savings account had been established for this purpose and had a balance of \$10.

10.
\$60,895.

SOUTH BERWICK WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
DECEMBER 31, 1979

NOTE 3 - OTHER DEFERRED CHARGES:

Other deferred charges consist of the following:

Cost incurred in connection with proposed filing with the M.P.U.C. for a rate adjustment.	\$ 710.
Expenditures in connection with water distribution study by District engineers.	14,516.
	<u>\$15,226.</u>

Upon completion of these projects, the costs will be allocated to appropriate asset accounts and charged to income over their respective useful lives.

NOTE 4 - LONG-TERM DEBT:

First Issue Bonds - 4 1/4% - Issued on October 1, 1960 and maturing on October 1, 1980. A minimum of one percent (1%) of the outstanding balance is appropriated from income each year and added to a sinking fund to retire the bonds. \$190,000.

Second Issue Bonds - 4 1/2% - Issued on June 1, 1961 and maturing as follows:

40 on the 15th day of June 1980	\$40,000.	
30 on the 15th day of June 1981	<u>30,000.</u>	70,000.

Farmers Home Administration - Water Bonds - 5% - Issued on September 20, 1979 and maturing as follows:

\$500. on the 20th day of September 1980 - 1989	\$ 5,000.	
\$1,000. on the 20th day of September 1990 - 1999	10,000.	
\$1,500. on the 20th day of September 2000 - 2009	15,000.	
\$2,500. on the 20th day of September 2010 - 2019	<u>25,000.</u>	55,000.
		\$315,000.
		230,500.
Less: Current Portion (See Note 5)		<u>\$ 84,500.</u>

SOUTH BERWICK WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
DECEMBER 31, 1979

NOTE 5 - OTHER INFORMATION:

During 1979 the District contracted with engineers to make a water distribution study of the District's system. Early in 1980 it is expected that the engineers will have completed their study which the District anticipates will indicate a need for major improvements to the District's system.

Should the District vote to make the improvements, application will be made for long-term financing for the projects along with additional financing to retire the bond issues maturing in 1980 and 1981, and to repay the short-term bank debt.

Should the District decide not to make the improvements, long-term financing will be sought to retire the bond issues maturing in 1980 and 1981 and to repay the short-term bank debt.

In order to correct the deficit position and to implement the above proposed projects and refinancing, the District will be applying to the Maine Public Utilities Commission for new rates in early 1981.

ANNUAL REPORT - "VAUGHAN FUND"

To: Clayton Estabrooke, Chairman of the Trustees, the Trustees,
and the residents of South Berwick.

The Vaughan Fund in 1979, as in prior years, provided partial funding of the Municipal Recreation Program and of the South Berwick Public Library.

The income realized by the Fund during 1979 was \$6,519.32 provided by dividends and interest from securities held by this Fund. \$779.36 of this income was in the form of additional shares of certain stocks rather than cash and was therefore not available for disbursement.

The 1979 operating expenses were \$646.97.

The Fund, by vote of the Trustees and with the approval of the 1979 Town Meeting, granted \$4,500 for the support of the South Berwick Municipal Recreation Program and \$400.00 for the support of the South Berwick Public Library.

An opportunity to realize a capital gain of approximately 53% on C.I.T. common stock was taken and the proceeds were reinvested in a certificate of deposit paying 9.85% compared to the 7% yield obtained from the C.I.T. holdings in 1979. This will result in approximately \$300.00 more income in 1980 that will be available for disbursement.

The 1980 operating expense will be reduced approximately \$300.00 by omitting a C.P.A. audit of the Fund's 1979 records. The statutory requirement of a C.P.A. audit every three years will of course be complied with. The 1979 financial records of the Fund will be examined for accuracy and correctness of detail by Town Manager Naples and Chairman Estabrooke.

The added income in 1980 resulting from the reinvestment of the proceeds of the C.I.T. stock sale and the omission of the C.P.A. audit will provide approximately \$600.00 more income that can be used to support the Fund objectives.

Respectfully submitted,

Robert Brackett
Secretary-Treasurer

For the Town Council of South
Berwick, Successor Trustee
u/w/o Elizabeth R. Vaughan

TOWN OF SOUTH BERWICK, MAINE

WARRANT

State of Maine
County of York, ss.

To Timothy A. Berry, Constable of South Berwick, in the County of York, State of Maine.

GREETINGS:

In the name of the Town of South Berwick you are required to notify the inhabitants of said Town qualified to vote in Town affairs to assemble at the Civic Center (Central School) on Main Street in said Town on Saturday, the 15th day of March, A.D. 1980, at five forty-five o'clock in the forenoon, then and there to act on the following articles:

ARTICLE 1. To elect a moderator to preside at said meeting.

ARTICLE 2. To elect one Town Council member for a three-year term and one member of the Board of School Directors of S.A.D. #35 for a three-year term.

The Polls for voting on Article 2 will be opened at six o'clock in the forenoon and will be closed at three o'clock in the afternoon. The Business Session will be held at 7:30 P.M. in the South Berwick Civic Center (Central School).

ARTICLE 3. To see if the Town will vote to authorize the Town Council and Town Manager on behalf of the Town to sell and dispose of any real estate acquired by the Town for non-payment of taxes thereon, on such terms as they deem advisable, and execute quitclaim deeds on such property with the understanding that any property deeded before April 1, 1980 will be taxed this year to the grantee.

Town Council recommends adoption.

ARTICLE 4. To see if the Town will vote to authorize the Tax Collector to charge and collect interest at a rate of eighteen percent (18%) per annum, to be retro-active to September 1, 1980, on all taxes not paid on or before November 7, 1980.

Town Council recommends adoption.

- ARTICLE 5. To see if the Town will vote to authorize the Town Council and Town Manager to expend funds from the Highway Department Equipment Account as expenditures become necessary to purchase and/or replace Highway Department equipment.

Town Council recommends adoption.

- ARTICLE 6. To see what sum of money the Town will vote to raise and appropriate for General Government Expenses and for Election expenses.

Legislative	
Town Council, Town Clerk Salaries and expenses	\$ 6,855
Judicial	
Legal Fees	10,000
Executive	
Town Manager, Bookkeeper, Clerical Assistance, Supplies, Services, Dues and Capital Outlay	61,425
Elections	<u>2,500</u>
Total:	\$ 80,780

Town Council recommends a \$9,850 appropriation from the Non-tax Revenue Account and a \$70,930 appropriation from general taxation. Total: \$80,780

- ARTICLE 7. To see what sum of money the Town will vote to raise and appropriate for Hydrant Rental, Sewer System Rental and Street Lights.

Fire Hydrant Rental	\$ 16,450
Sewer System Rental	2,360

Town Council recommends a \$7,000 appropriation from Non-tax Revenue Account and a \$139,965 appropriation from general taxation. Total: \$146,965

ARTICLE 11. To see what sum of money the Town will vote to raise and appropriate for the equipment and materials costs for construction of approximately 650 feet of the Junction Road starting at Pond Road.

Town Council recommends \$4,440 from general taxation.

ARTICLE 12. To see what sum of money the Town will vote to raise and appropriate for support of the South Berwick Public Library.

Town Council recommends a \$1,250 appropriation from Non-tax Revenue Account and a \$8,580 appropriation from general taxation. Total: \$9,830

ARTICLE 13. To see what sum of money the Town will vote to raise and appropriate for the operation of the Fire Department.

Town Council recommends a \$32,900 appropriation from general taxation.

ARTICLE 14. To see what sum the Town will vote to raise and appropriate for purchase of a new pumper truck for the Fire Department.

Town Council recommends \$40,000 to come from the Fire Department Capital Improvement Fund.

ARTICLE 15. To see if the Town will vote to authorize the Town Council and Town Manager to issue bonds and/or notes in the name of the Town of South Berwick, not to exceed \$25,000, and to be repaid over a period of time not to exceed three (3) years for the purpose of purchasing a new pumper truck for the Fire Department.

Town Council recommends adoption.

ARTICLE 16. To see if the Town will vote to authorize the Town Council and Town Manager to issue bonds and/or notes in the name of the Town of South Berwick not to exceed \$100,000, and to be repaid over a period of time not to exceed ten (10) years, for the purpose of constructing and equipping a solid waste transfer station.

Town Council recommends adoption.

ARTICLE 17. To see what sum of money the Town will vote to raise and appropriate for operating expenses for the solid waste transfer station for the period of time September 1, - December 31, 1980.

Town Council recommends a \$19,200 appropriation from general taxation.

ARTICLE 18. To see what sum of money the Town will vote to raise and appropriate for Dispatch Services.

Full-time Dispatchers	\$ 30,160
Vacation, Holiday & Sick	
Leave Replacement	2,970
Part-time Dispatchers	1,375
Teletype, Microfilm, Paper, Etc.	<u>980</u>
Total:	\$ 35,485

Town Council recommends a \$35,485 appropriation from general taxation.

ARTICLE 19. To see what sum of money the Town will vote to raise and appropriate for the operation of the Police Department.

Town Council recommends a \$1,200 appropriation from Non-tax Revenue Account and a \$93,990 appropriation from general taxation. Total: \$95,190

ARTICLE 20. To see if the Town will vote to transfer a sum of money from the Reserve for Tax Losses and Liens Account for the purpose of Tax Abatements.

Town Council recommends transferral of \$6,000.

ARTICLE 21. To see what sum of money the Town will vote to raise and appropriate for Social Services.

Social Worker	\$ 4,100
Town Welfare	6,000
Health	500
Camp Waban - Adult Day Care	<u>300</u>
Total:	\$ 11,800

Town Council recommends a \$11,800 appropriation from general taxation.

ARTICLE 22. To see what sum of money the Town will vote to raise and appropriate for Town Boards, Committees and others.

Planning Board	\$ 1,425
Parks and Conservation Committee	625

TOWN MANAGER'S REPORT

To the Town Council and
Citizens of South Berwick:

It is with mixed emotion that I write this, my eighth and last, Annual Report detailing the business of South Berwick's Town Government. The privilege afforded to me to oversee the delivery of essential services such as fire, highway and police to the four thousand people who are South Berwick will forever remain with me. At the same time the prospect of new challenges excite me.

It is no more possible for 1980 than for the past years to depict here the hundreds of issues faced by the Town Government. Therefore, the following report can only summarize the most critical issues of 1980.

PROGRESS REPORT

1. THE SOLID WASTE DISPOSAL PROBLEM - This same heading started off last year's report. It has been a continuing problem since Federal and State laws mandated that open burning of trash stop almost ten years ago. With the approval of a bond issue at the 1980 Annual Town Meeting two years of planning a Solid Waste Transfer Station went into the construction phase. The plan was to open burn until the station was built in Fall 1980. However, an alleged threat to health created a mandate from the State to cease open burning in June. A temporary transfer station was built and used until October when the permanent transfer station opened. This cost over \$15,000 which hadn't been planned upon. The refuse currently is hauled to a private landfill in Rochester, N.H. In March of 1981 the refuse is scheduled to go to University of N.H. to be incinerated to help heat the campus buildings. As part of this refuse disposal system recycling of glass, newspaper, cardboard and aluminum cans was made an ordinance that applies to most of South Berwick's refuse. This recycling represents a true opportunity for you to save yourself tax dollars. The more items that you recycle the less it costs to dispose of your refuse. This solution will hopefully finally end the long search for a permanent solution to solid waste.

2. THE TOWN'S OBLIGATIONS TO RURAL ROADS - In the spring the Maine Supreme Court found against the Town's claim that Belle Marsh Road was abandoned by the lack of Town maintenance over the past thirty years. A Special Town Meeting raised \$26,000. It was almost all spent in constructing the mile and a half "path" into a road width of twelve (12) feet. In future years several other rural unbuilt roads will have to be built as they too are being developed with scattered houses. This development is extremely costly to service due to its remoteness (8-10 miles from the village) and lack of enough numbers of buildings to pay for Town service costs.

3. FIRST UNION CONTRACT SETTLED - The Police Officers and Emergency Services Dispatchers voted in early 1980 to unionize.

The Town hired a professional consultant to aid in the negotiations. The negotiations progressed well through the year to the signing of a three-year contract in the fall.

4. THE LARGEST SUBDIVISION EVER - In 1980 the Planning Board spent many hours working on a proposal to build 40 houses and 120 condominium units on the southern edge of the village. After much work the proposal was approved. It is anticipated that the construction will occur over about three years. At fifty units a year this subdivision alone will represent almost twice the traditional total annual growth of about 30 units, without any other building considered. Indeed, the growth that we have expected for the last few years has struck South Berwick!

5. SEWER DISTRICT CHARGE TO THE TOWN - Considerable time was spent by the Town Council requesting justification from the Sewer District of the "benefit assessment" charge of \$9,440 per year to the Town. As of year's end the issue was still unsettled and will continue into 1981.

DEPARTMENTAL OPERATIONS

The Fire Department has had the busiest year ever with calls up by 75% over 1979. In this year's report Fire Chief George Gorman has outlined what to do in case of fire in your home. PLEASE take time to read it carefully and then follow through with your family - its their lives at stake.

The Highway Department was supposed to have a very "quiet" year 1980 of now new construction to save money. As it ended up the Highway Department was busier than ever before with construction of part of Junction Road, excavation and filling for the solid waste transfer station and the construction on the Belle Marsh Road.

The Police Department has had its busiest year yet as the Police Chief's statistics show. The benefit of a stable Department, as is the Police Chief's trademark, can readily be seen.

In the Town Office the amount of work continues to grow, geometrically! In 1980 \$9,080 was taken in \$1.00 and \$2.00 service charges for doing vehicle registrations for the three Berwicks and Eliot. That figure represents close to 6,000 transactions alone.

FUTURE

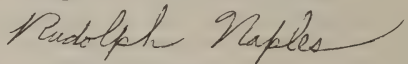

The future of South Berwick appears set - DRAMATIC GROWTH. The questions it brings to mind is whether it will be beneficial or detrimental to the community of people who make up South Berwick. The answer appears to less than hopeful. While the need for orderly residential growth and some added industrial tax base is expressed by most townspeople, few take an active role in making it happen. Those that do don't get much support from the remainder of the community. Representative Democracy needs the services of its members as a whole

continuously to work well. You don't need to spend ten years on the Planning Board, Town Council, etc. to fulfill that duty. However, regularly learning the issues of your Town by reading newspapers, voicing your opinion to officials and occasionally taking your turn at serving as an official is a necessity. I just haven't seen that happening enough recently to call the Town Government a healthy one. Most of the time only a handful of people are heard on an issue and even less that that usually turn out for elected or appointed Town Official jobs. Without fresh blood continuously the Town stagnates, spends too much time and money on trivial issues and lets "outside" developers and "inside" minority interests control its destiny. We have come to an acute stage of "Let George do it - itis." I can only bring it to your attention - you only can improve the situation.

CONCLUSION

Over the past eight years I have had the unique opportunity to work with many, many people who have given untold hours unselfishly to the Town's best interests. It would be impossible to list you all here. However, you may rest assured that list will stay in my memory forever. THANK YOU!

Respectfully submitted,

A handwritten signature in cursive script that reads "Rudolph Naples". The signature is written in dark ink and is positioned above the printed name.

RUDOLPH NAPLES

If liberty and equality, as is thought by some, are chiefly to be found in democracy, they will be best attained when all persons alike share in the government to the utmost.

BOARD OF ASSESSORS

1980 ANNUAL REPORT

As everyone is fully aware, 1980 has shown some dramatic shifts in the world of finances. These changes effect the value of individual properties as well as the real estate market in general. This in turn effects our assessment ratio and assessment quality rating. A few discrepancies in our assessment to sales ratio have become evident, mostly in vacant land values. Following further studies and thoughtful consideration it seems apparent that some upward adjustments in land valuations will become necessary. Hopefully, this will be done in a manner that will balance consideration for the property owner's financial limitation against the necessity of an equitable distribution of the fiscal responsibilities of the entire community. If you have read any of the local news items on this subject you quickly realize this is not a unique problem, given the volatile local real estate market and the desire to attain local assessment equity.

Even with the above mentioned deterrents our revaluation appears to have given us a sound base to work from. With continual watchfulness and analysis we should be able to make minor adjustments from year to year and in this way maintain some semblance of assessment quality and equity for quite sometime.

In closing the following aspect of our tax base should be given serious consideration and possibly planned community action. Our tax base desperately needs to be broadened by additional commercial or industrial properties otherwise the burden on residential property owners is going to become intolerable.

If you have any constructive ideas on this subject, please bring them forward.

Respectfully submitted,

George A. Giddings
Assessors' Assistant

CODE ENFORCEMENT OFFICER

1980 ANNUAL REPORT

1980 has been a very interesting year in this office. New construction and additions to properties governed by the Zoning Ordinance have added further insight into the benefits and deficiencies of the Ordinance. In struggling with the planning phases of a major development, some of the obvious future requirements of the town to meet eventual expansion became evident. Upgrading of water, sewer and roadwork are all going to be necessary, as well as some form of building code in order to retain a semblance of the rural life that we treasure in this rapidly expanding area.

Following is a general breakdown of building permits:

	1978	1979	1980
New residences: Single	33	20	20
Multi-family	3 (60 units)	2 (64 units)	2 (5 units)
Commercial Bldgs.	5	2	2
Mobile Home Inst.	13	4	6
Out Buildings	17	27	20
Additions	33	20	36
Renovations	11	20	17
Swimming Pools	5	3	2
Mobile Home Removals	4	4	0
Plumbing Permits	102	52	64

We successfully incorporated some changes in the Zoning Ordinance this year. Most of the changes were relatively minor, being clarifications in wording. However, one amendment allowed us to combine the older Building and Use Permit Ordinance with the Zoning Ordinance. Since they were already inter-related this simply means there will be just one ordinance to refer to instead of two.

Listed below are conditions that require application for a building permit.

1. All construction in Flood Plain Area.
2. All new construction over 200 square feet.
3. All alterations which change external building dimensions.
4. All alterations requiring new or relocated plumbing.
5. All moving or demolition of structures larger than 200 square feet.

Respectfully submitted,

George A. Giddings
Code Enforcement Officer

HIGHWAY DEPARTMENT

1980 ANNUAL REPORT

1980 started out with the intentions to be a year of cutting back all construction of unbuilt rural town roads in order to keep the overall 1980 Town Budget to a bare minimum. This intent was to only do maintenance work on the existing roads, thereby saving considerable monies. However, as it turned out, the Highway Department constructed as many unbuilt roads, if not more than, it had ever done in past years.

First due to the construction of a home on Junction Road, the Town had to construct to year round travel 700 feet of Junction Road that had never been built previously. Once that project was completed and the Town's obligation met, the Town received notification from the Maine Supreme Court that its request of them to have Belle Marsh Road declared an abandoned road under Maine laws due to lack of Town maintenance for an excess of thirty years had been turned down. The Town then had to also construct Belle Marsh Road to a minimal year round road status. A Special Town Meeting was held and \$26,000 was raised for this project. The project took close to three months to complete. The end product is that Belle Marsh Road from the intersection of Mountain Road to the York Town Line (a distance of about one and one-half miles) had small amounts of ledge removed, a large amount of bulldozing of rocks and stumps completed, a small bridge redecked and strengthened and approximately 6" - 1' of heavy road gravel applied to a width of about 12 feet. This allows slow-speed travel by vehicles operating in a cautious manner over the entire length of the road and provides the ability to snow plow the road during "normal" snowfalls.

In other related activity, the Highway Department spent much time doing the excavation and filling for the Solid Waste Transfer Station built at the old dump site. This activity was done first for a temporary station which had to be built in June per State Department of Environmental Protection order, and also the permanent station which was opened in October. This necessitated the moving of several thousand cubic yards of the remains of the old dump material and placement of close to two thousand yards of road gravel around the Transfer Station.

In addition to these major projects, the Highway Department did many minor maintenance projects including patching of roads, replacement of culverts, removal of trash from the business district, etc.

In the area of work that was contracted, approximately two miles of Town tar roads were sealcoated with sand cover and approximately another mile of Town streets were sealed with a tar and stone chip mixture, which is a new process to South Berwick and is being tried upon some of the village streets which were hottopped in the 1960's. This material gives a very hard surface which appears to have much durability and at the same time costs only one-fourth to one-third the amount that another overlay of hottop on these streets would cost us.

Highway Department (continued)

The first of this stone chip seal was placed upon Union, Paul and Highland Streets, as one of its characteristics is improving traction according to its proponents and we are testing it to see if it is the case. Thus far this winter, it does seem to be proving out quite well.

During the deliberations for the 1981 Budget, the Council has re-established in the Public Works Budget sufficient monies to once again continue with the long term plan to construct the remaining rural dirt roads of the Town. In 1981 work is planned to be done on Ogunquit Road starting at the Bennett Lot Road and running easterly toward the York Town Line. In following years, this project would be continued to the Old County Road and the Mountain Road. This construction includes removing ledge outcrops, bulldozing large boulders, stumps, etc. out of the road and finally placing sufficient road gravel to provide for two lane traffic.

Also looking at the future, the State plans to re-construct the wooden bridge over the Piscataqua River on the Dover-Eliot Road (Route 101) this coming year, barring unforeseen problems or financial cutbacks. At this time they have already obtained easements for widening the access to the bridge. We are all very happy to see this come to fruition as this bridge has been a hazard to traffic for sometime.

Looking at snow removal for the past year, we were able to save considerable monies due to the lack of snowfall during the early months of 1980 and also the minimal amount of snowfall during late 1980; to the effect that some \$13,000+ was turned back into the unappropriated surplus account at the end of 1980 from the snow removal accounts. Our budget for the future year reflects an average winter snowfall as we can not bank upon continuation of the extraordinarily light snowfall we have been experiencing the past year. In the area of snow removal we have annually tried in this report to advise you that you can yourself save many tax dollars by doing the following things during snow storms:

Keep your vehicle and other objects off public roads during and immediately after the snowfall so that plows do not have to double back and re-plow streets.

Do not plow or place snow into the streets from your property as this also often requires re-plowing and additionally is hazardous to travelers on our narrow streets.

Finally, if there are large snowfalls which build up large banks do not park vehicles close to the public road ways and those banks, but rather park them onto your property several feet. It is often not possible for a snowplow operator to see vehicles parked in those banks until it is too late.

They may well be hit by the snowplow causing both damage to your vehicle and down-time to the snowplow.

Highway Department (continued)

In the area of equipment in 1980, we did not purchase or replace any highway department equipment. It is anticipated that in 1981 the 1973 dump truck would be replaced with a diesel-powered truck as it has been run extensively and, also, a diesel truck would get much better fuel economy.

As it is true in all years, it is not possible to give here all of the individuals and groups who have assisted in making our workload easier throughout 1980. We therefore, give all townspeople, elected officials, other Town departments, neighboring community officials and state officials our sincere gratitude at this time for their assistance to us.

Respectfully submitted,

Rudolph Naples
Road Commissioner

Donald Boston
Road Foreman

PARKS AND CONSERVATION COMMITTEE

1980 ANNUAL REPORT

The seven member Conservation Committee meets twice a month on the first and third Wednesdays. The following highlights some of the activities in which we engaged during 1980:

1. We canoed down the Great Works River from Junction Bridge to Great Works for the purpose of removing blown down trees and other blockages. This has become an annual event for the committee and any other interested people. Come join us in the Spring of 1981!

2. In lieu of assisting the Scouts during May's roadside clean-up day, we began clearing brush in the area between the Counting House and the Sewer District's Treatment plant. This plot belongs to Central Maine Power Co. and they are allowing us to create a small scale park on the site.

3. We still budget for and plant a small number of trees as part of Maine's Municipal Shade Tree Planting Program. If landowners in the village area desire to have trees planted along the street please contact the Conservation Committee via the Town Office.

4. We sponsored four Junior High students for a week at Conservation Camp, Bryant Pond, Maine. The enthusiastic response from these students is encouraging and we plan to continue this worthwhile program.

5. We recently attended a workshop in Alfred describing energy conservation programs. We hope to sponsor a workshop here in South Berwick in 1981.

We are always open to ideas from the public and invite townspeople to our meetings. Please come and participate.

Respectfully submitted,

David Stansfield, Chairman

THE PLANNING BOARD

1980 ANNUAL REPORT

During the year 1980 the Planning Board held regular meetings the second and fourth Monday of each month, approximately twelve workshops held on alternate Mondays, several Public Hearings plus all necessary field trips.

The final results show:

- 3 subdivisions processed
- 1 subdivision refused
- 1 subdivision withdrawn
- 9 conditional permits approved
- 3 conditional permits refused
- 4 temporary permits approved

One of the subdivisions processed was the 159 unit Levesque subdivision on the Goodwin property on Route 236. This should bring in considerable tax dollars plus adding to and improving the sewer and water services in that area.

We are now working with Mr. Flynn on a new Health Care Facility on Route 4. This is an excellent locations and will benefit many senior citizens.

During the past year we reviewed our Zoning Ordinance and submitted several amendments and clarifications to the existing Ordinance. All items, except one, were accepted and ratified by the Council. These are now being incorporated into the present Ordinance and should help simplify problems that may arise in the future.

All townspeople are invited to attend our meetings and we welcome any and all participation.

Respectfully submitted,

Harland Goodwin, Chairman
Arthur Stansfield
Owen Stevens
Robert Howarth
Frank Biehl
Stanley Shapleigh

RECREATION COMMITTEE

The South Berwick Recreation Committee is proud to report a very successful program for the year 1980.

Our summer staff, under the wonderful direction of Sandy Trembly, enabled the youth of our town to enjoy a happy and constructive summer. (Thank you staff for a job well done.)

A new line of mini-courses were offered and were well received.

The Annual Road Race was a complete success with more and more runners participating each year.

The Halloween parade brought approximately 350 ghosts and goblins into the Civic Center to be judged for ribbons and given treats.

We helped to send our Senior Citizens on two trips this past year.

Powder House Hill did not open as often as we had anticipated. It was lack of snow (not lack of workers) that kept the hill closed.

We found that public input into our activities was much stronger this year. For this, we would like to say, Thank you. Your support, ideas and encouragment will surely strenghten our program.

Respectfully subritted,

Bonnie Cabe, Chairman

SOCIAL SERVICES

1980 ANNUAL REPORT

Since beginning the job as social worker late in September, a great deal of my time has been spent acquainting myself with the needs of the people in South Berwick and the various state and county services available to them.

In November of 1980, the students of Central School brought canned goods and fresh produce in to school from their homes. These foods were delivered to needy families in South Berwick for Thanksgiving.

In December, with money donated by a local organization I purchased five turkeys and a ham. A large native turkey was also donated by a local family. With these items, and some donated canned goods, I was able to deliver all the essentials for a Christmas dinner to seven needy families in South Berwick.

During 1980, the local churches continued, through a volunteer effort, to provide transportation for the elderly to the congregate meal site in Berwick. These volunteers deserve special thanks for donating their time and cars to provide this service.

The York County Community Action Corporation has continued to provide transportation to elderly persons for shopping every Friday. Any elderly person interested in using this service should call the CAP agency at 1-800-442-6345. This agency also now has an outreach worker available at the Town Office every Tuesday from 1:00 to 3:00 p.m. to discuss the various programs they have available. This includes such programs as fuel assistance, weatherization and nutrition.

For those desiring information about food stamps, there is a representative from the food stamp program at the Town Office on the second and fourth Thursday of every month from 1:00 to 3:00 p.m.

Transportation for medical appointments is available to any South Berwick resident who is unable to provide their own. However, I encourage people to make use of transportation from friends or relatives whenever possible.

Anyone in need of information or assistance can reach me at the Town Office during regular office hours.

Respectfully submitted,

Vicki Desilets
Social Worker

SOUTH BERWICK EMERGENCY AMBULANCE AND RESCUE, INC.

1980 ANNUAL REPORT

1980 marked the 20th anniversary of the South Berwick Emergency Ambulance and Rescue Squad as a volunteer rescue unit serving the emergency medical needs of our community. We answered a total of 226 emergency calls:

Acute Medical	111	Industrial	6
Home Accidents	44	DOA	8
Cardiac	20	Overdose	6
Auto Accidents	20	Medical Assistance (no transport)	11

Each squad member donates an average of 984 hours of "duty" per year. Each person has one 12 hour night shift per week, plus approximately 15 weekend 24 hour shifts per year. Duty means that the person is on call and able to respond to the station if a call for the ambulance comes in. Also 7 of our personnel are presently enrolled in a 100 hour E.M.T. (Emergency Medical Technician) course being held two nights per week at Marshwood High School. All current licensed E.M.T.'s must take a refresher course every two years in order to stay licensed, plus all personnel must take CPR training yearly to be licensed. Additional housekeeping duties and keeping the unit in top shape were done by all.

The S.B.E.R. welcome Robert Gagne', George Prime, Keith and Jay Redimarker, Randy and Judy Churchill and Rod and Jeff Vaillancourt to the ranks as ambulance attendants. Six members resigned. Even though our total active roster stands at our workable maximum of 24, anyone who feels he or she can donate time and become trained, can fill out an application form, which will be placed on file, to draw from when vacancies occur. Each year there are personnel changes due to people moving from the area, going away to college, or just not being able to continue an active part in the unit.

The medical building continues on "hold". With the present condition of the economy, especially the high interest rates, the building project remains in the future.

The major project for 1980 was full-time summer day coverage. For summer, three attendants were contracted to be on "duty" 12 hours per day, of which a minimum of four hours per day were spent at the station. In addition to taking all weekday calls, the summer attendants renovated the station. For the past several years, our average oil consumption was over 1100 gallons per year, so the first priority was energy conservation. The attic has been heavily insulated, the outside walls sealed, bay walls and ceiling painted, a ceiling installed over the office and bathroom (also well insulated) and an overhead fan placed in the bay to keep the air circulating. In addition, the office and bathroom have been papered and painted, a new tile floor laid, shingles on the roof repaired, a section of the lawn reseeded, plus the vehicles maintained inside and out. The squad hired, and the day crew assisted, in having a new efficient furnace installed, a block/brick chimney built (to replace the old pipe

South Berwick Rescue Squad (continued)

which had badly rusted) and replacing the bay floor. The building is now in top shape with the above needed repairs completed.

The success of the summer program made the S.B.E.R. realize that we just can't continue to provide the quality service which the town expects without help. The squad knows that the only way to run an ambulance service is by giving quality. There are no shortcuts when dealing with medical emergencies. The squad over the past 20 years has accepted the responsibility for providing quality emergency service to our citizens. It is our concern for being able to continue to provide this quality service that finally brought about a unanimous decision at our October meeting to request financial assistance from the Towns of South Berwick and Rollinsford (\$12,000 from South Berwick and \$3,000 from Rollinsford).

The primary use of this money will be to hire a full-time administrator/attendant to work 40 hours per week making day calls and doing all the administrative work presently being done by others (in addition to the usual "duty" time). This will include billing non-members for the use of the ambulance, making monthly duty schedules, answering state questionnaires and filling out state forms, taking charge of monthly training, maintaining the facility and vehicles, purchasing supplies and applying for grants. Most important, this person will make day calls, an area in which we badly need help.

The S.B.E.R. thought of alternatives to asking the towns for money which included: increasing the yearly membership fee, holding suppers, selling raffle tickets, etc., but none of these would raise sufficient money to hire the person needed and plan for the future (replacement of vehicles for example). The S.B.E.R. did not want to make our long time supporters pay more while others pay nothing. We also do not feel that we can ask our volunteers to give more of their time by selling tickets (again to the same people who always buy), being on supper committees, etc.

We plan on and must continue our annual membership drive which will offer FREE EMERGENCY service to those who subscribe. All others will be charged \$50.00 for using the service. The S.B.E.R. will operate as it has in the past: EMERGENCY SERVICE ONLY, no transfers from hospital to home, hospital to hospital, or pre-arranged calls at prescribed times. The fund drive money is needed to keep the unit running. This year our usual funding was not enough, we had to borrow to keep operating, and presently we are near the end of our funds.

Therefore, the squad has voted to request a non-binding referendum on election day in March 1981, asking for \$12,000 from the Town of South Berwick. This will enable each of you the opportunity to express your wishes in regards to giving the S.B.E.R. money from your/our tax dollars. In the event the referendum is favorable, the squad will request a special town meeting to allocate the funds.

South Berwick Rescue Squad (continued)

As outlined above, we must continue the annual fund drive and we will diligently bill those who are not members for using the ambulance. Yes, we have many new volunteers eager to serve our community, but new people take a long time to replace a trained experienced attendant; yes, we have junior members who give much in addition to being high school students; yes, we have the "old stand-bys" who have served many a year; and yes, we now need you. Please go and vote, exercise your right to make your opinion count. Thank you.

S. B. E. R.

SOUTH BERWICK FIRE DEPARTMENT

1980 ANNUAL REPORT

Grass and Woods Fires	40
Chimney Fires	20
Structure Fires	7
Accident and Vehicle Fires	20
Dump Fires	4
Furnace and Stove Fires	5
Electrical Fires	5
False Alarms	11
Out of Town Calls	21
Other Calls	15
Still Alarms	27
Total	<u>175</u>

Fire Permits	175
Fire Damage	\$70,000

Fire Hose Used

1½"	2½"	3"	4"	
6,000	4,700	2,500	1,000	Total 14,200 feet

In 1980 the fire department responded to a record 175 calls, a 75% increase over 1979. Because of the lack of snow we had an increase in grass and woods fires. Chimney fires and structure fires were also up. Improper use and placement of wood stoves were the cause of many of the structure fires.

All homes and apartments should have a smoke detector, a family safety plan and know what to do in case of a fire during the night.

1. Minimize fire hazards in your home. Repair faulty wiring. Store oil, rags and flammable material in well ventilated areas or outside in a shed. Never smoke in bed.

2. Do not empty ash trays into the trash can before leaving the house or going to bed.

3. If you are using a coal or wood burning stove, make sure it is installed according to regulations.

South Berwick Fire Department (continued)

4. Draw a floor plan of your home or apartment showing at least two escape routes from each room.

5. Hold family fire drills on a regular basis.

6. Establish a pre-arranged meeting place outside your home or apartment building.

7. Test your smoke detector once a month with smoke.

What to do in case of a fire during the night.

1. Bedroom doors should be kept closed while sleeping to act as a smoke and heat barrier in case of a fire. They will not stop the fire, but will give you time to evacuate to safety.

2. If your smoke detector goes off, or you wake up and smell smoke, DO NOT sit up in bed. Smoke and heat will build up on the ceiling and work its way down to the floor. One breath of this heated smoke and you will never get out of bed.

3. Roll out of bed, warn the rest of the family, stay close to the floor.

4. When you get to the door, DO NOT open it, feel it first, if it is too hot go to your second means of escape.

5. DO NOT get dressed or try to take anything with you. Time is very important. Seconds could mean the difference between life and death.

6. When you get out, help others to escape. Go to your pre-arranged meeting place.

7. Go to the neighbors to call the fire department. One person must stay behind to let the fire department know that everyone is out of the house.

Respectfully submitted

George Gorman
Fire Chief

SOUTH BERWICK POLICE DEPARTMENT

1980 ANNUAL REPORT

Your police department has had one of the busiest years in its history in 1980.

The department had no change over in personnel in two years. This is a record for the department. The department consists of the following full-time officers: Clifford Parkinson, Frank Waters, Jeffrey Daigneault and Dana Lajoie. The reserve force consists of three men: Norman Mello, Mark Leach and James Morrisette.

The number of motor vehicle accidents this year were decreased from last year. 1980 showed 83 motor vehicle accidents which resulted in \$130,731.00 in property damage, while in 1979 there were 137 accidents with \$122,066.00. The increase in the value of property damage is due to one accident involving a tractor trailer at \$40,000.00.

We were very aggressive in traffic enforcement during the year, as you will notice in the statistics below. The number of drunk drivers arrested was increased along with the number of people stopped for speeding violations.

In training for 1980, Officers Frank Waters and Jeffrey Daigneault completed the 12 week Basic Police School at the Maine Criminal Justice Academy. All South Berwick full-time Police Officers are now fully certified by the State of Maine. This is also a first for the department.

Crime increased slightly in 1980. Burglaries increased from 28 in 1979 to 38 in 1980. Larceny increased from 43 offenses in 1979 to 58 in 1980. The item most popular in larcenies were bicycles, which attributed to 31.6% of all larcenies. Statistics also showed that 27.3% of all burglaries were committed during day light hours and that 64.3% of all burglaries committed were residential. However, South Berwick continues to have one of the highest clearance rates in York County for the third year in a row. 35.9% of all crimes committed in South Berwick for 1980 were cleared. The State average for crimes cleared is running around 26%.

The department hopes to be able to go into the schools in the upcoming year and talk to children about bicycle safety and securing their bikes when not in use in an attempt to decrease the number stolen.

The department did have its bicycle safety and registration day this year, but we were disappointed in the number of children turning out for the event. We urge parents to assist in encouraging their children to participate in the upcoming year.

South Berwick Police Department (continued)

Listed below are some various statistics for the department:

	1980	1979
Total complaints answered	2,243	2,046
Warnings issued	694	657
Defects issued	398	404
Total arrests and summons	1,018	861
Harassment	1	0
Terrorizing and reckless conduct	3	6
Failure to stop for school bus	1	0
No license and operating after suspension	121	58
Speeding	421	373
Unregistered and illegal attachment of plates	71	36
Uninspected and unsafe motor vehicles	102	83
Driving to endanger	8	13
Operating under the influence of liquor or drugs	74	63
Criminal mischief and disorderly conduct	19	11
Criminal trespass	7	0
Criminal threatening	4	0
Exhaust and noise violations	22	19
Hitchhiking after dark	2	5
Obstruction of government administration	2	7
Failure to stop for a police officer	7	5
Dogs unlicensed and running at large	21	9
Keeping dangerous dog	1	0
Impeding an emergency vehicle	1	1
Stop sign and line violation	45	47
Failure to sign traffic ticket	5	9
Burglary	11	10
Larceny theft	8	6
Assaults including non-aggravated	11	7
Assault on police officer	2	0
Failure to report accident	5	0
Drug violations	3	2
Liquor violations by minor	30	0
Littering	3	0
Obstructing public way	2	0
Burning without a permit	2	2
Following to close	1	0
Negotiating worthless instrument	1	2

South Berwick Police Department (continued),

The South Berwick Police Department wishes to express its appreciation for the support and assistance we have received in 1980 from the citizens of South Berwick.

We also would like to thank the South Berwick Fire Department and the South Berwick Rescue Squad and South Berwick Emergency Dispatch Center, as well as the Town Council, Town Manager, and area police departments along with the Maine State Police for the assistance during the year. We look forward to a close working relationship as we have always had in the past.

We again ask all citizens to watch for suspicious activity in their neighborhood day or night, and contact us immediately. Thank you for your cooperation.

Respectfully submitted,

Timothy A. Berry
Chief of Police

SOUTH BERWICK PUBLIC LIBRARY

1980 ANNUAL REPORT

In 1980, the ninth year of its existence, the South Berwick Public Library continued to play an important role in the Town's life.

Many months of 1980 saw over 1,000 books circulate, with a high in July of 1,400 volumes leaving the library. This is just one indication of how many people our services reach.

In the spring, over 175 children participated in activities surrounding National Book Week. In cooperation with the Elementary School Librarian, April Frost, our library continues to make its impact on our children, helping to bring reading for pleasure into their lives.

The library was once again in the public eye this summer when we took part in the Strawberry Festival with our annual entry, the used book table. In August, as part of a gala open house, arranged by caretakers Bob and Yolanda Veit, for the Sarah Orne Jewett House, the library played host to over 250 interested people. Our student volunteers provided library tours and served from punch bowls and trays of cookies on the lawn between the Jewett and Eastman House. These proved to be as popular as the showing of the locally filmed Jewett story, "The White Heron".

The acquisition of this lively film as a permanent part of the library collection is a goal which the Library Advisory Board has set, perhaps as an initial project around which to rally a new Friends of the Library group. The original Friends group now lies dormant, and we are seeking interested people to help revitalize this organization. The first step will be to update the old membership lists. Any person who feels that he or she can help should feel free to contact our Librarian, Kitty Davis. We are looking for new ideas and willing hands so that the Friends can exist in more than name only.

The Board also would like to use this space to alert any person with time and enthusiasm to contact Kitty about becoming one of her regular volunteers. In October a dinner was held, thanks to an anonymous and generous patron, to honor our loyal library assistants. In recognition of their efforts, one book for each volunteer was placed on the library shelves. Without the valuable assistance given by these willing workers our library would not be able to function in its efficient way.

Renovation of a storage room in the back of the library was recently completed. This work, which had to be done in compliance with our landlord, the New England Society for the Preservation of Antiquities, has provided additional room to house our growing collection.

South Berwick Public Library (continued)

If you would like the satisfaction of helping to guide the growth and direction of the library, please consider applying for one of the several vacancies which will occur on the Library Advisory Board in March.

Once again, we would like to express our admiration and gratitude to Mrs. Davis for her enthusiastic devotion to the library, which exceeds by far, "the call of duty".

REPORT OF THE TOWN CLERK

The duties of a Town Clerk are many, varied and very interesting. This year was no exception as the following statistics will show:

Marriages recorded	82
Deaths recorded*	8
Births recorded*	0
Dog Licenses issued	394
Kennel Licenses issued	8
Fish & Game Licenses	819
Pheasant Stamps	15

* These events occur mostly out of state and not recorded locally.

This past year was a very exciting year. After attending various seminars and completing required courses over a period of several years, it was possible to earn the title of being a Certified Clerk of Maine. The program is so structured that recertification can be obtained every five years. It appears to me that through the certification process, more and more of the duties assigned to a town clerk should be performed uniformly.

As everyone knows, many elections were held this past year and it was very gratifying to see an approximate 80% voter turnout on November 4th.

My employment under the supervision of Mr. Naples, Town Manager has been very rewarding. As he now ventures to another position, I would like to extend my best wishes for success in any future endeavor he may undertake.

Respectfully submitted,

Beatrice W. Nutter
Town Clerk

ZONING BOARD OF APPEALS

1980 ANNUAL REPORT

The Zoning Board of Appeals heard eleven appeals during 1980 with one being a re-hearing because the Board did not reach a decision within the required twenty days.

The ten decisions rendered by the Board were broken down into two variances granted, one administrative appeal denied, one in which the Board agreed with the appellant and six denials of variance.

As expected, the Zoning Board of Appeals receives its share of criticism from the public. However, most of the criticism came from citizens who were not at the public hearings but who heard testimony and decisions from second hand sources.

Except for one hearing, attendance by abutters and citizens was poor. The Board would like nothing better than to have a full house at each hearing so that all points of view can be heard and considered.

Respectfully submitted,

D. Michael Weston, Chairman

JOHN F. DYER

CERTIFIED PUBLIC ACCOUNTANT

22 MONUMENT SQUARE
PORTLAND, MAINE 04101
TELEPHONE (207) 773-2981

Town Council
Town of South Berwick, Maine

I have examined the financial statements of the various funds and the general long-term debt account group of the Town of South Berwick, Maine for the year ended December 31, 1980. My examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as I considered necessary in the circumstances.

The Town has not maintained a record of its general fixed assets and, accordingly, a statement of general fixed assets required by generally accepted accounting principles is not included in the financial report.

In my opinion, the financial statements present fairly the financial position of such funds and the general long-term debt account group of the Town of South Berwick, Maine at December 31, 1980 and the results of operations of such funds for the year then ended in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

The accompanying supplemental data, presented in Schedules 1 and 2 are not necessary for a fair presentation of the financial statements, but are presented as additional analytical data. This information has been subjected to the tests and other auditing procedures applied in the examination of the financial statements mentioned above and, in my opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

TOWN OF SOUTH BERWICK, MAINE
NOTES TO FINANCIAL STATEMENTS

December 31, 1980

1. Summary of significant accounting policies

The accounting policies of the Town of South Berwick, Maine conform to generally accepted governmental accounting policies except for the omission of general fixed assets and the use of the cash basis to record expenditures (see Note 2).

Basis of accounting

The accounts of the Capital Projects, Capital Reserve and Trust Funds are maintained and reported on the accrual basis. The General Fund is maintained and reported on the modified accrual basis except for General Fund expenditures which are recorded when paid.

Under the modified accrual basis of accounting, revenues are recorded when received in cash except when they are both measureable and available as resources that can be appropriated. Expenditures, except for interest on general long-term debt which is recorded when it becomes due, are recorded when goods or services are received and actual liabilities are incurred.

Budgetary accounting

General governmental revenues and expenditures are accounted for in the General Fund and are controlled by a budgetary accounting system in accordance with legal requirements.

Trust Funds

Restricted funds for which the Town has a fiduciary responsibility are accounted for in the Trust Funds.

TOWN OF SOUTH BERWICK, MAINE

NOTES TO FINANCIAL STATEMENTS

December 31, 1980

1. Summary of significant accounting policies (cont'd)

Obligations

General obligation notes supported by general revenue are obligations of the Town as a whole and not its individual constituent funds. Accordingly, unmatured obligations are accounted for in the long-term debt account group.

Investments

Trust Fund investments are stated at cost.

2. Unrecorded liabilities

Had the Town utilized the modified accrual basis of accounting which requires that known liabilities be recorded, expenditures would have increased by \$1,526 for the year ending December 31, 1980.

TOWN OF SOUTH BERWICK, MAINE
NOTES TO FINANCIAL STATEMENTS
December 31, 1980

3. Capital improvement and equipment notes payable

TOWN OF SOUTH BERWICK, MAINE
NOTES TO FINANCIAL STATEMENTS
December 31, 1980

4. Pension expense

All full-time permanent employees of the Town are covered by participation in the Maine State Retirement System. Pension costs to the Town are actuarially determined by the State. Under the terms of the plan selected by the Town there are no prior service costs. The actuarially computed value of vested benefits to the Town's participants has not been determined. The Town's policy is to fund pension cost accrued.

Total pension expense of the General Fund amounted to \$8,433 in 1980.

5. Building fund

The assets of this fund consist of the purchase price of the municipal building acquired in 1974 and related renovations.

South Berwick Sewer District

South Berwick, Maine

I, as Treasurer, would like to thank the Town of South Berwick, who for the last sixteen years has made it possible for the South Berwick Sewer District to help keep its rates low. Any monies which we have saved will benefit the Town in the near future. The Town has a legal obligation to assist in the cost of upgrading our treatment plant to meet today's federal requirements and as my report of the financial status for the South Berwick Sewer District for the period ending 12/31/80, I submit the statement of our auditor, Ervin W. Burleigh, Certified Public Accountant, of Rochester, New Hampshire.

PHILIP R. HENDERSON
Treasurer

ERVIN W. BURLEIGH

South Berwick Sewer District
South Berwick, Maine 03908

To the Board of Directors:

We have examined the balance sheet of the South Berwick Sewer District as of December 31, 1980, and the related statements of income and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In my opinion, the accompanying balance sheet and statements of income and changes in financial position present fairly the financial position of the South Berwick Sewer District at December 31, 1980, and the results of its operation for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of

NOTES TO FINANCIAL STATEMENTS

December 31, 1980

NOTE 3

The Sewer District is currently working with the state of Maine Department of Environmental Protection and their engineers on plans for upgrading the treatment plant to meet the requirements of the E.P.A. Phase I of this project has been contracted at a cost of \$85,800.00, of which 90% will be funded by state and federal grants.

Phase II of the project will be replacement of the current treatment plant. Estimates are that this will cost well in excess of \$1,000,000.00, with 90% of the funding available through state and federal grants. At this same time, new interceptor lines will be installed to service the Junior High School and the lower Academy Street area. This project may also require the installation of a pumping station. Estimates of the cost are in excess of \$1,000,000.00 with no state or federal grants being available.

REPORT OF THE SOUTH BERWICK WATER DISTRICT

In compliance with the rulings of the Public Utilities Commission of Maine, the Trustees of the South Berwick Water District submit the following report which covers the year ending December 31, 1980.

In 1980 and also 1981 the Trustees have been deeply involved in the study, planning and financing of the Water Distribution System improvement. This is aimed at trying to bring the fire flow in most areas up to par.

Accountants' Report

Board of Trustees
South Berwick Water District
South Berwick, Maine

We have examined the balance sheet of South Berwick Water District at December 31, 1980 and 1979 and the related statements of income (loss) and retained earnings (deficit) and changes in financial position for the years then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the aforementioned financial statements present fairly the financial position of South Berwick Water District at December 31, 1980 and 1979 and the results of its operations and the changes in its financial position for the years then ended, in conformity with generally accepted accounting principles applied on a consistent basis.

SOUTH BERWICK WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1980

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Regulation:

The Company is subject to the regulatory authority of the Public Utilities Commission of the State of Maine as to financial reporting and other matters.

Property, Plant and Equipment:

Utility property is stated at cost and depreciated on the straight line method at rates varying from 1% to 15%. Water property retirements are charged in total to the accumulated depreciation account when they occur. No depreciation is taken on assets acquired by contributions in aid of construction.

Material and Supplies:

Inventories of materials and supplies are stated at cost.

Unamortized Debt Discount and Expense:

Cost incurred to issue long-term debt together with discounts allowed at the time of issue are amortized on a straight line basis over the term of the debt.

NOTE 2 - INVESTMENTS:

Bond Sinking Fund:

Custody of the sinking fund assets is maintained by the trustees of the District. A statement of the bond sinking fund's financial condition is contained in Schedule A-1.

\$143.

Savings Account:

As part of a loan agreement dated September 20, 1979, with the Farmers Home Administration, the District agreed to maintain a reserve account in the amount of \$320. per year until \$3,205. is reached. As of December 31, 1980, a savings account had been established for this purpose and had a balance of \$401.

\$401.

\$544.

SOUTH BERWICK WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
DECEMBER 31, 1980

NOTE 3 - OTHER DEFERRED CHARGES:

Other deferred charges consist of the following:

Costs incurred in connection with a filing with the Maine Public Utilities Commission for a rate increase (to be amortized over a three year period).	\$ 3,150.
---	-----------

Expenditures in connection with a water distribution study and application for grants and loans to fund proposed improvements to the water distribution system (upon completion of these projects the costs will be allocated to appropriate asset accounts and charged to income over their respective useful lives.	<u>17,491.</u> <u>\$20,641.</u>
---	------------------------------------

NOTE 4 - LONG-TERM DEBT:

Bond Issue - 4½% - Issued on June 15, 1961 and maturing on June 15, 1981.	\$ 30,000.
---	------------

Bond Issue - 7½% - Issued October 1, 1980 and maturing on October 1, 1990. An annual appropriation of \$5,000. is to be made to the bond sinking fund.	205,000.
--	----------

Farmers Home Administration - Water Bonds - 5% - Issued on September 20, 1979 and maturing as follows:

\$500. on the 20th day of September 1981 - 1989	\$ 4,500.	
\$1,000. on the 20th day of September 1990 - 1999	10,000.	
\$1,500. on the 20th day of September 2000 - 2009	15,000.	
\$2,500. on the 20th day of September 2010 - 2019	<u>25,000.</u>	<u>54,500.</u>
		\$289,500.
Less: Current Portion		<u>30,500.</u>
		<u>\$259,000.</u>

NOTE 5 - OTHER INFORMATION:

The District filed with the Maine Public Utilities Commission in June 1980 for an increase in water rates. As of December 31, 1980 the rate increase request was still under study by the P.U.C..

ANNUAL REPORT - "VAUGHAN FUND"

To: Clayton Estabrooke, Chairman of the Trustees, the Trustees, and the residents of South Berwick.

During the period of January 1, 1980 through December 31, 1980, the Vaughan Fund realized from interest and dividends an income for disbursement in the amount of \$6,202.93.

Thirty-eight (38) shares of CIT common stock were sold at a capital gain, and the proceeds were reinvested in a Certificate of Deposit which yields a higher rate of interest (10.65%).

The Trustees voted on January 28, 1980, that a grant of \$4,750.00 be made available for use in the South Berwick Municipal Recreation Program and a grant of \$750.00 be made available for use in the South Berwick Public Library.

Expenses for the year 1980 amounted to \$325.00

The Vaughan Fund continues to add to the quality of life in our community through the valuable support it affords to our Municipal Recreation Program and our Public Library.

Respectfully submitted,

Ruth M. Howarth
Secretary-Treasurer

For the Town Council of South
Berwick, Successor Trustee
u/w/O Elizabeth R. Vaughan

TOWN OF SOUTH BERWICK, MAINE

WARRANT

State of Maine
County of York, ss.

To Timothy A. Berry, Constable of South Berwick, in the
County of York, State of Maine.

GREETINGS:

In the name of the Town of South Berwick you are required
to notify the inhabitants of said Town qualified to vote in Town
affairs to assemble at the Civic Center (Central School) on Main
Street in said Town on Saturday, the 21st day of March, A.D. 1981,
at five forty-five o'clock in the forenoon, then and there to
act on the following articles:

ARTICLE 1. To elect a moderator to preside at said meeting.

ARTICLE 2. To elect two Town Council members for three-year
terms, one Town Council member for a two-year term,
one member of the Board of School Directors of
S.A.D. #35 for a three-year term and one member of
the Board of School Directors of S.A.D. #35 for a
one year term.

The Polls for voting on Article 2 will be opened at
six o'clock in the forenoon and will be closed at
three o'clock in the afternoon. The Business
Session will be held at 7:30 P.M. in the South
Berwick Civic Center (Central School).

ARTICLE 3. To see if the Town will vote to authorize the Town
Council and Town Manager on behalf of the Town to
sell and dispose of any real estate acquired by the
Town for non-payment of taxes thereon, on such
terms as they deem advisable, and execute quitclaim
deeds on such property with the understanding that
any property deeded before April 1, 1981 will be
taxed this year to the grantee.

Town Council recommends adoption.

ARTICLE 4. To see if the Town will vote to authorize the Tax
Collector to charge and collect interest at a rate
of eighteen percent (18%) per annum, to be retro-
active to September 1, 1981, on all taxes not
paid on or before November 6, 1981.

Town Council recommends adoption.

ARTICLE 5. To see if the Town will vote to authorize the Town Council and Town Manager to expend funds from the Highway Department Equipment Account as expenditures become necessary to purchase and/or replace Highway Department equipment.

Town Council recommends adoption.

ARTICLE 6. To see what sum of money the Town will vote to raise and appropriate for General Government Expenses and for Election expenses.
